MEMORANDUM

TO: Chair and Members of the Board DATE: June 26, 2019
FROM: Erika McConnell RE: Arctic Delights #17316
Director, Marijuana Control Board

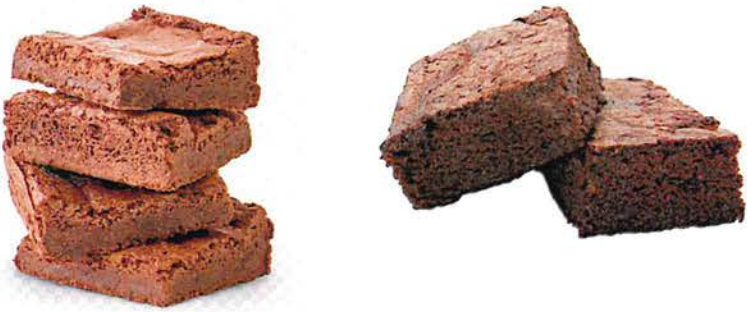

Attached are the eleven products for Arctic Delights that were tabled by the Board at the May 2019 meeting.

**Form MJ-05: Marijuana Product Manufacturing Facility Operating Plan Supplemental****Section 6 – Proposed Marijuana Concentrates and Marijuana Products**

Review the requirements under 3 AAC 306.520, 3 AAC 306.525, and 3 AAC 306.560.

Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	Arctic Brownie Delight		
Product Type:	Edible		
Perishable: Yes/No	Yes	Shelf Life: If perishable.	6 months frozen
Product Description: Details must include the color, shape, and texture.	Each brownie will be square shaped and will range in color from a light brown to dark brown depending on marijuana strain used and cocoa powder. The consistency will be soft and chewy.		
Ingredients: This box is not applicable to marijuana concentrates.	Sugar, butter, eggs, unsweetened cocoa powder, vanilla, flour, salt, baking powder, infused cannabis coconut oil, and chocolate.		
Standard Production Procedure and Detailed Manufacturing Process:	Preheat oven to 350 degrees Mix infused cannabis coconut oil and sugar until well blended to ensure homogenization. Add eggs and vanilla; stir just until blended. Mix all dry ingredients in a separate bowl. Stir dry ingredients into the oil/sugar mixture. Pour into greased 9 x 9 square pan. Bake for 20 minutes or until sides just starts to pull away from the pan. Cool completely before cutting		
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.			

Form MJ-05: Marijuana Product Manufacturing Facility Operating Plan Supplemental

Section 7 – Proposed Product Packaging and Sample Labels

Review the requirements under 3 AAC 306.520, 3 AAC 306.565, and 3 AAC 306.570.

Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	Arctic Brownie Delight
Product Type:	Edible

Packaging Description:

Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.

Packaging size: There will be two package sizes: For the smaller package, each package of brownie bites will have two individual brownie bites each containing 5mg of THC per a piece, each package will be 10mg of THC per package. For the larger package, there will be ten individually wrapped brownie bites, containing 5mg of THC each, for a total of 50mg of THC. Brownie bites will be individually wrapped in cellophane and then placed into an opaque mylar bag. For the larger packages containing ten brownie bites, the mylar bag is then to be placed into a child-resistant exit bag by the retailer before the customer exits the retail store.

**Sample Labels:**

Provide sample labels showing how the labeling requirements set forth in 3 AAC 306.570 will be met.

Section 6 – Proposed Marijuana Concentrates and Marijuana Products

Review the requirements under 3 AAC 306.520, 3 AAC 306.525, and 3 AAC 306.560.

Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	Arctic Delights Chocolate Chip Cookie Bites		
Product Type:	Edible		
Perishable: Yes/No	Yes	Shelf Life: If perishable.	6 months frozen
Product Description: Details must include the color, shape, and texture.	Each cookie will be round shaped and will be a light brown color with dark colored chocolate pieces. The consistency will be soft and chewy.		
Ingredients: This box is not applicable to marijuana concentrates.	Flour, white sugar, brown sugar, infused cannabis butter, non-infused butter, eggs, vanilla extract, baking soda, water, chocolate chips, salt		
Standard Production Procedure and Detailed Manufacturing Process:	<p>Preheat the oven to 350 F.</p> <p>In a large bowl, mix infused cannabis butter & non-infused butter with the sugars until well-combined. Stir in vanilla and egg until incorporated.</p> <p>Add the flour, baking soda, and salt. Mix until just combined. Dough should be soft and a little sticky but not overly sticky.</p> <p>Stir in chocolate chips.</p> <p>Scoop out 1.5 tablespoons of dough (medium cookie scoop) and place on baking sheet.</p> <p>Bake for 7-10 minutes, or until cookies are set.</p>		
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.			

**Section 7 – Proposed Product Packaging and Sample Labels**

Review the requirements under 3 AAC 306.520, 3 AAC 306.565, and 3 AAC 306.570.

Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	Arctic Delights Chocolate Chip Cookie Bites
Product Type:	Edible

Packaging Description:

Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.

Packaging size: There will be two package sizes. Package size one: each package of cookie bites will have two individually wrapped cookie bites each 5mg of THC per a piece, each package will be 10mg of THC per package size one. Package size two: there will be ten individually wrapped cookies, each with 5mg of THC in a cookie, totaling 50 mg of THC per package size two.

Cookie bites will be individually wrapped in cellophane and then placed into an opaque mylar bag. For package size two only, the mylar bag is then to be placed into a child-resistant exit bag by the retailer before the customer exits the retail store.

**Sample Labels:**

Provide sample labels showing how the labeling requirements set forth in 3 AAC 306.570 will be met.

Product Name:	Arctic Delights Signature Meltaway's		
Product Type:	Edible		
Perishable: Yes/No	Yes	Shelf Life: If perishable.	6 months frozen
Product Description: Details must include the color, shape, and texture.	Each meltaway piece is essentially a truffle, and will be small rectangular shaped, with a color ranging from brown to dark brown depending on the marijuana strain used and cocoa.		
Ingredients: This box is not applicable to marijuana concentrates.	Chocolate powder, marijuana infused coconut oil, cocoa powder, sugar, vanilla extract, mint extract, and raspberry extract. (all extracts will not be mixed together - to be used as additional flavors which will not change the appearance of the marijuana product, it will only change the flavor indication on the package)		
Standard Production Procedure and Detailed Manufacturing Process:	In a saucepan, bring the cannabis infused coconut oil to just to a simmer over medium-low to low heat. Pour the oil over the chocolate in a bowl and cover with plastic wrap. Let stand about 10 minutes to melt the chocolate. Add the vanilla and stir until smooth and fully homogenized. Set aside to cool to room temperature, 30 minutes to 1 hour. Then beat the chocolate mixture (which will be soft but not liquid) at medium speed, using an electric mixer, until it is thick and light colored. If the chocolate mixture has cooled enough, it will be ready to form meltaways right away, if not additional cooling time is necessary. If mixture is not firm enough to shape refrigerate until firmed, but still scoop-able, up to 2 hours. Roll out chocolate mixture on a clean flat surface and cut into 1 inch rectangles and sprinkle with cocoa powder, transfer them to a baking sheet lined with parchment or waxed paper.		
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.			

**Section 7 – Proposed Product Packaging and Sample Labels**

Review the requirements under 3 AAC 306.520, 3 AAC 306.565, and 3 AAC 306.570.

Product Name:	Arctic Delights Signature Meltaway's
Product Type:	Edible

Packaging Description:

Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.

Packaging sizes - there will be two sizes: Size One- each package of chocolate meltaway's will have two individually wrapped in foil pieces each 5mg a piece, each package will be 10mg of THC per package and will be placed in a child resistant opaque mylar bag. Size Two: there will be five individually wrapped in foil meltaways in a package, each containing 5mgs, totaling 25mgs of THC per package. For size two, the pieces will be placed in a mylar bag, and then placed in a resealable exit bag for extra precaution to protect against consumption by children.

**Sample Labels:**

Provide sample labels showing how the labeling requirements set forth in 3 AAC 306.570 will be met.

Product Name:	Arctic Pot Rocks		
Product Type:	Edible		
Perishable: Yes/No	yes	Shelf Life: If perishable.	12 months
Product Description: Details must include the color, shape, and texture.	Colors will vary depending on flavor; blue, green, red, purple, and pink. All colors will be muted. Texture will be equivalent to large sugar granules and appearance will be similar to large sugar granules, when exposed to liquid the product gives off a popping sound and texture. Contact with moisture causes a reaction with the baking soda and citric acid (see ingredients below) and causes a mild cracking and popping reaction.		
Ingredients: This box is not applicable to marijuana concentrates.	Water, sugar, cannabis simple syrup, baking soda, citric acid, flavoring; raspberry, blue raspberry, green apple, cherry, grape (all flavors will not be combined at once but will be one flavor per package) natural coloring.		
Standard Production Procedure and Detailed Manufacturing Process:	Bring sugar, water and cannabis simple syrup to 300 degrees on a stove top. Remove from heat and cool to 275 degrees and add remaining ingredients (baking soda and citric acid are added at this time first, and then the flavoring is added immediately afterwards), pour mixture onto baking sheet and allow to cool. Once candy has set and cooled break into small pieces and then roll with rolling pin to create small pieces of candy.		
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.	<p>*colors will be muted</p>

Review the requirements under 3 AAC 306.520, 3 AAC 306.525, and 3 AAC 306.560.

Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	Arctic Tea Delight		
Product Type:	Product/Edible		
Perishable: Yes/No	No	Shelf Life: If perishable.	NA
Product Description: Details must include the color, shape, and texture.	The product will be loose leaf tea in individual tea filter bags. The shape will be either cone or square shape, depending on disposable tea bags used. The tea itself will be earthy colors and the texture will be smooth on the outside of tea bags (similar to the texture of coffee filters); tea leafs will look like herbs and small leafs.		
Ingredients: This box is not applicable to marijuana concentrates.	mint leafs, passion flower leafs, rose hips, chamomile leafs, lemon zest and marijuana tincture.		
Standard Production Procedure and Detailed Manufacturing Process:	Take dried mint leafs, passion flower leafs, rose hips (dried), dried chamomile leafs, and lemon zest and mix and toss with marijuana tincture - ensure at least 100 tosses to ensure homogeneity. Allow herbal mixture to dry and then using a standard tablespoon measurement, each measured table spoon will be inserted into individual tea bags. This will be done by hand and not mechanically. Each tea bag will contain only 5mgs of THC.		
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.

Product Name:	Cannabis Simple Syrup		
Product Type:	Edible		
Perishable: Yes/No	Yes	Shelf Life: If perishable.	8-12 months refrigerated
Product Description: Details must include the color, shape, and texture.	Color can vary from golden amber to a translucent light yellow, depending on the marijuana strain used. It is a liquid substance that has a consistency of sugar water (not as thin as water, but not as thick as syrup, somewhere in between - much like sap from a birch or maple tree).		
Ingredients: This box is not applicable to marijuana concentrates.	Filtered water, granulated sugar OR raw sugar, vegetable glycerin, marijuana kief and/or marijuana trim or flower, or a combination of all three.		
Standard Production Procedure and Detailed Manufacturing Process:	Measure out equal parts sugar and water. Add filtered water to a large pot and bring to a low boil. Once water begins to bubble, mix in marijuana kief/marijuana/MJ trim. Stir frequently, then slowly add sugar while stirring try to stir sugar and dissolve it before adding remaining sugar (ie add sugar slowly to avoid burning sugar). Reduce heat and cover for 20 mins, make sure the mixture does not come to a boil during this time period. After 20 min, add glycerin and stir, ensure all sugar crystals are dissolved (if any sugar crystals still remain). Increase heat slightly, allow for gentle bubbling to occur while stirring constantly, mixture will thicken slightly. Strain mixture to remove plant matter, place plant matter in marijuana waste bin and notify Enforcement of intent to destroy in three days(as this process does not render the marijuana plant matter unusable unlike other extraction processes because this process only uses heat and sugar mj plant matter may still have usable characteristics). Let syrup cool to room temperature.		
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.			

Form MJ-05: Marijuana Product Manufacturing Facility Operating Plan Supplemental

Section 7 – Proposed Product Packaging and Sample Labels

Review the requirements under 3 AAC 306.520, 3 AAC 306.565, and 3 AAC 306.570.

Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	Cannabis Simple Syrup
Product Type:	Product

Packaging Description:

Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.

Cannabis simple syrup will not be sold by Arctic Delights as a retail product and will be used solely in house for Arctic Delight products. The syrup will be stored in glass, resealable jars of various sizes. The syrup will be used by the manufacturing license to produce other edibles for the sale to marijuana retail facilities (all edibles containing house infused simple syrup is outlined in MJ-05) Syrup will be batch tested to determine THC levels and based on potency be dosed out into marijuana products accordingly.

The syrup will be stored in mason glass jars and will be stored in locked commercial grade refrigerator shown on MJ02 diagrams. Each mason jar will be labeled with lot number generated from metrc, identify the strain and metric harvest batch number, and jars that are from a batch out for testing will be segregated and quarantined from the rest in the locked fridge in a separate identified bin.

Sample Labels:

Provide sample labels showing how the labeling requirements set forth in 3 AAC 306.570 will be met.

Section 6 – Proposed Marijuana Concentrates and Marijuana Products

Review the requirements under 3 AAC 306.520, 3 AAC 306.525, and 3 AAC 306.560.

Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	Delighted Drops		
Product Type:	Edible		
Perishable: Yes/No	Yes	Shelf Life: If perishable.	1 yr
Product Description: Details must include the color, shape, and texture.	Candies will be square shaped and come in a variety of flavors and colors. All colors will be muted, colors depend on flavors. Texture will be smooth		
Ingredients: This box is not applicable to marijuana concentrates.	Cannabis simple syrup, sugar, corn syrup, water, blueberry, grape, green apple, cherry, pineapple, blue raspberry flavoring *all flavors will not be combined at once, but per package will have one flavor and natural colorings will be muted and match the flavor (ie green for apple, purple for grape, etc)*.		
Standard Production Procedure and Detailed Manufacturing Process:	Combine sugar, corn syrup, cannabis simple syrup and water into the fire mixer (see equipment list above) and cook on low temperature. Remove from heat and stir in flavoring. Pour molten candy into greased cookie sheet and allow to cool until warm to the touch. Remove slab of candy from sheet and move to cutting board. Score candy slab into rows about 1" apart. Cut all the way through the candy slab along the score lines, separating candies into rows, then individual candies. Each candy will be individually wrapped in cellophane.		
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.	<p>*colors will be muted</p>

Product Name:	Infused Cannabis Butter		
Product Type:	Edible		
Perishable: Yes/No	Yes	Shelf Life: If perishable.	6 month shelf life refrigerated
Product Description: Details must include the color, shape, and texture.	The infused cannabis butter will have light yellowish green color (green color varies on strain of marijuana used) texture is a solid creamy texture when cool, and a liquid when heated.		
Ingredients: This box is not applicable to marijuana concentrates.	Butter and marijuana/trim/keif or combination of all three.		
Standard Production Procedure and Detailed Manufacturing Process:	All ingredients will be heated by either stove top, crock pot or magic butter machine for a set amount of time, and then the plant matter will be strained out of the butter, leaving infused cannabis butter. The infused cannabis butter will be poured into mason jars and stored in the locked commercial grade fridge in the quarantine bin until testing results are received. Then the infused cannabis butter will be used for in-house product production.		
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.

Product Name:	Infused Cannabis Coconut Oil		
Product Type:	Edible		
Perishable: Yes/No	Yes	Shelf Life: If perishable.	6 month shelf life
Product Description: Details must include the color, shape, and texture.	The coconut oil will have light green color (green color varies on strain of marijuana used) texture is buttery when solid, and a liquid oil when in temperatures higher than 75 degrees.		
Ingredients: This box is not applicable to marijuana concentrates.	Coconut oil, marijuana trim/bud/or keif, or combo of all three.		
Standard Production Procedure and Detailed Manufacturing Process:	All ingredients will be heated by either stove top, crock pot, fire mixer, or magic butter machine for a certain amount of time. Once it appears that the marijuana desired compounds have been fully leached out of the marijuana plant matter, the solution will be strained using cheese cloth to remove all plant matter and residue. The remaining solution will be Infused Cannabis Coconut Oil, which will be pored into glass mason jars and stored in the locked commercial grade refrigerator in the quarantine bin until testing results are received and the product is then used in house for product production.		
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.
