Summary of Incident -

Express Quantity in Count, or Grams

The incident involved two individuals, Gerald Albert and Marshal Isaac, who gained entry by breaking the front door deadbolt. The breach was discovered at 10:00 AM that morning, at which point I instructed the store manager, Levi Coman, to review the footage and conduct an inventory audit.

Before a formal report was filed, Mr. Albert contacted me to express remorse, citing alcohol impairment as the cause for his actions. By 3:00 PM that afternoon, he had returned all taken inventory and subsequently replaced the damaged deadbolt. Based on the full recovery of the product and the individual's cooperation, I made the decision not to press charges.

I certify that the foregoing information is correct to the best of my knowledge and belief.

RE: Response to Notice of Violation

To Whom It May Concern,

I am writing in response to the Notice of Violation regarding the burglary incident that occurred at our Northway facility on or about March 22, 2026, and the subsequent sales transaction involving employee Levi Coman.

First, I would like to acknowledge that after reviewing 3 AAC 306.715(e), I understand that the burglary should have been reported to AMCO within the required timeframe regardless of the fact that the product was voluntarily returned shortly after the incident. My decision at the time was based on my understanding that because all products had been returned before the 24-hour reporting window elapsed, and because the situation appeared resolved without loss or diversion, reporting was not required. I now recognize that interpretation was incorrect.

Over the course of approximately eight years operating multiple licensed marijuana establishments in Alaska, we have experienced several prior break-ins and have consistently reported those incidents appropriately. This is the only occasion in which we failed to do so. The circumstances surrounding this incident were unique due to the fact that the individual involved returned the product voluntarily the following morning and admitted responsibility.

Northway is a small rural community, and my decision was influenced by an attempt to handle the matter locally after the individual involved acknowledged his actions, returned the property, and appeared remorseful. At no point was there any intent to conceal diversion, avoid regulatory oversight, or disregard compliance obligations. In hindsight, I understand that the regulations required reporting regardless of the recovery of the product or the surrounding circumstances.

Regarding the alleged sales limit violation, our staff are trained and regularly reminded regarding Alaska's retail marijuana sales limits and compliance requirements. We take those limits seriously. After internal review of the transaction involving Levi Coman, he is being relieved of his position with the store. We are also conducting additional internal compliance reviews and retraining procedures to ensure future adherence to all sales limitations and reporting requirements.

We remain committed to operating in compliance with Alaska regulations and maintaining cooperative communication with AMCO. We respectfully ask that AMCO consider our longstanding compliance history, the voluntary recovery of the products, the absence of ongoing loss or diversion, and our corrective actions in evaluating this matter.

Sincerely,

Kerby Coman

BURGLARY
CASE 26-0450
TI'oh Suu by Green Degree, License 25902
Licensee Kerby Coman

INFORMATION:

On 4-8-26, AMCO received information from the Alaska State Troopers that TI'oh Suu by Green Degree had been burglarized sometime on or about 3-24-26, but they, Troopers, did not receive any notification and wanted to know if we had been notified. After reviewing AMCO burglary reports, no report had been submitted by TI'oh Su.

OFFICER ACTIONS:

Inv. Hamilton contacted Licensee Kerby Coman who acknowledged that his facility had been broken into. Mr. Coman stated that since the product had been returned to him, and he wasn't going to press charges on the suspect, he didn't believe it had to be reported to AMCO. When asked what he did with the product, he replied that he had sold it to one of his employees, Levi Coman, his brother. K. Coman was asked to provide video of the incident, a burglary report listing the items stolen and a list of items sold to L. Coman. All items requested were provided.

Levi Coman purchased all the products on 3-26-26 in 33 separate transactions, totaling 721 grams of marijuana flower and 9 grams of marijuana concentrate. K. Coman provided point of sale system data which was cross-referenced with Metrc data. It is a violation of 3AAC 306.355 for a marijuana retail store to sell more than one ounce (~28 grams) of usable marijuana to anyone person per day.

K. Coman stated in the burglary report the incident had been discovered at 1000 hours. He instructed the store manager, L. Coman, to conduct an audit of the store and prepare a list of stolen items. The burglary report indicates that Gerald Albert contacted K. Coman and expressed remorse over the burglary and cited alcohol impairment as the cause of his actions. By 1500 hours that day, all products had been recovered, and the broken deadbolt had been replaced. According to the report, K. Coman decided not to pursue charges.

On 5-20-26, a Notice of Violation was issued to TI' Oh Suu by Green Degree for violations of 3 AAC 306.715: Security alarm systems and lock standards and 3 AAC 306.355: Limit on quantity sold

On 6-25-26, the Marijuana Control Board reviewed the Notice of Violation and requested the license be placed on administrative hold pending additional investigation.

OFFICER ACTIONS:

On 6-29-26, Inv. Hamilton reviewed the video. Two people are observed approaching the front door to the store. They both wear dark clothing and both have hoods covering their head and face. One of the suspects is wearing "Bunny Boots", the other dark colored shoes, unknown type. The person wearing Bunny Boots has white lettering on one of the arm sleeves of the over garment. The other appears to have white letting near the pocket of his over garment. Neither is legible. Using a crowbar, they managed to open the door and gain access. Damage was done to the door but that damage has been repaired. Both suspects are seen inside the store grabbing items. Within about two minutes, both departed the store with product.

On July 1, 2026, Inv. Hamilton went to Tl'oh Suu by Green Degree in Northway and contacted K. Coman. Inv. Hamilton asked K. Coman how he knew who the suspect was in the burglary. He told Inv. Hamilton he recognized one of the individuals in the video, Gerald Albert, by the way he walked. K. Coman had grown up in the Northway community and recalls G. Albert when he was a young person. K. Coman contacted G. Albert and told him if he returned all the products, he would not pursue charges. The other person was Marshal Isaac. Coman stated he was in the process of preparing the burglary report when all the times were returned. He told G. Albert he was not going to press charges and did not file the report. His was going to have the items destroyed but his brother, manager L. Coman, talked him into selling the items to him at a discount.

A list of active items was printed from METRC. Of the 125 items printed, 44 were checked. Six of those items have discrepancies beyond moisture loss norms or physical counts that need to be explained. Three of the items with discrepancies were items that have been placed on administrative hold for some time. One of the eight items was an older product that they don't sell anymore but METRC indicated they had a small amount of bud.

Additional investigation into the noted inventory discrepancies is ongoing and may result in separate enforcement action if necessary.

Video surveillance records of L. Coman purchasing the marijuana were no longer available due to the amount of time that elapsed since the date of purchase.

At the conclusion of the inspection, it was recommended that the license be removed from administrative hold.

A list of past sales from the store indicated several single purchases of an ounce are purchased, but no notable patterns of sequential transactions that may imply over an ounce was sold to one individual. K. Coman responded that was because of where they lived. It was interpreted to mean they are the only store for a great distance and people buy in quantity to avoid many trips.

CASE STATUS:

Closed and referred to the Director for disposition. Tok Alaska State Troopers are referring charges to the DAO on the two suspects identified in the video.
