Subject: Response to NOV AB17-0379 license # 10657

Thank you for the opportunity to respond to the NOV AB17-0379. Put in the simplest terms, the error was caused by inexperience and confusion with the METRC system, an honest mistake, nothing nefarious was intended. The confusion occurred as I was entering the wet weight of those harvests into the tracking system. When you enter the wet weight of the plants they are entered with the tag #, on this page the frame that is intended for the harvest batch is also marked "optional" in italics. I mistakenly "opted" out of entering the Harvest Batch in that frame. This mistake was compounded when the system never put up any alerts while I successfully created packages for testing. The marijuana was tested, I received E mail results from the test lab, registered transfers to the test lab and to my licensed buyers, my buyers registered transfers I paid all state taxes based on the information held in METRC. I was completely unaware that a problem existed until I was contacted by METRC support and told I had been making "thin air" packages. I worked with METRC support at the direction of the MCB to correct the mistake. In my own defense I can only say that I am 69 years old and not at all "Cyber Savy," and I'm easily confused about the way this all works, I do my best to learn from my mistake and won't be making any more "thin air" packages, I call customer support when I need help, I hope this explains things to your satisfaction Best regards Jim Strassburg
