This letter is in response to the email dated 8-18-17 from the Alcohol and Marijuana Control Office in regards to a violation of 3 AAC 306.435(a) Marijuana Inventory Tracking System. It was observed that plants over 8" were not tagged.

While in no form was Parallel 64 trying to purposely operate with intentional disregard of regulations, there was an internal misunderstanding/miscommunication of the tagging process. Parallel 64 had come to a misunderstanding that we were allowed to tag plants as they were being transplanted to a pot from an early vegetative cycle since they were still in the METRC system under a batch number. This would allow us to move an entire clone batch all at once and assign individual plant tag numbers however, with different growth rates for different plants, this obviously is not feasible to accomplish and still stay within compliance. To be clear, this entire process was still within the vegetative cycle and I do not want to confuse this process with the transfer of plants to flowering. I also want to be clear while there were plants taller than 8" untagged, the majority of all plants within our entire vegetative room were properly tagged.

Upon a visit from another state agency a day prior, who while not enforcing this particular requirement, did call upon its attention. A discussion took place in where we later went and reviewed the requirements more carefully. Upon further review and discussion, we agreed that we were in violation and there was a clear misunderstanding and/or miscommunication. I would like to point out that we took immediate action the following morning and were already tagging and entering plants into METRC when AMCO arrived on the premises.

We have since changed our protocol and educated all employees and ownership of the regulations and compliance. I personally talked to the AMCO officers while I was onsite that day and assured them that as President of the company, we will make the proper changes to ensure this incident from occurring in the future.

We hope this incident does not paint a poor reflection on Parallel 64 in the way we operate or wish to be viewed. Please feel free to contact me if you have any further questions.

Thank You,

Anwar Amar-Rogers

President
