3 AAC 306.435. Marijuana inventory tracking system

(a) A marijuana cultivation facility shall use a marijuana inventory tracking system in compliance with 3 AAC 306.730 to ensure all marijuana propagated, grown, or cultivated on the marijuana cultivation facility's premises is identified and tracked from the time the marijuana is propagated through transfer to another licensed marijuana establishment or destruction. Hello,

Here is Coyote and Toads Garden's (license number 10141) response to our recent violation.

Below is an email from my conversation with Metrc regarding packages 069,071,072,074,076. I had made them from the packages tab and not from the harvest batch. Also if you take a look at our manifest #0000043501 we sold a package number 016 to the remedy shoppe of Blue dream A and Blue Dream B. Package 016 was the corrected package 015 that is in question, We made package 015 from the packages tab in Metrc and not from our harvest batch. When we discovered this was the incorrect way to make a package after calling Metrc (the two hour space between creating and destroying package 015) we then made package 016 from our harvest batch and sold that to the Remedy Shoppe.

When discontinuing a package in Metrc there is no option to write a note saying why it is being discontinued. No where does it say that any mistake made in Metrc - and later corrected after talking to the Metrc support team - must be reported to Amco.

Thanks,

Tiffany
