**MEMORANDUM**

TO: Chair Springer and Members of the  
Marijuana Control Board

DATE: April 4, 2018

FROM: Erika McConnell, Director

RE: Rosie Creek Farm #10005  
Standard Cultivation Facility

This cultivation facility licensee, located in Fairbanks, is requesting to add eight structures within their licensed premises and commensurate changes to their operating plan.

At least some of the structures were constructed on the licensed premises in the summer of 2017 without the approval of the board, and some of the new structures were used for marijuana trimming and storage without the approval of the board. Not only are these violations, but they caused camera coverage violations as well.

Due to these violations, among others, I will be writing an accusation for the board to consider. I recommend that the board table this request pending a hearing on the accusation.

---

Good Afternoon,

Please find attached an MJ-14 and MJ-15 for Rosie Creek Farm. The only changes are to add the structures listed on the forms.

We would like to request temporary approval of the MJ-15 so that the licensee doesn't have to wait until the April meeting to begin using the new structures.

Please let us know if you have any questions or if anything additional is needed to approve these requests.

Checks for the change fees will be delivered tomorrow.

Thank you!

## Form MJ-14: Licensed Premises Diagram Change

### What is this form?

This licensed premises diagram change form is required for all marijuana establishment licensees seeking to alter the functional floor plan or reduce or expand the area of the establishment's existing licensed premises, under 3 AAC 306.100 and 3 AAC 306.705. The required \$250 change fee may be made by credit card online (VISA, MasterCard, or Discover), or by check or money order.

Your diagram must show all entrances and boundaries of the premises, restricted access areas, and storage areas, and dimensions. If your proposed premises is located within a building or building complex that contains multiple businesses and/or tenants, please provide an additional page that clearly shows the location of your proposed premises within the building or building complex, along with the addresses and/or suite numbers of the other businesses and/or tenants within the building or building complex. Limited marijuana cultivation licensees must clearly delineate the proposed area(s) for cultivation.

The second page of this form is not required. Blueprints, CAD drawings, or other clearly drawn and marked diagrams may be submitted in lieu of the second page of this form, as long as it meets the requirements listed on this form. The first and third pages must still be completed, attached to, and submitted with any supplemental diagrams. An AMCO employee may require you to complete the second page of this form if additional documentation for your premises diagram is needed.

This form must be signed by the licensee and by the local government having jurisdiction over the location of the premises before it is submitted to AMCO staff for review.

This form must be completed and submitted to AMCO's main office prior to altering the existing floor plan. The licensed premises may not be altered unless and until the AMCO Director has given written approval on this form. Please note that licensees seeking to change licensed premises diagrams for multiple licenses must submit a separate completed copy of this form for each license.

Yes No

I have attached blueprints, CAD drawings, or other supporting documents in addition to, or in lieu of, the second page of this form.

# Form MJ-15: Operating Plan Change

### What is this form?

This operating plan change form is required for all marijuana establishment licensees seeking to change a licensed marijuana establishment's existing operating plan, under 3 AAC 306.100. With this form, a licensee may request changes to as much or as little as desired of Form MJ-01 and/or the corresponding operating plan supplemental for the establishment's license type.

**The required \$250 change fee may be made by credit card online (VISA, MasterCard, or Discover), or by check or money order.**

Please download, complete, and submit with this form only the pages of Form MJ-01 and/or the corresponding operating plan supplemental that contain sections that you are requesting to change. All fields that are left blank will be considered unchanged from the existing operating plan. All fields that are completed and submitted with this form will be considered as changes to the existing operating plan and are subject to board approval. **Please do not submit any wholly unchanged pages of an operating plan.**

### The form(s) that I am requesting board approval to change is:

- ☐ **Form MJ-01:** Marijuana Establishment Operating Plan
- ☐ **Form MJ-03:** Retail Marijuana Store Operating Plan Supplemental
- ☒ **Form MJ-04:** Marijuana Cultivation Facility Operating Plan Supplemental
- ☐ **Form MJ-05:** Marijuana Product Manufacturing Facility Operating Plan Supplemental
- ☐ **Form MJ-06:** Marijuana Testing Facility Operating Plan Supplemental

**This form must be completed and submitted to AMCO's main office prior to changing existing operations. The licensed establishment's operations may not be altered unless and until the Marijuana Control Board has approved of the changes. Please note that licensees seeking to change operating plans for multiple licenses must submit a separate completed copy of this form for each license.**

# Operating Plan Supplemental Form MJ-04: Marijuana Cultivation Facility

### Section 2 – Prohibitions

Applicants should review 3 AAC 306.405 – 3 AAC 306.410 and be able to answer “Agree” to all items below.

The marijuana cultivation facility will not:

Agree Disagree

**Sell, distribute, or transfer any marijuana or marijuana product to a consumer, with or without compensation**

☒☐

**Allow any person, including a licensee, employee, or agent, to consume marijuana or marijuana product on its licensee premises or within 20 feet of the exterior of any building or outdoor cultivation facility**

☒☐

**Treat or otherwise adulterate marijuana with any organic or nonorganic chemical or compound to alter the color, appearance, weight, or odor of the marijuana**

☒☐

### Section 3 – Cultivation Plan

Review the requirements under 3 AAC 306.420, and identify how the proposed premises will meet the listed requirements.

**Describe the size of the space(s) the marijuana cultivation facility intends to be under cultivation, including dimensions and overall square footage. Provide your calculations below:**

Rosie Creek Farm is located in the southwest portion of the Fairbanks North-Star Borough approximately 15 miles from the town of Fairbanks. Its 35.5 acres are gently sloping south and range from a mixed aspen/birch/white spruce upland forest to black spruce lowland forest to active floodplains and associated wetlands of the Tanana River. The farm straddles 2 land-management zones within the borough. Five acres of its property are a former lot in a residential zone, and still zoned residential, and the remaining twenty-eight acres are zoned agricultural. Of the agricultural-zoned acres, approximately seven acres are cleared and fenced-in farmland and the remainder are wooded. Because of slope and floodplain limitations, there are only two to three of the remaining acres that could be cleared for future farm expansion.

The majority of the farm's agricultural land was cleared in 1998 and the topsoil was enriched over the years in accordance with USDA organic standards. With the implementation of the National Organic Program (NOP) in 2003 the farm applied for and was granted USDA organic certification. In accordance with NOP regulations, the farm is given and must pass a yearly on-site inspection to ensure it's continuing privilege of using the USDA organic brand.

The farm buildings are: five 2,800 square-foot high tunnels, a 1,960 square-foot heated greenhouse, a smaller 800 square foot greenhouse, an 800 square-foot propagation greenhouse, a 20'x24' "ATCO" building for trimming and packaging, three 160 square foot "connexes" for marijuana storage, an 800 square-foot trimming shed which includes a 150 square-foot cold storage, and a 400 square-foot office.

We intend on having available all greenhouses and high tunnels for cultivation as well as the 3 ½ acre open-air field. Outdoor cultivation is in 250 to 300-foot "beds" of the farms open fields. Each bed is 4 feet wide with a one-foot pathway in between. All 3 ½ acres might not be in marijuana cultivation at any one time but we need to space to rotate crops in accordance with our USDA organic crop plan. We also intend on growing our 5 high tunnels and smaller greenhouses. Each high tunnel is 2880 square feet. There will be 14,400 square feet of potential cultivation within the high tunnels and 2,600 square feet of cultivation within the smaller greenhouses.

The total space for outdoor cultivation will be 3 ½ acres and within greenhouses or high tunnels cultivation will be 17,560 square feet.

Section 6 – Security

Review the requirements under 3 AAC 306.430 and 3 AAC 306.470 – 3 AAC 306.475, and identify how the proposed premises will meet the listed requirements.

Applicants should be able to answer “Agree” to the two items below.

The marijuana cultivation facility applicant has:

Agree Disagree

Read and understands and agrees to the packaging of marijuana requirements under 3 AAC 306.470

☒☐

Read and understands and agrees to the labeling of marijuana requirements under 3 AAC 306.475

☒☐

Restricted Access Area (3 AAC 306.430):

Yes

No

Will the marijuana cultivation facility include outdoor production?

☒☐

If “Yes”, describe the outdoor structure(s) or the expanse of open or clear ground fully enclosed by a physical barrier:

Of the 3.5 acres of the farm property, an eight-foot high fence encloses approximately 7.5 acres. The fence is a steel game fence of 12.5 gauge, galvanized steel with six-inch square mesh. Line-posts are 2 3/8 inch diameter steel at twenty-foot intervals and corner and gate-posts are 2 3/4 inch steel. All posts are sunk four-feet into the soil. The fence is of the same specifications as the Large Animal Research Center at the University of Alaska, Fairbanks.

Of the 7.5 acre enclosed area, approximately one acre is wooded, another approximately 2.5 acres are buildings, greenhouses, walkways, and roadways and 4 acres are cleared farm fields.

The farm buildings are: five 2,800 square-foot high tunnels, a 1,960 square-foot heated greenhouse, a smaller 800 square foot greenhouse, an 800 square-foot propagation greenhouse, a 20'x24' “ATCO” building for trimming and packaging, three 160 square foot “connexes” for marijuana storage, an 800 square-foot trimming shed which includes a 150 square-foot cold storage, and a 400 square-foot office.
