RE: Great Northern Cannabis, Inc.
Response to Notice of Violation for Great Northern Cannabis (License # 10747) -
AMCO Case # AB17-0350
Our File No.: 507,568.1

Dear Sir/Madam:

This office represents Great Northern Cannabis, Inc. (GNCI), a marijuana cultivation facility licensed by both the Municipality of Anchorage (License #: M10747) and the State of Alaska (License #: 10747). We are writing in response to a Notice of Violation received from AMCO dated August 10, 2017 (Case # AB17-0350).

The Notice of Violation states that "Over the past 30 days AMCO enforcement has responded to at least 3 complaints of the detectable odor of marijuana outside of your premises. Our response confirmed that the odor of marijuana was detectable from outside your premises." We thank you for bringing this matter to our attention. GNCI takes regulatory compliance very seriously, and prides itself on being a good neighbor. Therefore, GNCI was disappointed to learn of a complaint alleging marijuana odor near its facility. Pursuant to 3 AAC 306.430(c)(2), which specifies that the odor detection standards of a local government control, and AMC 21.05.055(A)(6), the applicable municipal ordinance, GNCI has taken steps to ensure that no marijuana odor can be detected from any lot line of its property. GNCI has responded promptly to this complaint and believes it has remedied the alleged problem.

After being notified that marijuana odor was detected at the lot line of the property, GNCI management conducted a thorough review of the facility's HVAC system. GNCI management believes it identified the source of the odor as a vent on the east side of the building. The placement of this vent was such that air was directed outside of the facility and down towards the pathway next to the building. Though this was within the lot line of the property, the vented air was forced to ground level, where the wind could carry it beyond the lot line.

GNCI responded promptly to the Notice of Violation, first by conducting an internal review, then by hiring contractors to investigate and propose a mitigation plan, and finally by commissioning work intended to ameliorate the problem. Since receiving the Notice of Violation, the following corrective measures, which GNCI believes have resolved this matter, were taken:

1. On August 11, 2017 the vent that was likely the source of the odor was sealed off. Air is no longer routed to this vent. Instead, the internal duct work was rerouted so that air from inside the facility will exit the building through a stack on the roof. Directing the air upwards and allowing exit through a roof vent will provide for quicker and greater dissipation and will prevent marijuana odor from being detectable at the lot line.

2. To enhance the performance of the roof vent and further reduce the possibility of marijuana odor detection outside the facility, a second 100% carbon air filter box was added in the duct leading to the roof vent. Air from inside the facility will now pass through multiple filter boxes on its path towards the roof stack vent. Doubling the number of filters associated with this vent should further reduce the detectable marijuana odor in the air that is being released outside the facility.

Subsequent to the completion of this work, GNCI management inspected the area outside the facility and believes these steps have eliminated the detection of any marijuana odor at any lot line of the property. However, GNCI has taken the additional step of purchasing two dozen new carbon air filters to use throughout the facility. GNCI's current filters are 50% carbon; the new filters are 100% carbon and use the best available filter technology. GNCI believes that such an investment will further improve its overall ability to eliminate marijuana odor and will prevent any future complaints regarding odor detection at the lot line. GNCI expects the new filters to arrive and be installed within two weeks of the date of this letter.

GNCI would like to resolve this complaint with as little impact on its neighbors and on AMCO Enforcement as possible. GNCI believes it has taken appropriate steps in response to the complaint and that marijuana odor can no longer be detected from the lot line of the property. GNCI encourages AMCO to re-inspect the premises and to share their findings with the company. If AMCO finds evidence of marijuana odor at the lot line, we request that you let GNCI know immediately so we can re-assess the situation and take additional corrective measures. However, GNCI believes odor is no longer an issue, and in that case requests that no further action be taken with respect to this Notice of Violation.

Thank you for your time and attention. Please do not hesitate to contact this office if you have any questions or if you need any additional information.

Sincerely,

BIRCH HORTON BITTNER & CHEROT
