On 7/19/18 a routine inspection was conducted at Calm N Collective. One employee on site did not have his handler card and had to go home to get it. There were also some dependencies found between what plants were currently in the facility versus what plants were in Metrc. Plants with tag numbers 3825, 3833, and 3839 were in Metrc but the corresponding plants were not in the facility.

These are in violation of:

RE: Notice of Violation License #10799

To whom it may concern:

This letter is in response to the Notice of Violation received via email on June 3, 2019, for License #10799 Calm N Collective, LLC DBA Calm N Collective.

It was never the intention of Calm N Collective to violate AS 17.38.010(b)(2), 3 AAC 306.480 and 3 AAC 306.810. The Notice of Violation was issued three days after Ron paid the \$14.00 outstanding amount. Ron also paid all current taxes on June 4th to ensure that he was 100% up to date.

Again, it was never the intent of Calm N Collective to violate any statutes or regulations, there was a minor miscalculation of the interest due.

Calm N Collective will ensure that this violation does not reoccur by updating their accounting procedures and diligently pay all further taxes on time, if not in advance.

Please feel free to contact me if you have any questions or concerns regarding this response. Thank you.

Sincerely,

Jana Weltzin

Re: NOV Case No: AB18001187 – Calm N Collective License No: 10799

Dear AMCO and Enforcement Team:

On September 25, 2018, my client Ron Bass, designated licensee for Calm N Collective, received the NOV number referenced above. The NOV states one main concern:

This is a violation of 3 AAC 306.440 Health and Safety Requirements and 3 AAC 306.735 Health and Safety Standards.

3 AAC 306.440 provides that, (b) A marijuana cultivation facility shall ensure that any licensee, employee, or agent who is present at the marijuana cultivation facility and in contact with any marijuana (1) wears clean clothing appropriate for the duties that person performs; (2) wears protective apparel, such as head, face, hand, and arm coverings, as necessary to protect marijuana from contamination; and (3) practices good sanitation and health habits.

The individual in the post was not performing any duties (pertaining to regulations) at Calm N Collective, it was merely an artistic/joking moment in the facility, that occurred because there was a pile of marijuana fan leaves that were to be rendered unusable (after waiting the three-day notice period), that were going to be mixed with food waste. There was no useable/sellable marijuana on the naked gentleman, strictly marijuana waste that was to be mixed and grinded with other garbage to render it unusable. Therefore, the naked fellow came in contact with marijuana waste only, he was not in contact with marijuana that would be sold to the public.

3 AAC 306.735 speaks to marijuana establishments obligation to maintain an environment where health concerns are not present and ensures that reasonable precautions are taken that ensure that “any person who has an illness, an open sore or infected wound, or other potential source of infection does not come in contact with marijuana or a marijuana product while the illness or source of infection persists.” As you can see in this picture, the gentleman in question looks clean,

does not have open sores, and does not at all look ill. Again, I do want to stress that the naked man did not touch any usable marijuana while naked, nor did he care for the plants or touch the plants (other than the clippings from plants as shown) while in the CnC garden.

This was merely an artistic expression, however, given Enforcement's concerns, Ron and his team will confer with Enforcement when they feel the urge to engage in any further au naturel expressions in the garden.

Thank you for your consideration,

A handwritten signature in blue ink, appearing to read 'Jana D. Weltzin', with a large, stylized flourish extending to the right.

Re: NOV Case No: AB18-864 – Calm N Collective License No: 10799

Dear AMCO and Enforcement Team:

On July 25, 2018, my client Ron Bass, designated licensee for Calm N Collective, received the NOV number referenced above. The NOV states two main concerns:

- (1) Location of handler permit for one employee; and
- (2) Discrepancy in the marijuana inventory tracking system vs. actual number of plants/clones in facility. Plants with tag numbers 3825, 3833 and 3839 were in Metrc but the corresponding plants were not in the facility.

With respect to concern number one, location of handler permit for one employee, there was a copy of the employee handler card onsite in the office filing cabinet - as allowed for in 3AAC306.320, but at the time, this copy was not presented to Enforcement, and therefore to address further issues like this, it is now company policy to post near the entrance of the facility copies of all current employee's current handler permits. This step should ensure that all marijuana handler permits are easily displayed and updated to keep current copies posted at all times.

The second concern, discrepancy in Metrc vs the facility inventory, Enforcement noted issues with the reconciliation of the facility and Metrc. Calm N Collective had been experiencing employee turnover at the time of these occurrences, one being an employee whose main job task was to keep up with Metrc, and when she left, other employees had to then learn the system. Three plant tags in Metrc were not found at the facility; we believe these plants were clones and were destroyed (as not all clones survived) and those were then not "destroyed" in Metrc.

To address the discrepancy issues, the company is working on creating a double inventory cross

check with Metrc and will provide employees with more Metrc training as it becomes available. Calm N Collective appreciated the Enforcement team's time and willingness to provide constructive criticism to the Calm N Collective team, which the team is now working into their policies and procedures.

Thank you for your consideration,

Jana D. Weltzin, Esq.
