## Alaska Marijuana Control Board

# Form MJ-15: Operating Plan Change

### What is this form?

This operating plan change form is required for all marijuana establishment licensees seeking to change a licensed marijuana establishment's existing operating plan, as required by 3 AAC 306.100. With this form, a licensee may request changes to as much or as little as desired of Form MJ-01 and/or the corresponding operating plan supplemental for the establishment's license type.

**The required \$250 change fee may be made by check, cashier's check, or money order.**

Please complete and submit with this form the pages of Form MJ-01 and/or the corresponding operating plan supplemental that contain sections that you are requesting to change. **All fields must be completed of any page for which you are requesting changes** – upon board approval, the submitted pages will replace those currently on file. If your current, approved operating plan is on the original version of the forms, you may be required to complete and submit the new operating plan forms in their entirety.

The form(s) that I am requesting board approval to change is:

- ☐ Form MJ-01: Marijuana Establishment Operating Plan
- ☐ Form MJ-03: Retail Marijuana Store Operating Plan Supplemental
- ☒ Form MJ-04: Marijuana Cultivation Facility Operating Plan Supplemental
- ☐ Form MJ-05: Marijuana Product Manufacturing Facility Operating Plan Supplemental
- ☐ Form MJ-06: Marijuana Testing Facility Operating Plan Supplemental

This form must be completed and submitted to AMCO's main office prior to changing existing operations. The licensed establishment's operations may not be altered unless and until the director has given temporary approval or the Marijuana Control Board (MCB) has given final approval of the changes. Please note that licensees seeking to change operating plans for multiple licenses must submit a separate completed copy of this form for each license.

### Section 1 – Establishment Information

Enter information for the business seeking to be licensed, as identified on the license application.

## Section 2 – Summary of Changes

Provide a summary of the changes for which you are requesting approval.

Gases:

We will continue using the CO2 generator and we will be adding a CO2 injection system using CO2 from a cylinder and injecting it into the rooms. This will be delivered via an airborne system

## Section 3 – Declarations

Read each statement below, and then sign your initials in the corresponding box to the right:

Initials

The proposed changes conform to all applicable public health, fire, and safety laws.

MB

I understand that any temporary approval granted by the director is pending a final decision by the MCB; therefore, any investment I make, based upon temporary approval, is at my own risk.

MB

As a marijuana establishment licensee, I declare under penalty of perjury that this form, including all accompanying schedules and statements, is true, correct, and complete.

Describe the marijuana cultivation facility's growing medium(s) to be used:

SCG plans to operate using traditional soil cultivation as well as hydroponic growing methods. Mediums will be soil, Coco fiber and water.

Describe the marijuana cultivation facility's fertilizers, chemicals, gases, and delivery systems, including carbon dioxide management, to be used:

Fertilizers: Organic

Chemicals: PH up and PH down additives to the water

These will be delivered via water given to plants.

Gases: Co2 using a Co2 generator and a Co2 injection rain system.

This will be delivered via an airborne system.

Management: the Co2 Generator and Rain System will be managed through our SmartBee control system. We will also have a Co2 meter monitoring system with both audio and visual alarms.

Describe the marijuana cultivation facility's irrigation and waste water systems to be used:

Solid cultivation will not generate waste water. Water will be absorbed by the plants or evaporate.

Hydroponic cultivation will generate wastewater that contains nutrients. This water will either be disposed of in the facilities leach field or used to irrigate outdoor gardens.
