I've already submitted the notice of violation given to Greendreams Cultivation, #10308 for 11/25/2022 to the MCB board for the meeting on December. If you can provide me an updated screenshot for the month of December, I can add it to your latest notice of violation given to you on 12/22/2022.

Good morning,

We are following up on our payment plan request for [REDACTED], we are not trying to come across as anything but eager to get a resolution in place. If there is anything we can do or any additional information needed please let us know. We made a huge mistake with this sale, but it's our responsibility. If we needed to do a 6-month plan, we can do that as well. Our concern is getting compliant as soon as possible.

Thank for your time,

Good afternoon, just following up on payment plan request, please let us know as soon as we are new to all this and want to comply with amco, the tax we owe for was sold to an extract company for 17,500 which 12,500 is tax obligated, when we made the sale we were new and didn't realize what a poor agreement we had made. It was based on a ratio that ended up being horrible for us. Thank you for your time .

Jason,

I just received word from Karmen Bowman at the Department of Revenue approving my request for a back-tax payment plan for these delinquent November excise taxes. Since I had already paid off one of the two months of back taxes, they just went ahead and added the June and November back-taxes together and are starting me on a new payment plan for that combined balance. I have not yet missed payment for my back taxes. I can send you a copy of the payment plan document once they send it to me if that suffices for you. My grow is backing way away from running at full bore any more selling as much flower as possible despite the high tax burden it results in. Instead focussing on keeping monthly operating costs down, by using way less HID lighting costs, more LED's and far less labor and cultivation costs. As well as getting our bills paid up and focussing on making value added prerolls which helps our bottom line. This seems to be working well to control our costs and not constantly be suffering from the high burden of selling just trimmed flower as a small cultivation's only revenue stream..

Best Regards,

Robert Gustafson
