MEMORANDUM

TO: Chair and Members of the Board
DATE: March 21, 2018

FROM: Erika McConnell
Director, Marijuana Control Board
RE: Glacier Extracts #10828

Glacier Extracts, a marijuana product manufacturing facility, is requesting approval of new products. Attached is the MJ-16 Proposed New Marijuana Product for each product.

Alaska Marijuana Control Board

Form MJ-16: Proposed New Marijuana Product

What is this form?

This proposed new marijuana product form is required for a marijuana product manufacturing facility licensee who is seeking Marijuana Control Board (MCB) approval of a new marijuana product or marijuana concentrate for production at its licensed premises, as required under 3 AAC 306.100 and 3 AAC 306.525. **The required $250 proposed new marijuana product fee may be made by check, cashier's check, or money order.**

This form must be completed and submitted to AMCO's main office prior to production of any new marijuana product or marijuana concentrate. **The proposed new marijuana product may not be produced unless and until the MCB has approved of the product.**

Please note that licensees seeking approval of more than one proposed new marijuana product or marijuana concentrate must submit a separate completed copy of this form and pay a separate fee for each proposed new marijuana product or marijuana concentrate.

Section 1 – Establishment Information

Enter information for the business seeking to be licensed, as identified on the license application.

Licensee:	Glacier Extracts, LLC	**MJ License #:**		10828	
License Type:	Marijuana Product Manufacturing Facility				
Doing Business As:	Glacier Extracts				
Premises Address:	8639 Toloff Street				
City:	Anchorage	**State:**	Alaska	**ZIP:**	99507

Section 2 – Proposed Marijuana Concentrate or Marijuana Product

Enter information for the marijuana concentrate or the marijuana product for which you are seeking MCB approval.

Product Name:	Glacier Coconut Sugar		
Product Type:	Marijuana product (edible)		
Perishable: Yes/No	Yes	**Shelf Life:** If perishable.	18 months

Alaska Marijuana Control Board

Form MJ-16: Proposed New Marijuana Product

Section 3 – Proposed Product Details

Enter information for the marijuana product for which you are seeking MCB approval.

Product Description: Details must include the color, shape, and texture.	Final marijuana-infused coconut sugar product will be completely dry, like sand. Color will be green or golden. Shape will be consistent with sugar, conforming to the shape of its packet.
Ingredients: This box is not applicable to marijuana concentrates.	Marijuana, coconut sugar
Standard Production Procedure and Detailed Manufacturing Process:	Using low, but steady heat to decarboxylate the marijuana, blend with clear food-grade alcohol in order to release the cannabinoids from the plant into the liquid, then strain out plant materials. Blend strained mixture with sugar, then heat sugar until alcohol completely evaporates from mixture.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.	 

Alaska Marijuana Control Board

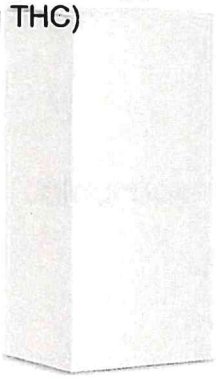
Form MJ-16: Proposed New Marijuana Product

Section 4 – Proposed Product Packaging and Sample Label

Enter information for the packaging and labeling of the marijuana product for which you are seeking MCB approval.

Packaging Description:
Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.

Coconut sugar will be placed into individual sugar packets, each packet containing 5mg of THC. Individual packets will then be placed into a larger paperboard box container containing either 5 or 10 single-serving sugar packets to give Glacier Extracts the opportunity to sell two box sizes (25mg total and 50mg total, which will be labeled accordingly on the package exterior). 1 serving = 1 sugar packet (5mg THC)



Sample Labels:
Provide sample labels showing how the labeling requirements set forth in 3 AAC 306.570 will be met.

Enter information for the marijuana concentrate or the marijuana product for which you are seeking MCB approval.

Product Name:	Glacier Gems		
Product Type:	Marijuana product (edible)		
Perishable: Yes/No	Yes	**Shelf Life:** If perishable.	12 months

Alaska Marijuana Control Board

Form MJ-16: Proposed New Marijuana Product

Section 3 – Proposed Product Details

Enter information for the marijuana product for which you are seeking MCB approval.

Product Description: Details must include the color, shape, and texture.	Glacier Gems hard candy will be circular and small, each piece about 1/2" - 1" in diameter. Colors will vary based on fruit flavors. Glacier Gems will be very hard and consistent with hard candies (not chewy), and one candy will be a single serving. Candy mold will have the letters "THC" on each individual piece, so each individual piece of round hard candy will have "THC" permanently imprinted into it.
Ingredients: This box is not applicable to marijuana concentrates.	Powdered sugar, sugar, light corn syrup, water, white vinegar, marijuana concentrate (either Glacier Extracts approved product Glacier Goo [concentrate CO2 oil], Glacier Extracts approved product Glacier Vape Pen Oil [concentrate CO2 oil], or another locally-sourced, lab-tested AMCO-approved manufacturer's marijuana concentrate), food coloring, fruit-flavored extracts
Standard Production Procedure and Detailed Manufacturing Process:	Mix & heat all ingredients. Pour into candy molds. Let cool, and when hard candy is set, remove from mold.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.

Alaska Marijuana Control Board

Form MJ-16: Proposed New Marijuana Product

What is this form?

This proposed new marijuana product form is required for a marijuana product manufacturing facility licensee who is seeking Marijuana Control Board (MCB) approval of a new marijuana product or marijuana concentrate for production at its licensed premises, as required under 3 AAC 306.100 and 3 AAC 306.525. **The required $250 proposed new marijuana product fee may be made by check, cashier's check, or money order.**

This form must be completed and submitted to AMCO's main office prior to production of any new marijuana product or marijuana concentrate. **The proposed new marijuana product may not be produced unless and until the MCB has approved of the product.**

Please note that licensees seeking approval of more than one proposed new marijuana product or marijuana concentrate must submit a separate completed copy of this form and pay a separate fee for each proposed new marijuana product or marijuana concentrate.

Section 1 – Establishment Information

Enter information for the business seeking to be licensed, as identified on the license application.

Licensee:	Glacier Extracts, LLC	**MJ License #:**		10828	
License Type:	Marijuana Product Manufacturing Facility				
Doing Business As:	Glacier Extracts				
Premises Address:	8639 Toloff Street				
City:	Anchorage	**State:**	Alaska	**ZIP:**	99507

Section 2 – Proposed Marijuana Concentrate or Marijuana Product

Enter information for the marijuana concentrate or the marijuana product for which you are seeking MCB approval.

Product Name:	Glacier Spa Bath Bomb		
Product Type:	Marijuana product		
Perishable: Yes/No	No	**Shelf Life:** If perishable.	n/a

Alaska Marijuana Control Board

Form MJ-16: Proposed New Marijuana Product

Section 3 – Proposed Product Details

Enter information for the marijuana product for which you are seeking MCB approval.

Product Description: Details must include the color, shape, and texture.	Bath bomb will be considered a single-serving product, since entire "bomb" is used at once in the bathtub. Color will be very light pastel colors. Final product will be fairly hard, but will dissolve in warm water. Product will be similar texture to chalk and have a matte finish. Shape will be a round ball.
Ingredients: This box is not applicable to marijuana concentrates.	Infused coconut oil, epsom salt, essential oils, food coloring, water, baking soda, citric acid (optional)
Standard Production Procedure and Detailed Manufacturing Process:	Mix ingredients together, then press well into a mold. Once set, remove from mold. Store in a low humidity environment.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.	 

Alaska Marijuana Control Board

Form MJ-16: Proposed New Marijuana Product

Section 4 – Proposed Product Packaging and Sample Label

Enter information for the packaging and labeling of the marijuana product for which you are seeking MCB approval.

Packaging Description:
Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.

Glacier Spa Bath Bombs will be packaged in a clear plastic cellophane bag that will be shrink wrapped. Each bath bomb will contain 5mg THC per serving (per "bomb"), and each bomb will be packaged and sold separately.
1 serving = 1 bath bomb

Sample Labels:
Provide sample labels showing how the labeling requirements set forth in 3 AAC 306.570 will be met.

TO USE: Draw a bath with warm water. Add your Glacier Spa Bath Bomb to warm water and mix until dissolved. Enjoy!

INGREDIENTS: Infused coconut oil, essential oils, epsom salt, citric acid, food coloring, baking soda

Glacier Extracts Glacier Spa Bath Bomb is for external use only.

Marijuana has intoxicating effects and may be habit forming and addictive; Marijuana impairs concentration, coordination, and judgement. Do not operate a vehicle or machinery under its influence; There are health risks associated with consumption of marijuana. For use only by adults twenty-one and older. Keep out of the reach of children; Marijuana should not be used by women who are pregnant or breast feeding.

Section 2 – Proposed Marijuana Concentrate or Marijuana Product

Enter information for the marijuana concentrate or the marijuana product for which you are seeking MCB approval.

Product Name:	Glacier Spa Body Salve		
Product Type:	Marijuana product (topical)		
Perishable: Yes/No	No	**Shelf Life:** If perishable.	n/a

Form MJ-16: Proposed New Marijuana Product

Section 3 – Proposed Product Details

Enter information for the marijuana product for which you are seeking MCB approval.

Product Description: Details must include the color, shape, and texture.	Texture is like real butter. Fairly firm in its container, but melts into skin when held in hands & warmed by body heat, similar to butter. Color can be green to gold. Shape will take the form of the container.
Ingredients: This box is not applicable to marijuana concentrates.	Shea butter, apple cider vinegar, ground pasturized eggshells (optional), pure gum turpentine (pine tree sap), olive oil, infused coconut oil
Standard Production Procedure and Detailed Manufacturing Process:	Ensure all ingredients are well blended. Pour into product containers while warm (to ease pouring - product becomes more viscous when slightly warm).
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.	 

Alaska Marijuana Control Board

Form MJ-16: Proposed New Marijuana Product

Section 4 – Proposed Product Packaging and Sample Label

Enter information for the packaging and labeling of the marijuana product for which you are seeking MCB approval.

Packaging Description:
Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.

Entire container will contain no more than 5mg THC, so entire container will not be considered more than a single "serving" worth of THC. Since entire package will not exceed 5mg THC, no serving marks or delineations will be necessary. Packaging will be a small, round tin. A plastic shrink-wrap material will be placed around the edges of the lid, and tightened down, acting as a safety seal and a child-resistant barrier prior to opening.

Sample Labels:
Provide sample labels showing how the labeling requirements set forth in 3 AAC 306.570 will be met.

TO USE: Rub salve on skin as needed.

INGREDIENTS: Infused coconut oil, olive oil, shea butter, apple cider vinegar, egg shells, pure gum terpentine

Glacier Extracts Glacier Spa Body Salve is for external use only.

Marijuana has intoxicating effects and may be habit forming and addictive; Marijuana impairs concentration, coordination, and judgement. Do not operate a vehicle or machinery under its influence; There are health risks associated with consumption of marijuana. For use only by adults twenty-one and older. Enter information for the marijuana product for which you are seeking MCB approval.

Product Description: Details must include the color, shape, and texture.	Color will be very light, discreet pastels. Texture will be like granules of sand or coarse ground salt. Shape will take the shape of the container.
Ingredients: This box is not applicable to marijuana concentrates.	epsom salt, infused coconut oil, salt, essential oils, food coloring
Standard Production Procedure and Detailed Manufacturing Process:	All ingredients will be slightly warmed (in order to mix better) and very well mixed.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.	 

Alaska Marijuana Control Board

Form MJ-16: Proposed New Marijuana Product

Section 4 – Proposed Product Packaging and Sample Label

Enter information for the packaging and labeling of the marijuana product for which you are seeking MCB approval.

Packaging Description:
Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.

Foot soak product will contain no more than 5mg of THC for the entire jar so no serving size marks are necessary because there will only be one "serving" per container. Product will be placed into a 4-oz glass jar (containing 5mg THC total). After adding foot soak product to the jar, a plastic shrink-wrap material will be placed around the top of the bottle opening, over the lid, and tightened down, acting as a safety seal and a child-resistant barrier prior to opening.

this container to be placed into fully opaque exit packaging by the retailer

Sample Labels:
Provide sample labels showing how the labeling requirements set forth in 3 AAC 306.570 will be met.

TO USE: Draw a foot soak bath with warm water. Add your preferred amount of Glacier Spa Foot Soak to foot soak water and mix until dissolved. Soak tired feet & enjoy!

INGREDIENTS: Infused coconut oil, essential oils, epsom salt, salt, food coloring, baking soda

Glacier Extracts Glacier Spa Foot Soak is for external use only.

Marijuana has intoxicating effects and may be habit forming and addictive; Marijuana impairs concentration, coordination, and judgement. Do not operate a vehicle or machinery under its influence; There are health risks associated with consumption of marijuana. For use only by adults twenty-one and older. Keep out of the reach of children; Marijuana should not be used by women who are pregnant or breast feeding.

Alaska Marijuana Control Board

Form MJ-16: Proposed New Marijuana Product

What is this form?

This proposed new marijuana product form is required for a marijuana product manufacturing facility licensee who is seeking Marijuana Control Board (MCB) approval of a new marijuana product or marijuana concentrate for production at its licensed premises, as required under 3 AAC 306.100 and 3 AAC 306.525. **The required $250 proposed new marijuana product fee may be made by check, cashier's check, or money order.**

This form must be completed and submitted to AMCO's main office prior to production of any new marijuana product or marijuana concentrate. **The proposed new marijuana product may not be produced unless and until the MCB has approved of the product.**

Please note that licensees seeking approval of more than one proposed new marijuana product or marijuana concentrate must submit a separate completed copy of this form and pay a separate fee for each proposed new marijuana product or marijuana concentrate.

Section 1 – Establishment Information

Enter information for the business seeking to be licensed, as identified on the license application.

Licensee:	Glacier Extracts, LLC	**MJ License #:**	10828		
License Type:	Marijuana Product Manufacturing Facility				
Doing Business As:	Glacier Extracts				
Premises Address:	8639 Toloff Street				
City:	Anchorage	**State:**	Alaska	**ZIP:**	99507

Section 2 – Proposed Marijuana Concentrate or Marijuana Product

Enter information for the marijuana concentrate or the marijuana product for which you are seeking MCB approval.

Product Name:	Glacier Spa Massage Oil		
Product Type:	Marijuana product (topical)		
Perishable: Yes/No	No	**Shelf Life:** If perishable.	n/a

Alaska Marijuana Control Board

Form MJ-16: Proposed New Marijuana Product

Section 3 – Proposed Product Details

Enter information for the marijuana product for which you are seeking MCB approval.

Product Description: Details must include the color, shape, and texture.	Final massage oil product will be the consistency of vegetable oil at room temperature, slightly thicker to pour than water, but still certainly a liquid. Color will be clear to light yellow. Texture will be slick and oily. Shape will be the shape of the container.
Ingredients: This box is not applicable to marijuana concentrates.	Sweet almond oil, essential oils (eucalyptus, lavender, peppermint), marijuana concentrate (either Glacier Extracts approved product Glacier Goo [concentrate CO2 oil], Glacier Extracts approved product Glacier Vape Pen Oil [concentrate CO2 oil], or another locally-sourced, lab-tested AMCO-approved manufacturer's marijuana concentrate)
Standard Production Procedure and Detailed Manufacturing Process:	Marijuana concentrate will be emulsified (= extremely well mixed to avoid separation) with the other oils until fully combined and will not separate.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.	 

Alaska Marijuana Control Board

Form MJ-16: Proposed New Marijuana Product

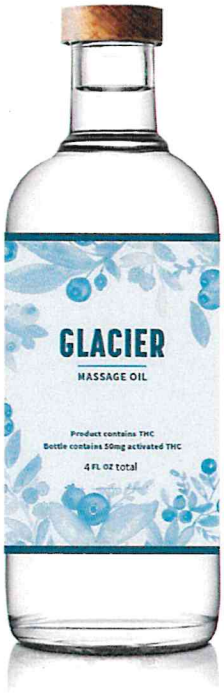
Section 4 – Proposed Product Packaging and Sample Label

Enter information for the packaging and labeling of the marijuana product for which you are seeking MCB approval.

Packaging Description:
Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.

Massage oil will be packaged in a 4-oz glass bottle containing 10 servings. Each serving is 5mg THC or 0.4oz. All 10 servings will be packaged in the same bottle container, with specifically set visual line markers on the side of the bottle in order to clearly show servings. The entire bottle will be 4 liquid oz (50mg THC), with serving lines at each 0.4oz mark. There will be cellophane shrink-wrap plastic tightly surrounding the lid and the neck of the bottle as a child-resistant barrier prior to opening.
This bottle to be placed into fully opaque exit packaging by retailer

Sample Labels:
Provide sample labels showing how the labeling requirements set forth in 3 AAC 306.570 will be met.



As a marijuana establishment licensee, I declare under penalty of unsworn falsification that this form, including all accompanying schedules and statements, is true, correct, and complete.

Product Name:	Infused Pre-Roll		
Product Type:	Marijuana Product		
Perishable: Yes/No	No	**Shelf Life:** If perishable.	n/a

Alaska Marijuana Control Board

Form MJ-16: Proposed New Marijuana Product

Section 3 – Proposed Product Details

Enter information for the marijuana product for which you are seeking MCB approval.

Product Description: Details must include the color, shape, and texture.	marijuana-infused pre-roll will look the same as a standard marijuana pre-roll. Long and thin, with a filter on one end. Texture when held will be that of rolling paper.
Ingredients: This box is not applicable to marijuana concentrates.	Marijuana, marijuana concentrate (either Glacier Extracts approved product Glacier Goo [concentrate CO2 oil], Glacier Extracts approved product Glacier Vape Pen Oil [concentrate CO2 oil], or another locally-sourced, lab-tested AMCO-approved manufacturer's marijuana concentrate)
Standard Production Procedure and Detailed Manufacturing Process:	Create a standard pre-roll, but prior to closing the open end of the rolling paper, a thin, precise needle with a specific and consistent amount of marijuana concentrate will be inserted directly down the center of the pre-roll, slowly injecting a microdose of marijuana concentrate as it withdraws.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.	

Alaska Marijuana Control Board

Form MJ-16: Proposed New Marijuana Product

Section 4 – Proposed Product Packaging and Sample Label

Enter information for the packaging and labeling of the marijuana product for which you are seeking MCB approval.

Packaging Description:
Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.

Packaging will be a long, thin, non-transparent plastic child-resistant pop-top tube (also referred to as a "j-tube"). Only one infused pre-roll will be included per package. Pre-rolls will be 0.5 - 1 gram of marijuana; amount of THC will be directly dependent upon the strain and will included on the label per the testing results. Marijuana concentrate batch injected will be included on label, also specific to strain(s) used upon creation, 30% to 80% THC.

Sample Labels:
Provide sample labels showing how the labeling requirements set forth in 3 AAC 306.570 will be met.

SAMPLE LABEL WRAP:

Alaska Marijuana Control Board

Form MJ-16: Proposed New Marijuana Product

What is this form?

This proposed new marijuana product form is required for a marijuana product manufacturing facility licensee who is seeking Marijuana Control Board (MCB) approval of a new marijuana product or marijuana concentrate for production at its licensed premises, as required under 3 AAC 306.100 and 3 AAC 306.525. **The required $250 proposed new marijuana product fee may be made by check, cashier's check, or money order.**

This form must be completed and submitted to AMCO's main office prior to production of any new marijuana product or marijuana concentrate. **The proposed new marijuana product may not be produced unless and until the MCB has approved of the product.**

Please note that licensees seeking approval of more than one proposed new marijuana product or marijuana concentrate must submit a separate completed copy of this form and pay a separate fee for each proposed new marijuana product or marijuana concentrate.

Section 1 – Establishment Information

Enter information for the business seeking to be licensed, as identified on the license application.

Licensee:	Glacier Extracts, LLC	**MJ License #:**			10828
License Type:	Marijuana Product Manufacturing Facility				
Doing Business As:	Glacier Extracts				
Premises Address:	8639 Toloff Street				
City:	Anchorage	**State:**	Alaska	**ZIP:**	99507

Section 2 – Proposed Marijuana Concentrate or Marijuana Product

Enter information for the marijuana concentrate or the marijuana product for which you are seeking MCB approval.

Product Name:	Koda Truffles		
Product Type:	Marijuana product (edible)		
Perishable: Yes/No	Yes	**Shelf Life:** If perishable.	3 months

Form MJ-16: Proposed New Marijuana Product

Section 3 – Proposed Product Details

Enter information for the marijuana product for which you are seeking MCB approval.

Product Description: Details must include the color, shape, and texture.	Truffles will be in a variety of shapes, based on the mold used, but all a similar size, which is approximately 1" in diameter. The texture for each will be a hard chocolate shell filled with a softer, creamy center. Truffle exterior will either be artfully colorful (created through a simple combination of cocoa butter and food coloring) or will be brown in color if left the original chocolate color.
Ingredients: This box is not applicable to marijuana concentrates.	Infused butter, white chocolate, chocolate, cocoa powder, heavy cream, sugar, salt, coconut oil, cocoa butter, food coloring, flavor extracts (optional)
Standard Production Procedure and Detailed Manufacturing Process:	Combine infused butter and other filling ingredients over low heat to create filling. Line mold tray with any exterior decor and chocolate coating. Add truffle filling. Cap mold tray with layer of chocolate to seal in filling, then let tray set before tipping tray upside down & lightly tapping to remove truffles from mold.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.	
Alaska Marijuana Control Board

Form MJ-16: Proposed New Marijuana Product

Section 4 – Proposed Product Packaging and Sample Label

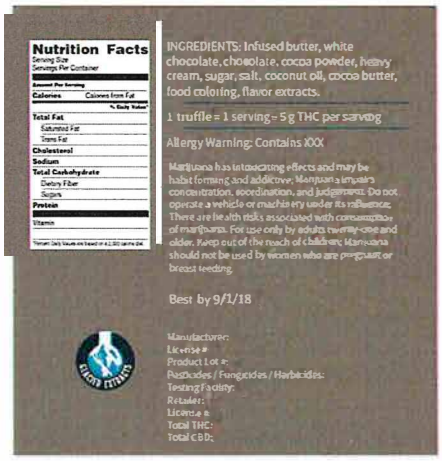
Enter information for the packaging and labeling of the marijuana product for which you are seeking MCB approval.

Packaging Description:
Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.

Truffles will be placed inside of a child-resistant reclosable plastic clamshell that has been manufactured with recycled food-grade plastic.

Each truffle will be a single serving and will contain 5mg THC. There will be two package sizes - 4 servings (20mg THC package) and 10 servings (50mg THC package).

Sample Labels:
Provide sample labels showing how the labeling requirements set forth in 3 AAC 306.570 will be met.



As a marijuana establishment licensee, I declare under penalty of unsworn falsification that this form, including all accompanying schedules and statements, is true, correct, and complete.
