MEMORANDUM

TO: Chair and Members of the Board

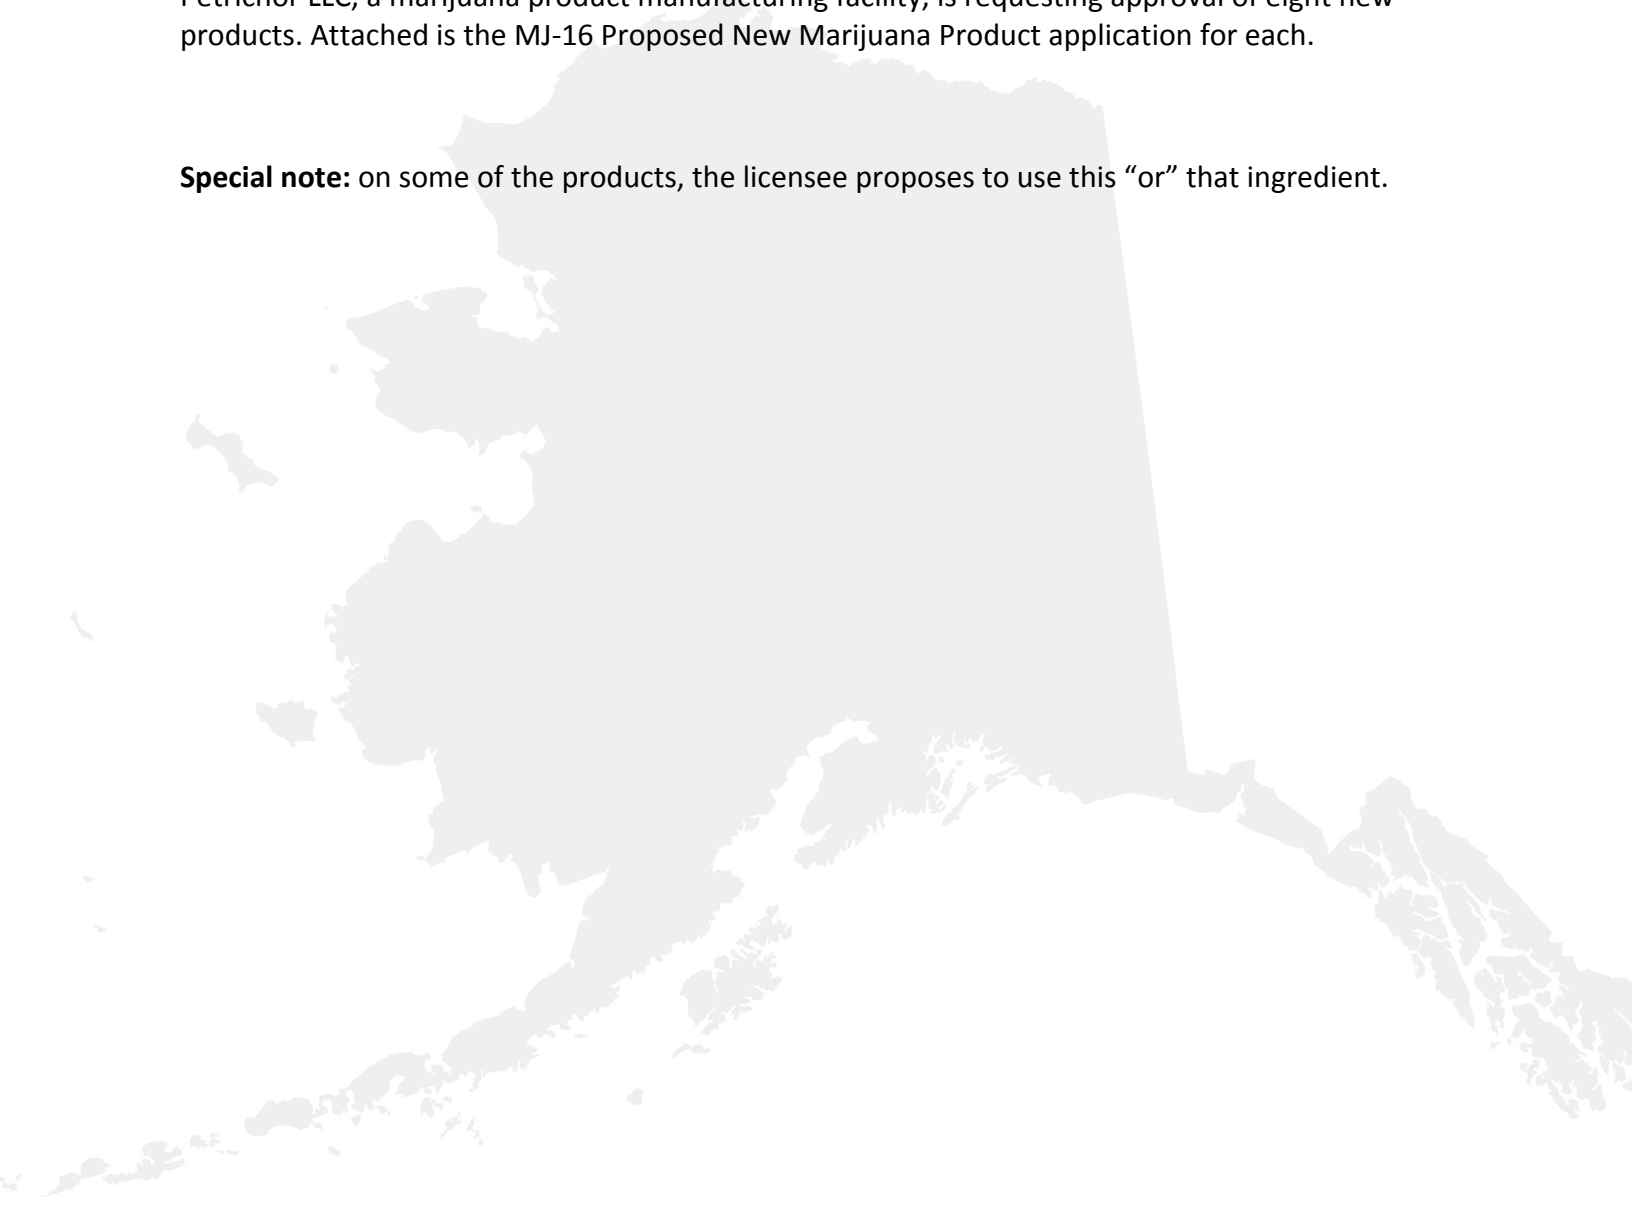

FROM: Erika McConnell
Director, Marijuana Control Board

DATE: August 30, 2019

RE: Petrichor LLC #18493

Petrichor LLC, a marijuana product manufacturing facility, is requesting approval of eight new products. Attached is the MJ-16 Proposed New Marijuana Product application for each.

Special note: on some of the products, the licensee proposes to use this “or” that ingredient.

Alaska Marijuana Control Board

Form MJ-16: Proposed New Marijuana Product**What is this form?**

This proposed new marijuana product form is required for a marijuana product manufacturing facility licensee who is seeking Marijuana Control Board (MCB) approval of a new marijuana product or marijuana concentrate for production at its licensed premises, as required under 3 AAC 306.100 and 3 AAC 306.525. The required \$250 proposed new marijuana product fee may be made by check, cashier's check, or money order.

This form must be completed and submitted to AMCO's main office prior to production of any new marijuana product or marijuana concentrate. The proposed new marijuana product may not be produced unless and until the MCB has approved of the product.

Please note that licensees seeking approval of more than one proposed new marijuana product or marijuana concentrate must submit a separate completed copy of this form and pay a separate fee for each proposed new marijuana product or marijuana concentrate.

Section 1 – Establishment Information

Enter information for the business seeking to be licensed, as identified on the license application.

Licensee:	Petrichor LLC	MJ License #:	18493		
License Type:	Marijuana Product Manufacturing Facility				
Doing Business As:	Petrichor LLC				
Premises Address:	3780 Leasure St , Unit A				
City:	Fairbanks	State:	Alaska	ZIP:	99701

Section 2 – Proposed Marijuana Concentrate or Marijuana Product

Enter information for the marijuana concentrate or the marijuana product for which you are seeking MCB approval.

Product Name:	Cannabis Oil		
Product Type: Choose one.	Marijuana Concentrate		
Perishable: Yes/No	No	Shelf Life: If perishable.	
Intended Use: Smokable/ edible/topical/wholesale/etc.	Ingredient/Edible/Wholesale		

AMCO

Form MJ-16: Proposed New Marijuana Product

Section 3 – Proposed Product Details

Enter information for the marijuana product for which you are seeking MCB approval.

Product Description:

Details must include the color, shape, and texture.

A dark gold oil with a green tint and a smooth oily texture that conforms to the bottle it is in.

Ingredients:

Olive Oil, Cannabis(Trim ,Flower, stem, etc)

Standard Production Procedure and Detailed Manufacturing Process:

Olive oil and Cannabis are mixed together and placed over low heat for about 6-10 hours. Product is then filtered to remove the raw plant material from the now infused olive oil (cannabis oil). Product is tested commercially and bottled for storage and eventual use in other products as an ingredient. Raw plant material is sent through a secondary straining process in which high levels of pressure are used to create a separate batch of oil with higher chlorophyll and secondary cannabinoid concentration before being destroyed via board approved processes.

Depiction:

Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.

**Form MJ-16: Proposed New Marijuana Product****Section 4 – Proposed Product Packaging and Sample Label**

Enter information for the packaging and labeling of the marijuana product for which you are seeking MCB approval.

Packaging Description:

Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.

Cannabis Oil will be used as an internal ingredient and if appropriate sold via wholesale to other product manufacturers. Product will be stored in glass jars in net quantities not to exceed one pound.

**Sample Labels:**

Provide sample labels showing how the labeling requirements set forth in 3 AAC 306.570 will be met.

Section 3 – Proposed Product Details

Enter information for the marijuana product for which you are seeking MCB approval.

Product Description: Details must include the color, shape, and texture.	A flavored, naturally tinted brown, yellow, or red, liquid product with a watery texture.
Ingredients:	Water, erythritol, Stevia, natural and artificial flavoring in a variety of flavors like lemon, orange, black cherry, etc, as well as a unflavored option. citric acid, raw tea leaves, Canna Concentrate or A (Cannabis Oil, polysorbate 80, MCT oil, and lecithin) mixture. sodium benzote, potassium sorbate, Caffeine. <i>MCT = medium chain triglyceride.</i> <i>Flavors, Peach, Lemon, Mint, Raspberry, Sweet (plain) Peppermint, Mint, Orange, Mango, Cherry, Blackberry,</i> 
Standard Production Procedure and Detailed Manufacturing Process:	Water sodium benzote, potassium sorbate and tea leaves are mixed in a sanitary holding vessel for 8-48 hours at prescribed temperature (35-75f) with periodic agitation. concurrently, Water and erythritol and Stevia mixture is combined over low heat until dissolved to make a simple syrup. Flavoring concentrates, and canna concentrate or premixed Cannabis Oil, polysorbate 80, MCT oil, and lecithin are added to the simple syrup to make an infused simple syrup. The Tea mixture is transfered to another sanitary vessel with the tea leaves being filtered out in the process. Infused simple syrup mixture is then added. The total mixture is tested for potency and bottled at prescribed portioning.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.	

Form MJ-16: Proposed New Marijuana Product

Section 4 – Proposed Product Packaging and Sample Label

Enter information for the packaging and labeling of the marijuana product for which you are seeking MCB approval.

Packaging Description:

Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.

A clear-12oz PET plastic bottle with child resistant cap. Logos, warning verbiage, product information, serving delineations, and batch information will be displayed on labels in rendered matte colors. Additional warning verbiage will state "Warning, Contains Marijuana, Keep out of the reach of children" in bold letters. Product Name:	Yeti Infused Ice Pop				
Product Type: Choose one.	Other Marijuana Product				
Perishable: Yes/No	Yes	Shelf Life: If perishable.	12 months		
Intended Use: Smokable/ edible/topical/wholesale/etc.	Edible				

Form MJ-16: Proposed New Marijuana Product

Section 3 – Proposed Product Details

Enter information for the marijuana product for which you are seeking MCB approval.

Product Description: Details must include the color, shape, and texture.	A flavored, colored, liquid product contained in small, clear bags that can be frozen into ice by either the consumer or the retail store before consumption or consumed as liquid.
Ingredients:	Water, erythritol, Stevia, natural and artificial flavoring in a variety of flavors like Margaretta, cola, etc, artificial coloring, citric acid, Canna Concentrate or (Cannabis Oil, polysorbate 80, LCT MCT oil, and lecithin) sodium benzote, corn starch, Artificial Colors, MCT = Medium Chain Triglyceride Flavors include: Pineapple, Grapefruit, orange, Lemonade, Lemon Lime, Cherry Strawberry, Mango, Blueberry, Mango, Green Apple, Raspberry, Cola, Blackberry
Standard Production Procedure and Detailed Manufacturing Process:	Water and erythritol and Stevia and corn starch are mixed over low heat until dissolved to make a simple syrup. Canna concentrate or premixed Cannabis Oil, polysorbate 80, MCT oil, and lecithin is added with sodium benzote. Infused simple syrup is divided into 5 equal portions and different flavoring extracts are added to each portion. Concentrated syrups are added to more water and coloring (based on flavor) and thoroughly mixed before being tested as a batch and packaged at prescribed portioning.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.
