Alaska Cannabis Received a Notice Of Violation concerning odor from our Facility at 1807 West 47th Avenue. We became aware of the odor during Harvest on the 13th of November when our neighbor called and informed us. We had already purchased new Carbon to replace our old carbon on the 29th of October (see attached invoice). This shipment was delivered to Carlile on October 30th and was scheduled to arrive a few days later but ended up in Dutch Harbor instead of Anchorage due to some clerical error on Carlile's end. The shipment is being rerouted to Anchorage and should arrive in the next few days. This will alleviate our odor issues as soon as it arrives and gets installed.

Alaska Cannabis Exchange received a NOV dated January 24th, however it was delivered via email on February 7th nearly 2 weeks after the original NOV date. This is concerning to us as it would be nice to know immediately so that we can track the problem to its source for future understanding of what was happening the day the odor was detected. We are assuming that we were in the middle of our pre-harvest defoliation when this odor occurred.

All of our exhaust Carbon filters were replaced in December and have a 6 month life expectancy of which will not need replacing until mid May 2019. We do routine perimeter checks prior to entering the facility and have not detected any odor since the replacement of our Carbon Filters. We also believe there is a black market grow in the surrounding neighborhood that may be contributing to this odor. State Law allows for individuals to grow up to 6 plants per adult and not every odor may be attributed to Alaska Cannabis Exchanges Facility.

We understand it is our responsibility to contain the odor within our facility and will work diligently to make sure the odor does not penetrate the surrounding areas.

Sincerely
Aaron Ralph

This is a notice to you as licensee that an alleged violation has occurred. If the Marijuana Control Board decides to act against your license, under the provisions of AS 44.62.330 - AS 44.62.630 (Administrative Procedures Act) you will receive an Accusation and Notice of your right to an Administrative Hearing.

Note: This is not an accusation or a criminal complaint.

On 6/4/19 an anonymous odor complaint was received for Alaska Cannabis Exchange. Investigator Bankowski and I both smelled a strong odor of marijuana from the eastern side the building at the intersection of 47th and Harding Drive. I knocked on the door to speak to someone inside to see if their filtrations systems were operating and I spoke to Terri Penn. Inside the main door there was a very strong odor of marijuana and it does not have any filtration. Inside the main building also smelled strongly because of a harvest. Terri stated all the filtration system was working properly and they would change the filters.

This is in violation of:

3 AAC 306.430. Restricted access area

(c) A marijuana cultivation facility shall ensure that any marijuana at the marijuana cultivation facility

(2) does not emit an odor that is detectable by the public from outside the cultivation facility except as specifically allowed by a local government approval.

3 AAC 306.805 provides that upon receipt of a Notice of Violation, a licensee may request to appear before the board and be heard regarding the Notice of Violation. The request must be made within ten days after receipt of the Notice. A licensee may respond, either orally or in writing, to the Notice. 3 AAC 306.810(3)(A)(B)(C) failed, within a reasonable time after receiving a notice of violation from the director, to correct any defect that is the subject of the notice of violation of AS 17.38 or this chapter, a condition or restriction imposed by the board or other applicable law.

Response to Notice Of Violation Case # AM190906

Alaska Cannabis Exchange received an NOV for Odor on 6/4/2019.
Alaska Cannabis Exchange was in the middle of a harvest at the time which does increase the smell within our facility exponentially. We remedied this by Changing out the Carbon in all of our filters. We switched to a Coconut Base Carbon earlier this year and are still learning the Carbons lifespan to successfully remove the smell of marijuana from escaping to the outside.
