

Alaska Marijuana Control Board

Operating Plan Supplemental Form MJ-05: Marijuana Product Manufacturing Facility

Section 4 – Proposed Marijuana Concentrates and Marijuana Products

Review the requirements under 3 AAC 306.520 - 3 AAC 306.525 and 3 AAC 306.560, and identify how the proposed establishment will meet the listed requirements. **Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.**

Product Name:	Kief
Type:	Concentrate/hash

Product Description: Details must include the color, shape, and texture.	Color can vary from off-white to dark brown. Texture is a grainy and/or powdery. Shape is tiny round trichome crystals.
------------------------------------------------------------------------------------	-------------------------------------------------------------------------------------------------------------------------

Ingredients: This box is not applicable to marijuana concentrates	
-----------------------------------------------------------------------------	--

Standard Production Procedure and Detailed Manufacturing Process:	During trimming kief will be collected using screens with traps under all trimming activities. Alternatively, marijuana flower can also be frozen and then spun at high speeds in a Pollinator or similar machine, that collects the kief as the frozen flower is spun.
--------------------------------------------------------------------------	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.
