Alaska Marijuana Control Board

Form MJ-16: Proposed New Marijuana Product

What is this form?

This proposed new marijuana product form is required for a marijuana product manufacturing facility licensee who is seeking Marijuana Control Board (MCB) approval of a new marijuana product or marijuana concentrate for production at its licensed premises, as required under 3 AAC 306.100 and 3 AAC 306.525. **The required $250 proposed new marijuana product fee may be made by check, cashier's check, or money order.**

This form must be completed and submitted to AMCO's main office prior to production of any new marijuana product or marijuana concentrate. **The proposed new marijuana product may not be produced unless and until the MCB has approved of the product.**

Please note that licensees seeking approval of more than one proposed new marijuana product or marijuana concentrate must submit a separate completed copy of this form and pay a separate fee for each proposed new marijuana product or marijuana concentrate.

Form MJ-16: Proposed New Marijuana Product

Section 3 – Proposed Product Details

Enter information for the marijuana product for which you are seeking MCB approval.

Product Description: Details must include the color, shape, and texture.	Galaxy Cake Pops will be round shaped; brown, white or multi colored. Approximately 2" in diameter with an smooth outer texture. The spheres will have a moist cake inner texture and will be dipped in a fudge or chocolate coating and optional decorative sprinkles dependent on flavor. Each sphere will consist of up to 5mg of THC making a single serving. Flavors include chocolate, strawberry shortcake, lemon blueberry, lemon poppy, yellow cake, red velvet, espresso, hazelnut, and pumpkin apple spice.
Ingredients:	Flour (bleached wheat flour, malted barley flour, niacin, iron, thiamine, mono-nitrate, riboflavin, folic acid), Granulated Sugar (sugar), Hershey Cocoa (cocoa), Baking Soda (sodium bicarbonate), Baking Powder (calcium acid, pyrophosphate, corn starch, sodium bicarbonate, potassium bicarbonate, mono calcium, phosphate), Kosher Salt (salt), Eggs, Butter Milk (cultured pasteurized grade a lowfat milk & fat free milk, salt, sodium citrate, vitamin a palmitate, vitamin d3), Coffee (ground coffee, donut flavor), Vegetable Oil (soybean oil), Pure Vanilla Extract (organic vanilla bean, extractive in water, organic alcohol), Powder Sugar (cane sugar), Butter, Cannabis distillate oil.
Standard Production Procedure and Detailed Manufacturing Process:	Ingredients will be mixed until fully combined using a proprietary process then product will be baked, cooled and formed. Pops will be individually dosed to maintain an accurate 5mg per pop THC dose. Lollipop sticks will be added to each pop. The outer hard chocolate "icing" coating will be applied by dipping and any final decoration such as sprinkles will be added. Galaxy Pops will be packaged according to approved packaging.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.

Section 4 – Proposed Product Packaging and Sample Label

Enter information for the packaging and labeling of the marijuana product for which you are seeking MCB approval.

Packaging Description:
Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.

Packaging will consist of one (1)to ten (10), single serving spheres with up to 5mg total THC per sphere and no more than 50mg's of THC per package. Packaging will be food grade and include the following options: non-toxic, opaque, black or white mylar with an optional clear back to show product (Approx. 4x6"), child resistant, clear or colored, plastic tube (approximately 2x7), and clear food grade treat bags with twist tie closures. Labels will be affixed to the front and back of each bag in compliance with 3 AAC 306.570. See attachment for additional packaging photos.

Sample Labels:
Provide sample labels showing how the labeling requirements set forth in 3 AAC 306.570 will be met.
