MEMORANDUM

TO: Marijuana Control Board DATE: May 1, 2019

FROM: Erika McConnell, Director RE: Good, LLC, #10165,
Product Manufacturing Facility

Good, LLC, is requesting approval of one new product. This product, the Manna Transdermal Patch, was denied approval by the board at the February meeting. The current submittal is attached, followed by the previous submittal.

**MJ-16 Submitted for
May 2019 Board Meeting**

Alaska Marijuana Control Board

Form MJ-16: Proposed New Marijuana Product

What is this form?

This proposed new marijuana product form is required for a marijuana product manufacturing facility licensee who is seeking Marijuana Control Board (MCB) approval of a new marijuana product or marijuana concentrate for production at its licensed premises, as required under 3 AAC 306.100 and 3 AAC 306.525. **The required \$250 proposed new marijuana product fee may be made by check, cashier's check, or money order.**

This form must be completed and submitted to AMCO's main office prior to production of any new marijuana product or marijuana concentrate. **The proposed new marijuana product may not be produced unless and until the MCB has approved of the product.**

Please note that licensees seeking approval of more than one proposed new marijuana product or marijuana concentrate must submit a separate completed copy of this form and pay a separate fee for each proposed new marijuana product or marijuana concentrate.

Section 1 – Establishment Information

Enter information for the business seeking to be licensed, as identified on the license application.

Licensee:	GOOD LLC	MJ License #:	10165		
License Type:	Marijuana Product Manufacturing Facility				
Doing Business As:	GOOD LLC				
Premises Address:	1949 Frank Ave				
City:	Fairbanks	State:	Alaska	ZIP:	99701

Section 2 – Proposed Marijuana Concentrate or Marijuana Product

Enter information for the marijuana concentrate or the marijuana product for which you are seeking MCB approval.

Product Name:	MANNA TRANSDERMAL PATCH				
Product Type: Choose one.	Other Marijuana Product				
Perishable: Yes/No	No	Shelf Life: If perishable.			
Intended Use: Smokable/ edible/topical/wholesale/etc.	TOPICALLY APPLIED; SYSTEMIC IN DELIVERY OF CANNABINOIDS				

Form MJ-16: Proposed New Marijuana Product

Section 3 – Proposed Product Details

Enter information for the marijuana product for which you are seeking MCB approval.

Product Description: Details must include the color, shape, and texture.	Transdermal patch 2.83" X 1.81" in size with a skin-color stretchable felt backing. Clear, smooth, silicon-coated polyester liner 3.50" x 2.25" covering adhesive side which has a smooth texture on the application side and slightly textured feel on the back side. Rectangular in shape. Polyisobutylene (PIB) based adhesive.
Ingredients:	Menthol, camphor, wintergreen oil (methyl salicylate), mineral oil, oleic acid, butane hash oil cannabis extract (an approved manufactured product produced by GOOD LLC 10165).
Standard Production Procedure and Detailed Manufacturing Process:	Combine correct dose of cannabis extract with excipients. Pour extract solution into barrel attached to head of 3D Printer. Prepare disposable tray with mineral oil. Use tweezers dipped in mineral oil to open patch adhesive side up by peeling patch away from release liner, then place non-adhesive side of patch along guides on oil slick. Repeat until patches laid adhesive side up occupy all guides. Repeat until two oil slicks are occupied with blank patches. Slide oil slicks with patches onto 3D printer. Run printer program. Repeat until printer barrel is empty or requisite number of patches have been produced. Package patches by placing single patches in mylar using tweezers and heat sealing. Apply labels.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.	See attached photos.

Form MJ-16: Proposed New Marijuana Product

Section 4 – Proposed Product Packaging and Sample Label

Enter information for the packaging and labeling of the marijuana product for which you are seeking MCB approval.

Packaging Description:

Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.

3" x 5" OD PAKVF2.5M White MiniPouch, IMPAK #25MW0305RCLNTN, Mylar foil heat-sealable. White, 2.5mil thickness. Print on the package will be white, black and gold.

Each package will contain a single serving (1 patch/package). We will dose each patch with either 10, 20, or 30mg THC.

See attached photos.

Sample Labels:

Provide sample labels showing how the labeling requirements set forth in 3 AAC 306.570 will be met.

See attached image of packaging with labels attached. Note, blue area designates the label for variable data (i.e., info such as "batch", "sold by"). Variable label sticker will be white with black print.

As a marijuana establishment licensee, I declare under penalty of perjury and falsification that this form, including all accompanying schedules and statements, is true, correct, and complete.
