MEMORANDUM

TO: Chair and Members of the Board

DATE: April 18, 2019

FROM: Erika McConnell
Director, Marijuana Control Board

RE: Wakin' Bakery #13697

Wakin' Bakery, a marijuana product manufacturing facility, is requesting approval of twelve new products. Attached is the MJ-16 Proposed New Marijuana Product for each product.

Alaska Marijuana Control Board

Form MJ-16: Proposed New Marijuana Product**What is this form?**

This proposed new marijuana product form is required for a marijuana product manufacturing facility licensee who is seeking Marijuana Control Board (MCB) approval of a new marijuana product or marijuana concentrate for production at its licensed premises, as required under 3 AAC 306.100 and 3 AAC 306.525. **The required \$250 proposed new marijuana product fee may be made by check, cashier's check, or money order.**

This form must be completed and submitted to AMCO's main office prior to production of any new marijuana product or marijuana concentrate. **The proposed new marijuana product may not be produced unless and until the MCB has approved of the product.**

Please note that licensees seeking approval of more than one proposed new marijuana product or marijuana concentrate must submit a separate completed copy of this form and pay a separate fee for each proposed new marijuana product or marijuana concentrate.

Section 1 – Establishment Information

Enter information for the business seeking to be licensed, as identified on the license application.

Licensee:	SFA, LLC	MJ License #:	#13697		
License Type:	Marijuana Product Manufacturing Facility				
Doing Business As:	Wakin' Bakery				
Premises Address:	218 Kelly Drive				
City:	Ketchikan	State:	Alaska	ZIP:	99901

Section 2 – Proposed Marijuana Concentrate or Marijuana Product

Enter information for the marijuana concentrate or the marijuana product for which you are seeking MCB approval.

Product Name:	Arctic Thunder Cannabis Hard Candy				
Product Type: Choose one.	Other Marijuana Product				
Perishable: Yes/No	Yes	Shelf Life: If perishable.	1 year		
Intended Use: Smokable/ edible/topical/wholesale/etc.	Edible				

**Form MJ-16: Proposed New Marijuana Product****Section 3 – Proposed Product Details**

Enter information for the marijuana product for which you are seeking MCB approval.

Product Description: Details must include the color, shape, and texture.	The candies are in subdued colors to match the candy flavors: tan for butterscotch, honey, and cinnamon, green for lemon-lime, mint, and apple, white for pina colada, blue for blueberry, orange for mango, orange, and peach, yellow for pineapple, lemonade, and banana, pink for raspberry, strawberry, and cotton candy. They are in small geometric shapes (circle, oval, square). The candies are hard with a smooth surface.
Ingredients:	Sugar, Corn Syrup, Water, Cannabis Infused Alcohol, Flavoring Extract (may contain these flavoring extracts: butterscotch, honey, cinnamon, lemon-lime, mint, apple, pina colada, blueberry, mango, peach, orange, pineapple, lemonade, banana, raspberry, strawberry or cotton candy), Citric Acid, Food Coloring (water, propylene glycol, may contain FD&C blue 1 or FD&C red 40 or FD&C yellow 5, titanium dioxide, modified corn starch, xanthan gum, potassium sorbate).
Standard Production Procedure and Detailed Manufacturing Process:	Combine the sugar, corn syrup and water in a pan and cook to 313 degrees Fahrenheit. Remove from the heat source and cool to 250 degrees Fahrenheit. Add the cannabis infused alcohol, flavoring extract, citric acid and food coloring and mix until well combined. Deposit the mixture into the molds. Cool and let harden before removing from the molds. Store in airtight container at room temperature.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.	

**Form MJ-16: Proposed New Marijuana Product****Section 4 – Proposed Product Packaging and Sample Label**

Enter information for the packaging and labeling of the marijuana product for which you are seeking MCB approval.

Packaging Description: Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.	Arctic Thunder Cannabis Hard Candies will be packaged in opaque, resealable, child-resistant mylar bags not to exceed 5 mg per serving or 50 mg per bag. Our packaging is in muted colors and is sized to accommodate the amount of candies per package but no smaller than 3"x3" to allow for the label. They will be offered in 1mg, 2.5mg, and 5mg potency per candy piece and will be packaged in the following amounts: 1 mg of THC potency per candy will be 5 Candies per serving: 2 servings per package=10 mg THC per package, 4 servings per package=20 mg THC per package. 2.5 mg of THC potency per candy will be 2 Candies per serving: 2 servings per package= 5 mg THC per package, 4 servings per package= 10 mg THC per package, 10 servings per package= 25 mg THC per package. 5 mg of THC potency per candy will be 1 Candy per serving: 2 servings per package= 10 mg THC per package, 4 Candies per package=20 mg THC per package, 10 servings per package= 50 mg THC per package.
Sample Labels: Provide sample labels showing how the labeling requirements set forth in 3 AAC 306.570 will be met.	Wakin' Bakery Arctic Thunder Cannabis Hard Candies Sugar, Corn Syrup, Water, Cannabis Infused Alcohol, Flavoring Extract (may contain these flavoring extracts: butterscotch, honey, cinnamon, lemon-lime, mint, apple, pina colada, blueberry, mango, peach, orange, pineapple, lemonade, banana, raspberry, strawberry or cotton candy), Citric Acid, Food Coloring (water, propylene glycol, may contain FD&C blue 1 or FD&C red 40 or FD&C yellow 5, titanium dioxide, modified corn starch, xanthan gum, potassium sorbate). Batch/Lot # __ Total THC: __ __ mg servings: Serving Size: __ Net weight: __ Packaging date: __ Expiration date: __ Tested by: Testing Facility License # __ Amount of THC: __ Microbial Test Results: __ Residual Solvent Testing Results: __ Other Contaminant Testing Results: __ Marijuana has intoxicating effects and may be habit forming and addictive. Alaska Marijuana Control Board

Form MJ-16: Proposed New Marijuana Product

What is this form?

This proposed new marijuana product form is required for a marijuana product manufacturing facility licensee who is seeking Marijuana Control Board (MCB) approval of a new marijuana product or marijuana concentrate for production at its licensed premises, as required under 3 AAC 306.100 and 3 AAC 306.525. **The required \$250 proposed new marijuana product fee may be made by check, cashier's check, or money order.**

This form must be completed and submitted to AMCO's main office prior to production of any new marijuana product or marijuana concentrate. **The proposed new marijuana product may not be produced unless and until the MCB has approved of the product.**

Please note that licensees seeking approval of more than one proposed new marijuana product or marijuana concentrate must submit a separate completed copy of this form and pay a separate fee for each proposed new marijuana product or marijuana concentrate.

Section 1 – Establishment Information

Enter information for the business seeking to be licensed, as identified on the license application.

Licensee:	SFA, LLC	MJ License #:	#13697		
License Type:	Marijuana Product Manufacturing Facility				
Doing Business As:	Wakin' Bakery				
Premises Address:	218 Kelly Drive				
City:	Ketchikan	State:	Alaska	ZIP:	99901

Section 2 – Proposed Marijuana Concentrate or Marijuana Product

Enter information for the marijuana concentrate or the marijuana product for which you are seeking MCB approval.

Product Name:	Cannabis Infused Alcohol				
Product Type: Choose one.	Marijuana Concentrate				
Perishable: Yes/No	Yes	Shelf Life: If perishable.	4 years		
Intended Use: Smokable/ edible/topical/wholesale/etc.	In-house only. Used as an ingredient in AMCO approved products.				

Form MJ-16: Proposed New Marijuana Product

Section 3 – Proposed Product Details

Enter information for the marijuana product for which you are seeking MCB approval.

Product Description: Details must include the color, shape, and texture.	Light golden to dark green clear liquid. Stored in glass containers. Texture is a watery liquid.
Ingredients:	200 Proof Food Grade Ethyl Alcohol, Cannabis
Standard Production Procedure and Detailed Manufacturing Process:	Decarboxylate cannabis flower or trim in the oven for 1 hour at 250 degrees fahrenheit. In a glass jar mix decarboxylated cannabis with enough 200 proof food grade ethyl alcohol so it is covered completely. Seal the jar and store it away from any light. Shake the jar once a day for approximately 2 weeks. Once the THC has been infused into the alcohol, strain the liquid to remove the solids. Store in a sealed glass container away from light and at room temperature.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.	

**Form MJ-16: Proposed New Marijuana Product****Section 4 – Proposed Product Packaging and Sample Label**

Enter information for the packaging and labeling of the marijuana product for which you are seeking MCB approval.

Packaging Description:

Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.

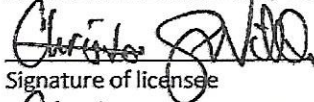

Cannabis Infused Alcohol is not for resale. It is used as an ingredient in products that are AMCO approved for resale. It is stored in glass containers.

**Sample Labels:**

Provide sample labels showing how the labeling requirements set forth in 3 AAC 306.570 will be met.

Section 2 – Proposed Marijuana Concentrate or Marijuana Product

Enter information for the marijuana concentrate or the marijuana product for which you are seeking MCB approval.

Product Name:	Cannabis Tincture				
Product Type: Choose one.	Other Marijuana Product				
Perishable: Yes/No	Yes	Shelf Life: If perishable.	1 year		
Intended Use: Smokable/ edible/topical/wholesale/etc.	Edible				

Form MJ-16: Proposed New Marijuana Product

Section 3 – Proposed Product Details

Enter information for the marijuana product for which you are seeking MCB approval.

Product Description: Details must include the color, shape, and texture.	Cannabis Tincture is a golden to dark brown liquid. It will be the shape of the small glass vial it is in. Liquid texture similar to vegetable oil.
Ingredients:	Cannabis Infused Vegetable Glycerine, Organic Vegetable Glycerine, Natural Flavorings, Stevia Leaf Extract, Potassium Sorbate
Standard Production Procedure and Detailed Manufacturing Process:	Mix together the infused glycerine, organic vegetable glycerine, flavorings, stevia leaf extract and potassium sorbate until well combined. Pour into dropper bottles and store at room temperature.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.	

**Form MJ-16: Proposed New Marijuana Product****Section 4 – Proposed Product Packaging and Sample Label**

Enter information for the packaging and labeling of the marijuana product for which you are seeking MCB approval.

Packaging Description:

Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.

Cannabis Tincture will be put in an opaque child resistant bottle with a 1 ml dropper. The dropper will be marked with graduated lines to indicate dose and the cap will be child resistant. The top of the bottle will have a child proof plastic shrink seal. A wrap around label will be attached to the bottle.

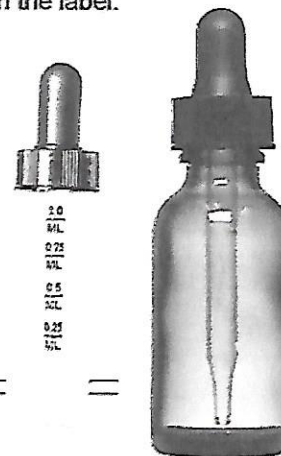

The Cannabis Tincture will be available in a 25 mg THC potency per bottle and a 50 mg THC potency per bottle. Dosing amount will be clearly marked on the label.

Total THC in the bottle: 25 mg THC

Serving size: 2 ml (two 1 ml droppers) will provide 5 mg of THC
Servings per container: 5

Total THC in the bottle: 50 mg THC

Serving size: 1 ml (one 1 ml dropper) will provide 5 mg of THC
Servings per container: 10

**Sample Labels:**

Provide sample labels showing how the labeling requirements set forth in 3 AAC 306.570 will be met.

Form MJ-16: Proposed New Marijuana Product

What is this form?

This proposed new marijuana product form is required for a marijuana product manufacturing facility licensee who is seeking Marijuana Control Board (MCB) approval of a new marijuana product or marijuana concentrate for production at its licensed premises, as required under 3 AAC 306.100 and 3 AAC 306.525. **The required \$250 proposed new marijuana product fee may be made by check, cashier's check, or money order.**

This form must be completed and submitted to AMCO's main office prior to production of any new marijuana product or marijuana concentrate. **The proposed new marijuana product may not be produced unless and until the MCB has approved of the product.**

Please note that licensees seeking approval of more than one proposed new marijuana product or marijuana concentrate must submit a separate completed copy of this form and pay a separate fee for each proposed new marijuana product or marijuana concentrate.

Section 1 – Establishment Information

Enter information for the business seeking to be licensed, as identified on the license application.

Licensee:	SFA, LLC	MJ License #:	#13697		
License Type:	Marijuana Product Manufacturing Facility				
Doing Business As:	Wakin' Bakery				
Premises Address:	218 Kelly Drive				
City:	Ketchikan	State:	Alaska	ZIP:	99901

Section 2 – Proposed Marijuana Concentrate or Marijuana Product

Enter information for the marijuana concentrate or the marijuana product for which you are seeking MCB approval.

Product Name:	Cheechako Chews				
Product Type: Choose one.	Other Marijuana Product				
Perishable: Yes/No	Yes	Shelf Life: If perishable.	1 year		
Intended Use: Smokable/ edible/topical/wholesale/etc.	Edible				

Form MJ-16: Proposed New Marijuana Product

Section 3 – Proposed Product Details

Enter information for the marijuana product for which you are seeking MCB approval.

Product Description: Details must include the color, shape, and texture.	Cheechako Chews are in subdued colors to match the candy flavors: tan for butterscotch, honey, and cinnamon, green for lemon-lime, mint, and apple, white for pina colada, blue for blueberry, orange for mango, orange, and peach, yellow for pineapple, lemonade, and banana, pink for raspberry, strawberry, and cotton candy. It will be an oval shape and the texture like taffy.
Ingredients:	Sugar, Corn Syrup, Cannabis Infused Butter, Flavoring Extract (may contain these flavoring extracts: butterscotch, honey, cinnamon, lemon-lime, mint, apple, pina colada, blueberry, mango, peach, orange, pineapple, lemonade, banana, raspberry, strawberry or cotton candy), Citric Acid, Food Coloring (water, propylene glycol, may contain FD&C blue 1 or FD&C red 40 or FD&C yellow 5; titanium dioxide, modified corn starch, xanthan gum, potassium sorbate).
Standard Production Procedure and Detailed Manufacturing Process:	Combine the sugar, corn syrup and cannabis infused butter in a saucepan and boil until 245 degrees Fahrenheit. Remove from the heat and stir in the flavoring extract, citric acid and food coloring. Pour into mold and let set. Wrap in candy wrappers and store at room temperature.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.	

**Form MJ-16: Proposed New Marijuana Product****Section 4 – Proposed Product Packaging and Sample Label**

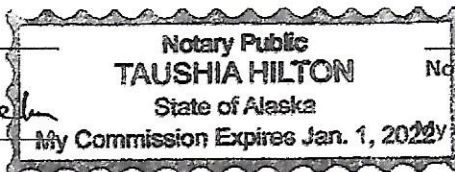

Enter information for the packaging and labeling of the marijuana product for which you are seeking MCB approval.

Packaging Description: Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.	<p>Cheechako Chews will be packaged in opaque, resealable, child-resistant mylar bags not to exceed 5 mg per serving or 50 mg per bag. Our packaging is in muted colors and is sized to accommodate the amount of candies per package but no smaller than 3"x3" to allow for the label. They will be offered in 1mg, 2.5mg, and 5mg potency per candy piece and will be packaged in the following amounts:</p> <p>1 mg of THC potency per candy will be 5 Cheechako Chews per serving: 2 servings per package=10 mg THC per package, 4 servings per package=20 mg THC per package.</p> <p>2.5 mg of THC potency per candy will be 2 Cheechako Chews per serving: 2 servings per package= 5 mg THC per package, 4 servings per package= 10 mg THC per package, 10 servings per package= 25 mg THC per package.</p> <p>5 mg of THC potency per candy will be 1 Cheechako Chew per serving: 2 servings per package= 10 mg THC per package, 4 Candies per package=20 mg THC per package, 10 servings per package= 50 mg THC per package.</p>
Sample Labels: Provide sample labels showing how the labeling requirements set forth in 3 AAC 306.570 will be met.	<p>Wakin' Bakery Cheechako Chews Ingredients: Sugar, Corn Syrup, Cannabis Infused Butter, Flavoring Extract (may contain these flavoring extracts: butterscotch, honey, cinnamon, lemon-lime, mint, apple, pina colada, blueberry, mango, peach, orange, pineapple, lemonade, banana, raspberry, strawberry or cotton candy), Citric Acid, Food Coloring (water, propylene glycol, may contain FD&C blue 1 or FD&C red 40 or FD&C yellow 5, titanium dioxide, modified corn starch, xanthan gum, potassium sorbate). Batch/Lot # _____ Total THC: _____ mg servings: _____ Serving Size: _____ Net weight: _____ Packaging date: _____ Expiration date: _____ Tested by: _____ Testing Facility License # _____ Amount of THC: _____ Microbial Test Results: _____ Residual Solvent Testing Results: _____ Other Contaminant Testing Results: _____ Marijuana has intoxicating effects and may be habit forming and addictive. Marijuana impairs concentration, coordination, and judgment. Do not operate a vehicle or machinery under its influence. There are health risks associated with consumption of marijuana. For use only by adults twenty-one and older. Keep out of the reach of children. Marijuana should not be used by women who are pregnant or breastfeeding.</p> <p>Wakin' Bakery #13697 Ketchikan, AK 99901</p>

Doing Business As:	Wakin' Bakery				
Premises Address:	218 Kelly Drive				
City:	Ketchikan	State:	Alaska	ZIP:	99901

Section 2 – Proposed Marijuana Concentrate or Marijuana Product

Enter information for the marijuana concentrate or the marijuana product for which you are seeking MCB approval.

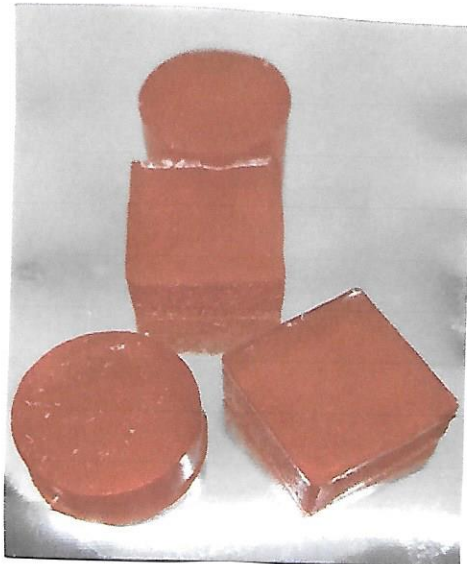

Product Name:	Northern Lightning Cannabis Gummies				
Product Type: Choose one.	Other Marijuana Product				
Perishable: Yes/No	Yes	Shelf Life: If perishable.	1 year		
Intended Use: Smokable/ edible/topical/wholesale/etc.	Edible				

Form MJ-16: Proposed New Marijuana Product

Section 3 – Proposed Product Details

Enter information for the marijuana product for which you are seeking MCB approval.

Product Description: Details must include the color, shape, and texture.	The gummies are in subdued colors to match the candy flavors: tan for butterscotch, honey, and cinnamon, green for lemon-lime, mint, and apple, white for pina colada, blue for blueberry, orange for mango, orange, and peach, yellow for pineapple, lemonade, and banana, pink for raspberry, strawberry, and cotton candy. They are in geometric shapes, (circle, oval, square), of slightly less than an inch length and 1/4 inch in height. They have an elastic chewy texture with a smooth surface.
Ingredients:	Sugar, Water, Corn Syrup, Gelatin, Cannabis Infused Alcohol, Flavoring Extract (may contain these flavoring extracts: butterscotch, honey, cinnamon, lemon-lime, mint, apple, pina colada, blueberry, mango, peach, orange, pineapple, lemonade, banana, raspberry, strawberry or cotton candy), Citric Acid, Food Coloring (water, propylene glycol, may contain FD&C blue 1 or FD&C red 40 or FD&C yellow 5, titanium dioxide, modified corn starch, xanthan gum, potassium sorbate).
Standard Production Procedure and Detailed Manufacturing Process:	Combine the sugar, corn syrup and water in a pan and cook to 275 degrees Fahrenheit. Hydrate the gelatin in water and add it to the sugar syrup. Add the cannabis infused alcohol, flavoring extract, citric acid and food coloring and mix until well combined. Deposit the mixture into molds and let set for at least 10 hours before removing from the molds. Store in an airtight container at room temperature.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.
