MEMORANDUM

TO: Chair and Members of the Board DATE: February 6, 2019
FROM: Erika McConnell RE: Cold Creek Extracts #15594
Director, Marijuana Control Board

Cold Creek Extracts, a marijuana product manufacturing facility, is requesting approval of five new products. Attached is the MJ-16 Proposed New Marijuana Product for each product.

Alaska Marijuana Control Board

Form MJ-16: Proposed New Marijuana Product**What is this form?**

This proposed new marijuana product form is required for a marijuana product manufacturing facility licensee who is seeking Marijuana Control Board (MCB) approval of a new marijuana product or marijuana concentrate for production at its licensed premises, as required under 3 AAC 306.100 and 3 AAC 306.525. **The required \$250 proposed new marijuana product fee may be made by check, cashier's check, or money order.**

This form must be completed and submitted to AMCO's main office prior to production of any new marijuana product or marijuana concentrate. **The proposed new marijuana product may not be produced unless and until the MCB has approved of the product.**

Please note that licensees seeking approval of more than one proposed new marijuana product or marijuana concentrate must submit a separate completed copy of this form and pay a separate fee for each proposed new marijuana product or marijuana concentrate.

Section 1 – Establishment Information

Enter information for the business seeking to be licensed, as identified on the license application.

Licensee:	Cold Creek Extracts LLC	MJ License #:	15594		
License Type:	Marijuana Product Manufacturing Facility				
Doing Business As:	Cold Creek Extracts				
Premises Address:	7801 Schoon St., Unit L				
City:	Anchorage	State:	Alaska	ZIP:	99518

Section 2 – Proposed Marijuana Concentrate or Marijuana Product

Enter information for the marijuana concentrate or the marijuana product for which you are seeking MCB approval.

Product Name:	Cherry Gumdrops				
Product Type: Choose one.	Other Marijuana Product				
Perishable: Yes/No	Yes	Shelf Life: If perishable.	24 Months		
Intended Use: Smokable/ edible/topical/wholesale/etc.	Edible				

Form MJ-16: Proposed New Marijuana Product

Section 3 – Proposed Product Details

Enter information for the marijuana product for which you are seeking MCB approval.

Product Description: Details must include the color, shape, and texture.	Gumdrops will be a soft jelly candy, approximately .25"-.5" in diameter. The candy will be opaque, of a light reddish color, and will be dusted with sugar.
Ingredients:	<p>Marijuana concentrate, sheet gelatin, water, glucose syrup, granulated sugar, cherry puree, natural cherry flavoring, citric acid.</p> <p>The marijuana concentrate used will be one produced by Cold Creek Extracts, such as Full Extract Ethanol Hash Oil, Shatter, Sugar Wax, or Distillate. Concentrates produced by other manufacturers may also be used, depending on supply.</p>
Standard Production Procedure and Detailed Manufacturing Process:	Bloom gelatin per internal process. Cook glucose syrup while gelatin is blooming by weighing and mixing glucose syrup, granulated sugar, water, and cherry puree, then heating to a light boil. Melt gelatin and mix with marijuana concentrate. Once glucose syrup is at desired temperature, remove from heat and let cool. When cooled, stir in gelatin, natural flavoring, citric acid, and mix to a homogeneous mixture. The product will then be poured into silicon molds. Once removed from molds, gumdrops can be dusted with sugar for appearance and taste.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.	

Form MJ-16: Proposed New Marijuana Product

Section 4 – Proposed Product Packaging and Sample Label

Enter information for the packaging and labeling of the marijuana product for which you are seeking MCB approval.

Packaging Description:

Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.

Each gumdrop will contain no more than 5mg of THC per gumdrop. One (1) gumdrop is a single serving. Gumdrops will be packaged for sale in opaque child-resistant packaging, such as mylar bags, child-resistant boxes, or child-resistant canisters. Gumdrops will be sold in packages containing between 1-10 gumdrops (5-50 mg THC per package), with no more than 50 mg THC per package.

**Sample Labels:**

Provide sample labels showing how the labeling requirements set forth in 3 AAC 306.570 will be met.

City:	Anchorage	State:	Alaska	ZIP:	99518

Section 2 – Proposed Marijuana Concentrate or Marijuana Product

Enter information for the marijuana concentrate or the marijuana product for which you are seeking MCB approval.

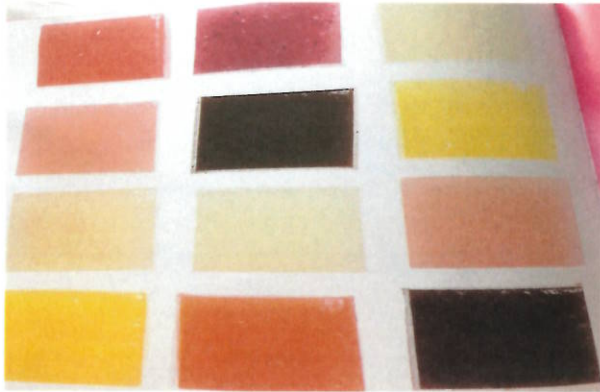

Product Name:	Tangerine Dream Chews				
Product Type: Choose one.	Other Marijuana Product				
Perishable: Yes/No	Yes	Shelf Life: If perishable.	24 Months		
Intended Use: Smokable/ edible/topical/wholesale/etc.	Edible				

Form MJ-16: Proposed New Marijuana Product

Section 3 – Proposed Product Details

Enter information for the marijuana product for which you are seeking MCB approval.

Product Description: Details must include the color, shape, and texture.	Chews will be approximately 1" squares. They will be shades of yellow to orange in color. Will be a taffy like texture.
Ingredients:	<p>Marijuana concentrate, glucose syrup, granulated sugar, ghee butter, natural tangerine flavors, citric acid, natural orange coloring.</p> <p>The marijuana concentrate used will be one produced by Cold Creek Extracts, such as Full Extract Ethanol Hash Oil, Shatter, Sugar Wax, or Distillate. Concentrates produced by other manufacturers may also be used, depending on supply.</p>
Standard Production Procedure and Detailed Manufacturing Process:	Weigh and mix glucose syrup, sugar, butter and concentrate into pot and apply medium-high heat. Heat to a light boil, approximately 10 minutes. Remove from heat and allow to rest for a few seconds until bubbling stops, add natural tangerine flavoring, citric acid, and light food coloring. Whisk for several minutes to emulsify fat into the candy. Pour into molds and let set.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.
