- Divine Konfections
- Fireweed Extracts Budder
- Fireweed Extracts Crumble
- Fireweed Extracts Kief
- Fireweed Extracts Live Resin
- Fireweed Extracts Shatter
- Fireweed Extracts Sugar
- Heavenly Konfections
- Kreative Karamels

Alaska Marijuana Control Board

Form MJ-16: Proposed New Marijuana Product

What is this form?

This proposed new marijuana product form is required for a marijuana product manufacturing facility licensee who is seeking Marijuana Control Board (MCB) approval of a new marijuana product or marijuana concentrate for production at its licensed premises, as required under 3 AAC 306.100 and 3 AAC 306.525. **The required \$250 proposed new marijuana product fee may be made by check, cashier's check, or money order.**

This form must be completed and submitted to AMCO's main office prior to production of any new marijuana product or marijuana concentrate. **The proposed new marijuana product may not be produced unless and until the MCB has approved of the product.**

Please note that licensees seeking approval of more than one proposed new marijuana product or marijuana concentrate must submit a separate completed copy of this form and pay a separate fee for each proposed new marijuana product or marijuana concentrate.

Section 1 – Establishment Information

Enter information for the business seeking to be licensed, as identified on the license application.

Licensee:	Kreative Konfections LLC	MJ License #:	17389		
License Type:	Marijuana Product Manufacturing Facility				
Doing Business As:	Kreative Konfections LLC				
Premises Address:	2301 S. Knik-Goose Bay Rd., #5				
City:	Wasilla	State:	Alaska	ZIP:	99654

Section 2 – Proposed Marijuana Concentrate or Marijuana Product

Enter information for the marijuana concentrate or the marijuana product for which you are seeking MCB approval.

Product Name:	Fireweed Extracts Crystals & Sauce				
Product Type: Choose one.	Marijuana Concentrate				
Perishable: Yes/No	No	Shelf Life: If perishable.			
Intended Use: Smokable/ edible/topical/wholesale/etc.	Smokable				

Form MJ-16: Proposed New Marijuana Product

Section 3 – Proposed Product Details

Enter information for the marijuana product for which you are seeking MCB approval.

Product Description: Details must include the color, shape, and texture.	Fireweed Extracts Crystals & Sauce has the appearance of small crystals in terpenes or "sauce". Shape forms to the container. Color ranges from an almost clear yellow to a dark amber. Generally opaque. Texture is like wet sand. When frozen, it will become hard and brittle and can easily shatter into small pieces. Will soften and become liquid as temperatures exceed 80F.
Ingredients:	
Standard Production Procedure and Detailed Manufacturing Process:	A closed-loop system is used to extract the essential oils from the plant using a solvent or mix of solvents. The solvents are recovered from the extracted oils back into a holding tank until there is a thin liquid in the bottom vessel. This liquid is transferred to a jar and placed in a vacuum oven to purge the remaining solvents. The purging and finishing process can take from 3 to 20 days and is done with low heat. After testing, it is weighed into 1/2 gram to 7 gram portions and packaged for sale.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.	

Form MJ-16: Proposed New Marijuana Product

Section 4 – Proposed Product Packaging and Sample Label

Enter information for the packaging and labeling of the marijuana product for which you are seeking MCB approval.

Packaging Description:

Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.

Packages will be small clear glass containers with printed white or plain clear lids inside white or black (front) and clear (back) mylar heat-sealed child-proof bags. Jar sizes will range from 6 ml to 3 oz. Bags will be approximately 3.5"x 5" to 5"x7". Crystals & Sauce will come in 1/2 gram, 1 gram, 3.5 gram, or 7 gram amounts. The total amount of THC will vary with the original product used to create the concentrate, and will range from 40% to 99%.

**Sample Labels:**

Provide sample labels showing how the labeling requirements set forth in 3 AAC 306.570 will be met.

Product Name:	Fireweed Extracts HTE Sauce				
Product Type: Choose one.	Marijuana Concentrate				
Perishable: Yes/No	No	Shelf Life: If perishable.			
Intended Use: Smokable/ edible/topical/wholesale/etc.	Smokable				

Form MJ-16: Proposed New Marijuana Product

Section 3 – Proposed Product Details

Enter information for the marijuana product for which you are seeking MCB approval.

Product Description:

Details must include the color, shape, and texture.

Fireweed Extracts HTE (High Terpene Extract) Sauce has the appearance of a puddle of liquid. Shape conforms to the jar. Color ranges from a light yellow to a very dark amber. Generally opaque. Texture is like honey. There may be very small visible crystals present. When frozen, it will become hard, but won't easily shatter into small pieces. Will soften and become a runny liquid as temperatures exceed 60F.

Ingredients:**Standard Production Procedure and Detailed Manufacturing Process:**

A closed-loop system is used to extract the essential oils from the plant using a solvent or mix of solvents. The solvents are recovered from the extracted oils back into a holding tank until there is a thin liquid in the bottom vessel. This liquid is transferred to a jar and placed in a vacuum oven to purge the remaining solvents. The purging and finishing process can take from 3 to 20 days and is done with low heat. The crystals are then separated from the terpene "sauce". After testing, it is weighed into 1/2 gram to 7 gram portions and packaged for sale.
