**MEMORANDUM**

TO: Chair and Members of the Board      DATE: February 6, 2019

FROM: Erika McConnell      RE: Hollyweed 907 #11304  
Director, Marijuana Control Board

Hollyweed 907, a marijuana product manufacturing facility, is requesting approval of four new products. Attached is the MJ-16 Proposed New Marijuana Product for each product.

## Alaska Marijuana Control Board

**Form MJ-16: Proposed New Marijuana Product****What is this form?**

This proposed new marijuana product form is required for a marijuana product manufacturing facility licensee who is seeking Marijuana Control Board (MCB) approval of a new marijuana product or marijuana concentrate for production at its licensed premises, as required under 3 AAC 306.100 and 3 AAC 306.525. **The required \$250 proposed new marijuana product fee may be made by check, cashier's check, or money order.**

This form must be completed and submitted to AMCO's main office prior to production of any new marijuana product or marijuana concentrate. **The proposed new marijuana product may not be produced unless and until the MCB has approved of the product.**

**Please note that licensees seeking approval of more than one proposed new marijuana product or marijuana concentrate must submit a separate completed copy of this form and pay a separate fee for each proposed new marijuana product or marijuana concentrate.**

**Section 1 – Establishment Information**

Enter information for the business seeking to be licensed, as identified on the license application.

<b>Licensee:</b>	YNY Investment, LLC	<b>MJ License #:</b>	11304
<b>License Type:</b>	Marijuana Product Manufacturing Facility		
<b>Doing Business As:</b>	Hollyweed 907		
<b>Premises Address:</b>	2429 E. 88th Ave		
<b>City:</b>	Anchorage	<b>State:</b>	Alaska
		<b>ZIP:</b>	99507

**Section 2 – Proposed Marijuana Concentrate or Marijuana Product**

Enter information for the marijuana concentrate or the marijuana product for which you are seeking MCB approval.

<b>Product Name:</b>	Caramel Chocolate Squares		
<b>Product Type:</b> Choose one.	Other Marijuana Product		
<b>Perishable:</b> Yes/No	Yes	<b>Shelf Life:</b> If perishable.	3-6 months frozen
<b>Intended Use:</b> Smokable/ edible/topical/wholesale/etc.	Edible		

## Form MJ-16: Proposed New Marijuana Product

### Section 3 – Proposed Product Details

Enter information for the marijuana product for which you are seeking MCB approval.

**Product Description:**

Details must include the color, shape, and texture.

Caramel chocolate squares will be 1.25 x 1.25 inch square shaped, with a chewy consistency, with an outside color ranging from brown to dark brown depending on marijuana strain used and cocoa. The inside (caramel filling) will be sticky and will be a brassy brown color.

**Ingredients:**

This box is not applicable to marijuana concentrates.

Chocolate, sweetened condense milk, coconut oil, marijuana Co2 concentrate

**Standard Production Procedure and Detailed Manufacturing Process:**

Temper chocolate in heated bath. Inject 1st layer of chocolate into mold and let cool completely. Make caramel with the sweetened condense milk and add coconut oil and marijuana concentrate let cool and then add to chilled layer of chocolate. Inject 2nd layer of chocolate into mold and let cool completely before removing from molds. Test batch and then package.

**Depiction:**

Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.

**Form MJ-16: Proposed New Marijuana Product****Section 4 – Proposed Product Packaging and Sample Label**

Enter information for the packaging and labeling of the marijuana product for which you are seeking MCB approval.

**Packaging Description:**

Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.

Caramel Chocolate Squares will be placed into a tray and then inserted into a child proof sleeve. Packages will contain 10 servings each for a total of 50mg THC per package. 1 serving = 1 caramel bite (5mg THC)

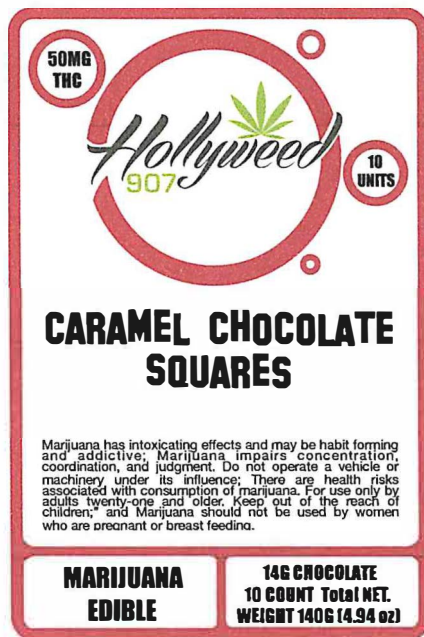

\*Example labels only - final packaging and labels will be sent to enforcement prior to going to market

**Sample Labels:**

Provide sample labels showing how the labeling requirements set forth in 3 AAC 306.570 will be met.

\*Example labels only. Final packaging will be submitted for final review.

## Form MJ-16: Proposed New Marijuana Product

### Section 3 – Proposed Product Details

Enter information for the marijuana product for which you are seeking MCB approval.

<b>Product Description:</b> Details must include the color, shape, and texture.	Viscous natural oil that ranges from a light golden color to a dark amber. Consistency can be described as: crumble, sap, sticky, or wax like.
<b>Ingredients:</b> This box is not applicable to marijuana concentrates.	
<b>Standard Production Procedure and Detailed Manufacturing Process:</b>	Marijuana plant material is placed into a filtered screen bag and is then pressed in a mechanical press with heating plates. The marijuana plant material turns into an oil from the pressure and is then collected to be packaged for retail sale.
<b>Depiction:</b> Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.	 A photograph showing a thick, golden-yellow liquid dripping from a white, slightly curved surface. The liquid forms several distinct, elongated droplets hanging from the edge, illustrating its viscous nature. The background is a plain, light-colored surface.
