MEMORANDUM

TO: Chair and Members of the Board

FROM: Erika McConnell
Director, Marijuana Control Board

DATE: April 17, 2019

RE: Glacier Extracts #10828

Glacier Extracts, a marijuana product manufacturing facility, is requesting approval of three new products. Attached is the MJ-16 Proposed New Marijuana Product application for each.

Alaska Marijuana Control Board

Form MJ-16: Proposed New Marijuana Product**What is this form?**

This proposed new marijuana product form is required for a marijuana product manufacturing facility licensee who is seeking Marijuana Control Board (MCB) approval of a new marijuana product or marijuana concentrate for production at its licensed premises, as required under 3 AAC 306.100 and 3 AAC 306.525. **The required \$250 proposed new marijuana product fee may be made by check, cashier's check, or money order.**

This form must be completed and submitted to AMCO's main office prior to production of any new marijuana product or marijuana concentrate. **The proposed new marijuana product may not be produced unless and until the MCB has approved of the product.**

Please note that licensees seeking approval of more than one proposed new marijuana product or marijuana concentrate must submit a separate completed copy of this form and pay a separate fee for each proposed new marijuana product or marijuana concentrate.

Section 1 – Establishment Information

Enter information for the business seeking to be licensed, as identified on the license application.

Licensee:	Glacier Extracts, LLC	MJ License #:	10828		
License Type:	Marijuana Product Manufacturing Facility				
Doing Business As:	Glacier Extracts				
Premises Address:	8639 Toloff Street, Suite 3				
City:	Anchorage	State:	Alaska	ZIP:	99507

Section 2 – Proposed Marijuana Concentrate or Marijuana Product

Enter information for the marijuana concentrate or the marijuana product for which you are seeking MCB approval.

Product Name:	Glacier Extracts Fire and Icebergs				
Product Type: Choose one.	Other Marijuana Product				
Perishable: Yes/No	No	Shelf Life: If perishable.			
Intended Use: Smokable/ edible/topical/wholesale/etc.	Smokable				

Form MJ-16: Proposed New Marijuana Product

Section 3 – Proposed Product Details

Enter information for the marijuana product for which you are seeking MCB approval.

Product Description: Details must include the color, shape, and texture.	Glacier Extracts Fire and Icebergs will be small and round in shape (consistent with standard marijuana bud). They will be sand like in texture and sight (because of being rolled in Kief/Bubble hash). Glacier Extracts Fire and Icebergs will be light green to dark golden brown in color.
Ingredients:	Marijuana , marijuana concentrate (either Glacier Extracts approved Glacier Goo [concentrate CO2 oil], Glacier Extracts approved product Glacier Vape Pen Oil [concentrate CO2 oil], or another locally-sourced, lab tested AMCO-approved manufacturer's marijuana concentrate). Kief/Bubble Hash (either Glacier Extracts approved kief/bubble hash) or another locally-sourced, lab tested AMCO-approved manufacturer's marijuana concentrate).
Standard Production Procedure and Detailed Manufacturing Process:	0.5 gram to 1.0 gram of marijuana bud will be covered in .25 grams of Glacier Extracts approved marijuana concentrate (CO2 oil). Then it will be rolled and/or sprinkled with .25 grams of Glacier Extracts approved Kief/Bubble Hash.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.	

Form MJ-16: Proposed New Marijuana Product

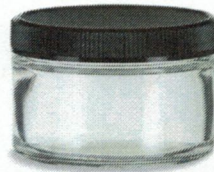

Section 4 – Proposed Product Packaging and Sample Label

Enter information for the packaging and labeling of the marijuana product for which you are seeking MCB approval.

Packaging Description:

Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.

Glacier Extracts Fire and Icebergs will be placed into a Glass/Plastic screw top jar. The jar will then be placed into a blue/white/clear mylar bag, with Glacier Extracts logo and branding. Mylar bag has a standard (zip lock style) press and seal. Mylar bag will be heat sealed at the top of package using plastic film sealer for child-resistance packaging. Each package will contain one Glacier Extracts fire and icebergs (one bud per package). Each Glacier Extracts Fire and Icebergs will contain between 30% to 80% THC. The amount of THC will be directly dependent upon the strain used, and will be included on the label per the testing results. Label will include marijuana used, concentrate used, and kief/bubble hash used, as well as all test results plus total THC content of all 3 marijuana products used in mg. Total net weight of product will be approximately 1.0 gram to 1.5 grams.

**Sample Labels:**

Provide sample labels showing how the labeling requirements set forth in 3 AAC 306.570 will be met.

Section 1 – Establishment Information

Enter information for the business seeking to be licensed, as identified on the license application.

Licensee:	Glacier Extracts, LLC	MJ License #:	10828
License Type:	Marijuana Product Manufacturing Facility		
Doing Business As:	Glacier Extracts		
Premises Address:	8639 Toloff Street, Suite 3		
City:	Anchorage	State:	Alaska
		ZIP:	99507

Section 2 – Proposed Marijuana Concentrate or Marijuana Product

Enter information for the marijuana concentrate or the marijuana product for which you are seeking MCB approval.

Product Name:	Glacier FireLog		
Product Type: Choose one.	Other Marijuana Product		
Perishable: Yes/No	No	Shelf Life: If perishable.	
Intended Use: Smokable/ edible/topical/wholesale/etc.	Smokable/Infused Product		

Form MJ-16: Proposed New Marijuana Product

Section 3 – Proposed Product Details

Enter information for the marijuana product for which you are seeking MCB approval.

Product Description: Details must include the color, shape, and texture.	Glacier Fire Logs will be circular and round (cylinder) in shape. Glacier Fire Logs will be 4" to 5" in length, Glacier Fire Logs will be between 1/4" to 1/2" in circular diameter. Glacier Fire Logs will be brown/green/purple in color dependent on which palm leaf or leaf wrap is selected. Glacier Fire Logs will look similar to a Cigar and have the texture and feel of paper and or palm leaf paper.
Ingredients:	Marijuana , marijuana concentrate (either Glacier Extracts approved Glacier Goo [concentrate CO2 oil], Glacier Extracts approved product Glacier Vape Pen Oil [concentrate CO2 oil], or another locally-sourced, lab tested AMCO-approved manufacturer's marijuana concentrate). Kief/Bubble Hash (either Glacier Extracts approved kief/bubble hash or another locally-sourced, lab tested AMCO-approved manufacturer's marijuana concentrate).
Standard Production Procedure and Detailed Manufacturing Process:	2 to 3 grams of marijuana will be placed into a standard manual rolling machine. Starting with 1 gram to 1.5 grams of marijuana (add into rolling machine). Once rolling machine is filled with 1/2 the total amount of marijuana, next we add a 1/4 gram to 1/2 gram of Concentrate CO2 oil. After oil is added to marijuana in rolling machine, next we add a 1/4 gram to 1/2 gram of Kief or Bubble Hash to rolling machine. After oil and kief/bubble hash has been added we will top off the rolling machine with 1 gram to 1 1/2 grams more of marijuana to make 2-3 total grams of marijuana. Next we will close rolling machine and insert a palm leaf/hemp wrap, after rolled, wraps will be sealed with moistened Sponge.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.

Section 4 – Proposed Product Packaging and Sample Label

Enter information for the packaging and labeling of the marijuana product for which you are seeking MCB approval.

Packaging Description:

Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.

Package will be a long, thin, non-transparent plastic child-resistant pop-top tube (also called "jay-tube"). Jay Tube color will be black or blue based on availability. Only one Glacier FireLog will be included per package. FireLogs will be from 2 grams to 3 grams of marijuana; amount of THC will be directly dependent upon the strain and will be included on the label per the testing results. Marijuana concentrate (oil) batch will be included on label, also specific to strain(s) used upon creation. Marijuana concentrate (kief/bubble hash) batch will be included on label, also specific strain(s) used upon creation. 30% to 80% THC total based on test results and different strains used.

Sample Labels:

Provide sample labels showing how the labeling requirements set forth in 3 AAC 306.570 will be met.

Alaska Marijuana Control Board

Form MJ-16: Proposed New Marijuana Product

What is this form?

This proposed new marijuana product form is required for a marijuana product manufacturing facility licensee who is seeking Marijuana Control Board (MCB) approval of a new marijuana product or marijuana concentrate for production at its licensed premises, as required under 3 AAC 306.100 and 3 AAC 306.525. **The required \$250 proposed new marijuana product fee may be made by check, cashier's check, or money order.**

This form must be completed and submitted to AMCO's main office prior to production of any new marijuana product or marijuana concentrate. **The proposed new marijuana product may not be produced unless and until the MCB has approved of the product.**

Please note that licensees seeking approval of more than one proposed new marijuana product or marijuana concentrate must submit a separate completed copy of this form and pay a separate fee for each proposed new marijuana product or marijuana concentrate.

Section 1 – Establishment Information

Enter information for the business seeking to be licensed, as identified on the license application.

Licensee:	Glacier Extracts, LLC	MJ License #:	10828		
License Type:	Marijuana Product Manufacturing Facility				
Doing Business As:	Glacier Extracts				
Premises Address:	8639 Toloff Street, Suite 3				
City:	Anchorage	State:	Alaska	ZIP:	99507

Section 2 – Proposed Marijuana Concentrate or Marijuana Product

Enter information for the marijuana concentrate or the marijuana product for which you are seeking MCB approval.

Product Name:	Glacier Firestick				
Product Type: Choose one.	Other Marijuana Product				
Perishable: Yes/No	No	Shelf Life: If perishable.			
Intended Use: Smokable/ edible/topical/wholesale/etc.	Smokable				

Form MJ-16: Proposed New Marijuana Product

Section 3 – Proposed Product Details

Enter information for the marijuana product for which you are seeking MCB approval.

Product Description: Details must include the color, shape, and texture.	Glacier Extracts Firestick (marijuana-infused pre-roll) will look the same as a standard marijuana pre-roll. Long and thin, with a filter at one end, Material of pre-roll will be made of Palm Leaf (palm leaf will be used in place of standard paper to help withstand saturation caused by papers natural absorption to oil). Palm leaves color is natural and that of light brown and light green. Texture will be smooth with raised veins (natural leaf texture).
Ingredients:	Marijuana, marijuana concentrate (either Glacier Extracts approved product Glacier Goo [concentrate CO2 oil], Glacier Extracts approved product Glacier Vape Pen Oil [concentrate CO2 oil], or another locally-sourced, lab-tested AMCO-approved manufacturer's marijuana concentrate).
Standard Production Procedure and Detailed Manufacturing Process:	Create a standard pre-roll using palm leaf. Prior to closing pre-roll, a thin precise needle with a specific and consistent amount of marijuana concentrate will be inserted directly down the center of the pre-roll, slowly injecting a microdose of marijuana concentrate as it withdraws.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.
