Alaska Marijuana Control Board

Form MJ-01: Marijuana Establishment Operating Plan**Why is this form needed?**

An operating plan is required for all marijuana establishment license applications. Applicants should review **Title 17.38** of **Alaska Statutes** and **Chapter 306** of the **Alaska Administrative Code**. This form will be used to document how an applicant intends to meet the requirements of those statutes and regulations. If your business has a formal operating plan, you may include a copy of that operating plan with your application, but all fields of this form must still be completed per 3 AAC 306.020(c).

What must be covered in an operating plan?

Applicants must identify how the proposed premises will comply with applicable statutes and regulations regarding the following:

- Control plan for persons under the age of 21
- Security
- Business records
- Inventory tracking of all marijuana and marijuana product on the premises
- Employee qualification and training
- Health and safety standards
- Transportation and delivery of marijuana and marijuana products
- Signage and advertising

Applicants must also complete the corresponding operating plan supplemental forms (**Form MJ-03**, **Form MJ-04**, **Form MJ-05**, or **Form MJ-06**) to meet the additional operating plan requirements for each license type.

Section 1 – Establishment & Contact Information

Form MJ-01: Marijuana Establishment Operating Plan

Section 2 – Control Plan for Persons Under the Age of 21

2.1. Describe how the marijuana establishment will prevent persons under the age of 21 from gaining access to any portion of the licensed premises and marijuana items:

The concentration facility is restricted to authorized individuals age 21+ under 3 AAC 306.

The facility is not open to the general public.

Entrances are secured, monitored, and access-controlled.

All licensed areas are designated as restricted access areas.

Visitors require valid ID, authorization, and continuous escort.

No unsupervised access to marijuana, marijuana items, or restricted areas. The marijuana concentration facility is not open to the general public. Access to the licensed premises is limited exclusively to the licensee, authorized employees, and authorized agents who possess valid marijuana handler permits or are otherwise permitted by law.

Section 3 – Security

Restricted Access Areas (3 AAC 306.710):

3.1. Describe how you will prevent unescorted members of the public from entering restricted access areas:

The entire concentrate facility is restricted and controlled under 3 AAC 306.710.

The premises is not open to the public.

Walls, locked doors, and secured entry points prevent unauthorized access.

Access is limited to authorized, legally permitted personnel.

Visitors require authorization and continuous employee escort.

No unescorted access to restricted areas, marijuana, or marijuana plants.

3.2. Describe your recordkeeping and processes for admitting visitors into and escorting them through restricted access areas:

Visitor access is authorized, documented, and supervised under 3 AAC 306.710.

Visitors must be 21+ with valid government-issued photo ID.

Entry requires prior authorization for legitimate purposes.

Visitor logs record identity, times, purpose, and escort information.

Visitors must wear badges and remain continuously escorted.

No unescorted access or handling of marijuana, plants, or marijuana items.

Form MJ-01: Marijuana Establishment Operating Plan

3.3. Provide samples of licensee-produced identification badges that will be displayed by each licensee, employee, or agent while on the premises, and of visitor identification badges that will be worn by all visitors while in restricted access areas:

WOLF PUP EMPLOYEE NAME Hire Date: _____ Handler License #: _____ License #42249	PHOTO
---	--

WOLF PUP Concentrate Facility VISITOR License #42249	1
---	----------

Security Alarm Systems and Lock Standards (3 AAC 306.715):

3.4. Exterior lighting is required to facilitate surveillance. Describe how the exterior lighting will meet this requirement:

Exterior lighting supports clear surveillance and security under 3 AAC 306.715.

Entrances, exits, and building perimeters are illuminated.
Lighting minimizes glare, shadows, and camera blind spots.
Fixtures provide visibility during nighttime and low-light conditions.
Lighting helps identify individuals approaching, entering, or leaving.
Systems are regularly inspected and maintained for continued operation.

Form MJ-01: Marijuana Establishment Operating Plan

3.5. An alarm system is required for all license types that must be activated on all exterior doors and windows when the licensed premises is closed for business. Describe the security alarm system for the proposed premises, explain how it will meet all regulatory requirements, and outline your policies and procedures regarding the actions to be taken by a licensee, employee, or agent when the alarm system alerts of an unauthorized breach:

The concentrate facility uses a monitored alarm system under 3 AAC 306.715.

All exterior doors and windows are alarmed when the facility is closed.
Alarm controls are limited to the licensee and authorized employees.
The system is routinely inspected, maintained, and serviced as needed.
Security alerts require prompt response and possible law-enforcement contact.
Breaches, malfunctions, and corrective actions are documented; backup security is used if needed.

3.6. Describe your policies and procedures for preventing diversion of marijuana or marijuana product, including by employees:

The concentrate facility prevents diversion through security, tracking, training, and oversight.

Access is limited to authorized employees with valid handler permits.
Locks, surveillance, alarms, and secured storage prevent unauthorized access.
Raw material, in-process material, concentrates, and waste are tracked in the state system.
Employees are trained and may not remove marijuana without authorization.
Management investigates discrepancies, theft, loss, or suspected diversion.

3.7. Describe your policies and procedures for preventing loitering:

Loitering is prohibited and the concentrate facility remains restricted to authorized individuals.

Only authorized personnel may be on-site for legitimate purposes.
Exterior lighting and surveillance monitor unauthorized activity.
Unauthorized individuals are directed to leave immediately.
Employees must report suspicious or unauthorized activity to management.
Law enforcement is contacted when necessary to maintain security.

You must be able to certify the statement below. Read the following and then sign your initials in the box to the right:

Initials

3.8. I certify that if any additional security devices are used, such as a motion detector, pressure switch, and duress, panic, or hold-up alarm, to enhance security of the licensed premises, I will have written policies and procedures describing their use.

Form MJ-01: Marijuana Establishment Operating Plan

Video Surveillance (3 AAC 306.720):

You must be able to certify each statement below. Read the following and then sign your initials in the corresponding box: Initials

3.9. The video surveillance and camera recording system for the licensed premises covers each restricted access area, and both the interior and exterior of each entrance to the facility. KG

3.10. Each video surveillance recording: is preserved for a minimum of 40 days, in a format that can be easily accessed for viewing (consistent with the Alcohol & Marijuana Control Office’s approved format list); clearly and accurately displays the time and date; and is archived in a format that does not permit alteration of the recorded image. KG

3.11. The surveillance room or area is clearly defined on the Form MJ-02: Premises Diagram that is submitted with this application. KG

3.12. Surveillance recording equipment and video surveillance records are housed in a designated, locked, and secure area or in a lock box, cabinet, closet or other secure area where access is limited to the licensee(s), an authorized employee, and law enforcement personnel (including an agent of the Marijuana Control Board). KG

3.13. Describe how the video cameras will be placed to produce a clear view adequate to identify any individual inside the licensed premises, or within 20 feet of each entrance to the licensed premises:

Video surveillance provides clear coverage of required areas within the concentrate facility.

Cameras clearly identify individuals and monitor facility activity.

Coverage includes restricted areas, entrances, exits, and marijuana handling areas.

Exterior surveillance extends 20 feet from each entrance.

Lighting prevents shadows, glare, and blind spots.

Color recordings provide sufficient resolution for security and regulatory review.

3.14. Describe the locked and secure area where video surveillance recording equipment and original copies of surveillance records will be housed and stored, and how you will ensure the area is accessible only to authorized personnel, law enforcement, or an agent of the Marijuana Control Board. If you will be using an offsite monitoring service and offsite storage of video surveillance records, your response must include how the offsite facility will meet these security requirements:

Surveillance equipment and records are securely stored and access-controlled.

Equipment and original records are kept in a locked, designated area.

Access is limited to the licensee and authorized security employees.

Controls prevent tampering, alteration, removal, or unauthorized access.

Digital surveillance records are retained for at least 40 days.

Records remain available to law enforcement and AMCO upon request.

Form MJ-01: Marijuana Establishment Operating Plan

Section 4 – Business Records

Review the requirements under 3 AAC 306.755. All licensed marijuana establishments must maintain, in a format that is readily understood by a reasonably prudent business person, certain business records.

4.1. I certify that the following business records will be maintained and kept on the licensed premises:

Initials

- a. all books and records necessary to fully account for each business transaction conducted under my license for the current year and three preceding calendar years (*records for the last six months must be maintained on the licensed premises; older records may be archived on or off-premises*);
- b. a current employee list setting out the full name and marijuana handler permit number of each licensee, employee, and agent who works at the marijuana establishment;
- c. the business contact information for vendors that maintain video surveillance systems and security alarm systems for the licensed premises;
- d. records related to advertising and marketing;
- e. a current diagram of the licensed premises, including each restricted access area;
- f. a log recording the name, and date and time of entry of each visitor permitted into a restricted access area;
- g. all records normally retained for tax purposes;
- h. accurate and comprehensive inventory tracking records that account for all marijuana inventory activity from seed or immature plant stage until the retail marijuana or retail marijuana product is sold to a consumer, to another marijuana establishment, or destroyed;
- i. transportation records for marijuana and marijuana product, as required by 3 AAC 306.750(f); and
- j. registration and inspection reports of scales registered under the Weights and Measures Act, as required by 3 AAC 306.745.

KG

KG

KG

KG

KG

KG

KG

KG

KG

KG

4.2. A marijuana establishment is required to exercise due diligence in preserving and maintaining all required records. Describe how you will prevent records and data, including electronically maintained records, from being lost or destroyed:

Business records are securely maintained and preserved under 3 AAC 306.755.

Records are protected from loss, destruction, damage, or unauthorized alteration.

Physical records are stored securely with limited authorized access.

Electronic records use access controls and routine backups.

The most recent six months of required records remain available on-site.

Older records are securely archived and accessible to AMCO or law enforcement.

Form MJ-01: Marijuana Establishment Operating Plan

Section 5 – Inventory Tracking of All Marijuana and Marijuana Product

Review the requirements under 3 AAC 306.730. All licensed marijuana establishments must use a marijuana inventory tracking system capable of sharing information with Metrc to ensure all marijuana cultivated and sold in the state, and each marijuana product processed and sold in the state, is identified and tracked from the time the marijuana is propagated from seed or cutting, through transfer to another licensed marijuana establishment, or use in manufacturing a marijuana product, to a completed sale of marijuana or marijuana product, or disposal of the harvest batch of marijuana or production lot of marijuana product.

You must be able to certify each statement below. Read the following and then sign your initials in the corresponding box: Initials

5.1. My marijuana establishment will be using Metrc, and if any other tracking software is used, it will be capable of sharing information with Metrc.

KG

5.2. All marijuana delivered to a marijuana establishment will be weighed on a scale registered in compliance with 3 AAC 306.745.

KG

5.3. My marijuana establishment will use registered scales in compliance with AS 45.75.080 (Weights and Measures Act), as required by 3 AAC 306.745.

KG

Section 6 – Employee Qualification and Training

Review the requirements under 3 AAC 306.700. All licensees, and every employee or agent of the marijuana establishment who sells, cultivates, manufactures, tests, or transports marijuana or a marijuana product, or who checks the identification of a consumer or visitor, must obtain a marijuana handler permit from the board before being licensed or beginning employment at a marijuana establishment.

You must be able to certify each statement below. Read the following and then sign your initials in the corresponding box: Initials

6.1. All licensees, and each employee or agent of the marijuana establishment who sells, cultivates, manufactures, tests, or transports marijuana or marijuana product, or who checks the identification of a consumer or visitor, shall obtain a marijuana handler permit from the board before being licensed or beginning employment at the marijuana establishment.

KG

6.2. Each licensee, employee, or agent who is required to have a marijuana handler permit shall keep that person's marijuana handler permit card in that person's immediate possession (or a valid copy on file on the licensed premises) when on the licensed premises.

KG

6.3. Each licensee, employee, or agent who is required to have a marijuana handler permit shall ensure that that person's marijuana handler permit card is valid and has not expired.

KG

6.4. Describe any in-house training that will be provided to employees and agents (apart from a marijuana handler course):

Employees receive documented in-house training to maintain compliant concentrate operations.

Training begins at hire and continues as operations or regulations change.

Security, access, diversion prevention, and tracking follow 3 AAC 306.710– 306.730.

Employees are trained on inventory control, records, and required data entry.

Health and safety training covers sanitation, equipment use, and contamination prevention.

Training completion is documented under 3 AAC 306.755.

Form MJ-01: Marijuana Establishment Operating Plan

Section 7 – Health and Safety Standards

Review the requirements under 3 AAC 306.735.

You must be able to certify each statement below. Read the following and then sign your initials in the corresponding box: Initials

7.1. I understand that a marijuana establishment is subject to inspection by the local fire department, building inspector, or code enforcement officer to confirm that health or safety concerns are not present.

KG

7.2. I have policies regarding health and safety standards (including: ensuring a person with an illness or infection does not come into contact with marijuana or marijuana product; good hygienic practices; cleaning and maintenance of equipment and the premises; pest deterrence; chemical storage; sanitation principles; and proper handling of marijuana and marijuana product) and will take all reasonable measures and precautions to ensure that they are met or exceeded.

KG

7.3. I have policies to ensure that any marijuana or marijuana product that has been stored beyond its usable life, or was stored improperly, is not salvaged and returned to the marketplace.

KG

7.4. I have policies to ensure that in the event information about the age or storage conditions of marijuana or marijuana product is unreliable, the marijuana or marijuana product will be handled in accordance with 3 AAC 306.735(d).

KG

Answer “Yes” or “No” to each of the following questions:

Yes No

7.5. Adequate and readily accessible toilet facilities that are maintained and in good repair and sanitary condition are clearly indicated on my Form MJ-02: Premises Diagram.

7.6. Convenient handwashing facilities with running water at a suitable temperature are clearly indicated on my Form MJ-02: Premises Diagram.

7.7. If you answered “No” to either 7.5 or 7.6 above, describe how toilet and/or handwashing facilities are made accessible, as required by 3 AAC 306.735(b)(2):

Section 8 – Transportation and Delivery of Marijuana and Marijuana Products

Review the requirements under 3 AAC 306.750.

8.1. Describe how marijuana or marijuana product will be prepared, packaged, and secured for shipment. Include a description of the type of locked, safe, and secure storage compartments to be used in vehicles transporting marijuana or marijuana product:

Marijuana transport is limited to authorized, documented transfers under 3 AAC 306.750.

Shipments are weighed, packaged, sealed, labeled, and tracked before transport.

Marijuana is secured against tampering, loss, and unauthorized access.

Products remain locked in a secure vehicle compartment during transit.

Drivers and passengers cannot access marijuana while transporting it.

Transport is direct to licensed establishments or testing facilities with required documentation.

Form MJ-01: Marijuana Establishment Operating Plan

You must be able to certify each statement below. Read the following and then sign your initials in the corresponding box: Initials

8.2. The marijuana establishment from which a shipment of marijuana or marijuana product originates will ensure that any individual transporting marijuana shall have a marijuana handler permit required under 3 AAC 306.700.

KG

8.3. The marijuana establishment that originates the transport of any marijuana or marijuana product will use the marijuana inventory tracking system to record the type, amount, and weight of marijuana or marijuana product being transported, the name of the transporter, the time of departure and expected delivery, and the make, model, and license plate number of the transporting vehicle.

KG

8.4. The marijuana establishment that originates the transport of any marijuana or marijuana product will ensure that a complete printed transport manifest on a form prescribed by the board must be kept with the marijuana or marijuana product at all times during transport.

KG

8.5. During transport, any marijuana or marijuana product will be in a sealed package or container in a locked, safe, and secure storage compartment in the vehicle transporting the marijuana or marijuana product, and the sealed package will not be opened during transport.

KG

8.6. Any vehicle transporting marijuana or marijuana product will travel directly from the shipping marijuana establishment to the receiving marijuana establishment, and will not make any unnecessary stops in between except to deliver or pick up marijuana or marijuana product at any other licensed marijuana establishment.

KG

8.7. When the marijuana establishment receives marijuana or marijuana product from another licensed marijuana establishment, the recipient of the shipment will use the marijuana inventory tracking system to report the type, amount, and weight of marijuana or marijuana product received.

KG

8.8. The marijuana establishment will refuse to accept any shipment of marijuana or marijuana product that is not accompanied by the transport manifest.

KG

Section 9 – Signage and Advertising

Review the requirements under 3 AAC 306.770.

9.1. Describe any signs that you intend to post on your establishment, including quantity, dimensions, graphics, and location on your establishment (photos or drawings may be attached):

The marijuana concentrate manufacturing facility will not display any exterior signage identifying the business, including business names, logos, graphics, or advertising, on or visible from outside the licensed premises.

Form MJ-01: Marijuana Establishment Operating Plan

9.2. Describe any advertising you intend to distribute for your establishment. Include medium types and business logos (photos or drawings may be attached):

The marijuana concentrate manufacturing facility may utilize limited advertising methods consistent with Alaska regulations, including websites, industry platforms, and business directories. Advertising may include the business name and general information but will not target minors or include content prohibited by regulation.

Advertising platforms may include, but are not limited to, company websites, Weedmaps, Leaflink, and similar industry platforms, as well as print or digital business listings. All advertising will include the required AMCO warning statements and will comply with all applicable advertising and marketing restrictions.

I hereby certify that I am the person herein named and subscribing to this application and that I have read the complete application, and I know the full content thereof. I declare that all of the information contained herein, and evidence or other documents submitted are true and correct. I understand that any falsification or misrepresentation of any item or response in this application, or any attachment, or documents to support this application, is sufficient grounds for denying or revoking a license/permit. I further understand that it is a Class A misdemeanor under Alaska Statute 11.56.210 to falsify an application and commit the crime of unsworn falsification.

Alaska Marijuana Control Board Form MJ-02: Premises Diagram

Dept. of Commerce
AMCO

Why is this form needed?

A detailed diagram of the proposed licensed premises is required for all marijuana establishment license applications, per 3 AAC 306.020(b)(8). **All areas designated as the licensed premises of a single license must be contiguous. All diagrams must have the licensed premises area labeled, and outlined or shaded as appropriate.**

What must be submitted with this form?

Applicants must attach multiple diagrams to this form, including (as applicable):

- **Diagram 1:**
A diagram showing only the licensed premises areas that will be ready to be **operational at the time of your preliminary inspection** and license issuance;
- **Diagram 2:**
If different than Diagram 1, a diagram outlining **all areas for which the licensee has legal right of possession** (a valid lease or deed), and clearly showing those areas' relationship to the current proposed licensed premises (*details of any planned expansion areas do not need to be included; a complete copy of Form MJ-14: Licensed Premises Diagram Change or Form MJ-31: Walk-Up or Drive-Through Exterior Window Pick-Up Diagram and Operating Plan must be submitted and approved before any planned expansion area may be added to the licensed premises*);
- **Diagram 3:**
A **site plan or as-built of the entire lot**, showing all structures on the property and clearly indicating which area(s) will be part of the licensed premises;
- **Diagram 4:**
An **aerial photo of the entire lot and surrounding lots**, showing a view of the entire property and surrounding properties, and clearly indicating which area(s) will be part of the licensed premises (*this can be obtained from sources like Google Earth*); and
- **Diagram 5:**
A diagram of the **entire building in which the licensed premises is located**, clearly distinguishing the licensed premises from unlicensed areas and/or premises of other licenses within the building. If your proposed licensed premises is located within a building or building complex that contains multiple business and/or tenants, please provide the addresses and/or suite numbers of the other businesses and/or tenants (*a separate diagram is not required for an establishment that is designating the entire building as a single licensed premises*).

This form, and all necessary diagrams that meet the requirements on Page 2 of this form, must be completed and submitted to AMCO's Anchorage office before any new or transfer license application will be considered complete.

Section 1 – Establishment Information

Enter information for the business seeking to be licensed, as identified on the license application.

Licensee:	New Guinness Inc	MJ License #:	42249		
License Type:	Marijuana Concentrate Manufacturing Facility

**Form MJ-02: Premises Diagram****Section 2 – Required Information**

For your security, do not include locations of security cameras, motion detectors, panic buttons, and other security devices. However, AMCO will require full coverage of the walk-up or drive-through exterior window area as required by 3 AAC 306.380(b) and (g) for marijuana retail establishments. *Items marked with a double asterisks (**) are only required for those retail marijuana establishments that are also applying for an onsite consumption endorsement.*

The following details must be included in all diagrams:

- ☒ License number and DBA
- ☒ Legend or key
- ☒ Color coding
- ☒ Licensed Premises Area Labeled and Shaded, or Outlined as appropriate
- ☒ Dimensions
- ☒ Labels
- ☒ True north arrow

The following additional details must be included in Diagram 1:

- ☒ Surveillance room
- ☒ Restricted access areas
- ☒ Storage areas
- ☒ Entrances, exits, and windows, including walk-up or drive-through exterior window for marijuana retail establishments
- ☒ Walls, partitions, and counters
- ☒ Any other areas that must be labeled for specific license or endorsement types
- ☒ ** Serving area(s)
- ☒ **Employee monitoring area(s)
- ☒ **Ventilation exhaust points, if applicable

The following additional details must be included in Diagram 2:

- ☒ Areas of ingress and egress
- ☒ Entrances and exits
- ☒ Walls and partitions

The following additional details must be included in Diagrams 3 and 4:

- ☒ Areas of ingress and egress
- ☒ Cross streets and points of reference

The following additional details must be included in Diagram 5:

- ☒ Areas of ingress and egress
- ☒ Entrances and exits
- ☒ Walls and partitions
- ☒ Cross streets and points of reference

Initial:

I hereby certify that I am the person herein named and subscribing to this application and that I have read the complete application, and I know the full content thereof. I declare that all of the information contained herein, and evidence or other documents submitted are true and correct. I understand that any falsification or misrepresentation of any item or response in this application, or any attachment, or documents to support this application, is sufficient grounds for denying or revoking a license/permit. I further understand that it is a Class A misdemeanor under Alaska Statute 11.56.210 to falsify an application and commit the crime of unsworn falsification.

Alaska Marijuana Control Board Operating Plan Supplemental Form MJ-05: Marijuana Product Manufacturing Facility

RECEIVED

Why is this form needed?

This operating plan supplemental form is required for all applicants seeking a marijuana product manufacturing facility license and must accompany **Form MJ-01: Marijuana Establishment Operating Plan**, per 3 AAC 306.020(b)(11). Applicants should review **Chapter 306: Article 5** of the **Alaska Administrative Code**. This form will be used to document how an applicant intends to meet the requirements of the statutes and regulations.

Dept. of Commerce
AMCO

If your business has a formal operating plan, you may include a copy of that operating plan with your application, but all fields of this form must still be completed per 3 AAC 306.020 and 3 AAC 306.520(3).

What additional information is required for cultivation facilities?

Applicants must identify how the proposed establishment will comply with applicable regulations regarding the following:

- Equipment, compounds, and processes to be used
- Waste disposal
- Testing procedure and protocols
- Proposed marijuana concentrates and marijuana products
- Proposed product packaging and sample labels
- Prohibitions

This form must be completed and submitted to AMCO's Anchorage office before any new or transfer application for a marijuana product manufacturing facility or marijuana concentrate manufacturing facility license will be considered complete.

Section 1 – Establishment Information

Enter information for the business seeking to be licensed, as identified on the license application.

Licensee:	New Guinness Inc	MJ License #:	42249		
License Type:	Marijuana Concentrate Manufacturing Facility				
Doing Business As:	Wolf Pup				
Premises Address:	838 Bonanza Avenue				
City:	Anchorage	State:	Alaska	ZIP:	99518

RECEIVED

AUG 11 2026

Dept. of Commerce
AMCO

Section 2 – Overview of Operations

2.1. Provide an overview of your proposed facility's operations. Include information regarding the intake, flow, and transfer of marijuana, marijuana concentrate, and marijuana product at and from your premises:

New Guinness Inc dba Wolf Pup will receive marijuana and marijuana concentrate only from Alaska-licensed marijuana establishments under valid inventory-tracking transport manifests. Authorized personnel will verify source, identity, weight, package identifiers, and manifest at receipt and record acceptance in the statewide marijuana inventory tracking system. Materials will move only through the restricted-access receiving, storage, processing, testing-quarantine, packaging, and finished-goods areas shown on the approved MJ-02 premises diagram.

Each package and production lot will be tracked from intake through extraction, refinement, use as an in-house concentrate ingredient, testing, packaging, transfer, return, or waste disposal. Lots awaiting laboratory results will be segregated in secure, cool, dry storage. Released concentrates will be stored in controlled restricted-access storage and transferred only to licensed marijuana establishments using sealed shipping containers, inventory-tracking labels, testing documentation, and transport manifests. No direct-to-consumer sale or onsite consumption will occur.

Section 3 – Equipment and Compounds to be Used

Review the requirements under 3 AAC 306.555.

3.1. Describe the equipment and solvents, gases, chemicals, and other compounds the marijuana product manufacturing facility will use to create marijuana concentrates:

Wolf Pup will conduct solventless separation/pressing, ethanol extraction and recovery, closed-loop CO₂ extraction, refinement/distillation, cartridge filling, weighing, and hand packaging in the licensed lab at 838 Bonanza Avenue, Anchorage, Alaska 99518. The current licensed lab area is 974 square feet. Major equipment identified by the applicant includes: (1) Apeks Supercritical 'The Transformer' closed-loop CO₂ extraction system, applicant-stated capacity 10 lb per cycle; (2) 10 L rotary evaporator; (3) laboratory glass cooking or reaction apparatus; (4) hydraulic/bearing press with heated plates; (5) hand-operated dry-sift screening set; (6) semi-automatic cartridge filling machine; (7) registered commercial scale; and (8) hand packaging.

Manual dry-sift separation is performed with clean screens by moving marijuana material across the screens in a controlled circular motion. No powered or electronic separator is used. Additional processing equipment used under the applicable SOPs includes vacuum oven(s), dry-ice screening equipment, bubble-bag separation equipment, and a freezer for process materials or concentrate storage.

Compounds: tracked marijuana or marijuana concentrate from Alaska-licensed establishments; food-grade ethanol under written SOP with recovery; carbon dioxide of at least 99 percent purity in the closed-loop system; and only botanical terpene flavor ingredients specifically confirmed in writing by AMCO for approved products. The closed-loop system will be operated within the manufacturer's pressure ratings. The application package will include the applicable licensed-engineer certification and local fire, building, electrical, mechanical, and ventilation approvals for the installed equipment and laboratory.

Section 4 – Waste Disposal

Review the requirements under 3 AAC 306.740.

4.1. Describe how you will store, manage, and dispose of any solid or liquid marijuana waste, including expired or outdated marijuana or marijuana product, in compliance with any applicable laws. Include details about the material(s) you will mix with ground marijuana waste and the processes that you will use to make the marijuana waste unusable for any purpose for which it was grown or produced:

All solid and liquid waste will be stored, managed, and disposed of in compliance with federal, state, and Municipality of Anchorage requirements. Marijuana waste will remain in a secure restricted-access area under video surveillance until rendered unusable and removed. Waste and its final destination will be recorded in the statewide marijuana inventory tracking system.

Plant material and other marijuana waste will be weighed, recorded, ground, and mixed with at least an equal amount of other compostable or non-compostable material so it is unusable for the purpose for which it was grown or produced. Proposed mixing materials include food or yard waste for an approved compost stream, or paper/cardboard waste for disposal at a permitted solid-waste facility. Containers will be closed, identified, and protected from unauthorized access.

Ethanol, extraction residues, cleaning chemicals, wastewater, spent filters, and other regulated liquid or chemical waste will not enter the ordinary waste stream unless lawful. They will be accumulated, stored, and disposed of according to safety data sheets and applicable environmental, fire, sewer, and solid-waste rules. An authorized employee will reconcile each waste event, witness rendering when required by company SOP, enter the disposition and destination in the tracking system, and retain disposal receipts or manifests.

Section 5 – Testing Procedure and Protocols

Review the requirements under 3 AAC 306.520 and 3 AAC 306.550.

You must be able to certify the statement below. Read the following and then sign your initials in the box to the right: Initials

5.1. I will ensure that any individual responsible for collecting random samples for required laboratory testing under 3 AAC 306.550 will prepare the necessary accompanying signed statement, provide the signed statement to the marijuana testing facility, and maintain a copy as a business record under 3 AAC 306.755.

KG

Answer "Yes" or "No" to the following question: Yes No

5.2. Will the marijuana product manufacturing facility be performing in-house testing (as defined under 3 AAC 306.990(b)(20))?

☐☒

NO IN-HOUSE TESTING

If "Yes" to 5.2, you must be able to certify the statement below. Read the following and then sign your initials in the box: Initials

5.3. The area where in-house testing will occur is clearly identified on the Form MJ-02: Premises Diagram that is submitted with this application.

5.4. Describe the testing procedures and protocols the marijuana product manufacturing facility will follow:

A designated marijuana handler will randomly select the required sample from each production lot in the quantity specified by the licensed marijuana testing facility. The sampler will prepare and sign the required statement, provide it to the testing facility, and retain a copy as a business record. Samples will be transported under a valid inventory-tracking manifest.

After sampling, the entire production lot will be segregated in a secure, cool, dry restricted-access location. No portion will be sold or transferred until the licensed testing facility completes all required analyses and provides written passing results. Results will be retained and used for labeling and shipment records. Any failed, expired, or unfit lot will remain segregated and be handled only through an authorized retest, remediation/transfer procedure, or recorded waste disposal process.

RESPONSE TO 5.2: NO. The applicant confirms that no in-house testing will occur. All required compliance testing will be performed by an Alaska-licensed marijuana testing facility.

**Section 6 – Proposed Marijuana Concentrates and Marijuana Products**

PRODUCT 1 OF 12

Review the requirements under 3 AAC 306.520, 3 AAC 306.525, and 3 AAC 306.560.

Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	Distillate Vaporizer Cartridge		
Product Type: Choose one.	Marijuana Concentrate		
Perishable: Yes/No	No	Shelf Life: If perishable.	N/A
Intended Use: Smokable/ edible/topical/wholesale/etc.	Inhaled vapor; retail and wholesale transfer		
Product Description: Details must include the color, shape, and texture.	A sealed vaporizer cartridge containing a smooth, uniform, viscous marijuana distillate. The oil is clear to pale yellow or amber and free of visible foreign material. Cartridge shape and hardware color may vary by approved supplier.		
Ingredients: If a hemp derived product/CBD is an ingredient, what is the quantity and you must provide the SOA Department of Agriculture's registration number.	Marijuana-derived distillate; a specifically AMCO-approved botanical terpene flavor, if used.		
Flavors: List all current and potential future flavors:	Appendix B lists proposed Botanical Terpenes flavors. A product may use one flavor or a named blend of two flavors. Each flavor or blend name, exact formula, supplier, source, and specification requires written AMCO confirmation before use.		
Standard Production Procedure and Detailed Manufacturing Process:	Marijuana distillate will be produced by one or more disclosed pathways: (1) food-grade ethanol extraction followed by ethanol recovery, refinement, decarboxylation, and distillation; (2) professional-grade closed-loop CO2 extraction followed by refinement and distillation; or (3) receipt of marijuana concentrate from an Alaska-licensed marijuana product manufacturing facility under a valid transport manifest. Only a specifically AMCO-approved botanical terpene flavor may be blended into the distillate. The homogeneous oil is filled into new cartridges using sanitary filling equipment, sealed, assigned to a production lot, held for required testing, and packaged only after release.		
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.	 DIAGRAMMATIC DEPICTION - FINAL APPEARANCE VARIES BY BATCH		

Section 7 – Proposed Product Packaging and Sample Labels

PRODUCT 1 OF 12

Review the requirements under 3 AAC 306.520, 3 AAC 306.565, and 3 AAC 306.570.

Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	Distillate Vaporizer Cartridge	
Product Type:	Marijuana Concentrate	
Packaging Description: Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.	Each cartridge is placed in a 68 mm protective vial with a child-resistant closure and then in sealed, tamper-evident retail packaging that protects against contamination. Verify the final vial and insert fit for each 0.5 g, 1 g, and 2 g cartridge hardware configuration before filing. Applicant-specified primary package: 68 mm protective vial with child-resistant closure. Confirm fit for each 0.5 g, 1 g, and 2 g cartridge hardware configuration. Proposed net weights: 0.5 g, 1 g, and 2 g cartridges. Total THC will be batch-specific and printed on the final label after required testing. Retail packaging will be sealed and tamper-evident, use a child-resistant closure when required, protect against contamination, and not use cartoons, bright child-appealing graphics, or candy-like presentation. Wholesale containers will be securely closed and labeled for transfer only between licensed marijuana establishments. Applicant states package colors may vary by product profile or batch. Final allowed color system, dimensions, materials, closures, suppliers, and photographs or drawings must be submitted and confirmed before filing. DIAGRAMMATIC DEPICTION - FINAL APPEARANCE VARIES BY BATCH	
Sample Labels: Provide sample labels showing how the labeling requirements set forth in 3 AAC 306.570 will be met.	Distillate Vaporizer Cartridge New Guinness Inc dba Wolf Pup AK MJ #42249 Net Weight: 0.5 g, 1 g, and 2 g cartridges Production Lot: _____ METRC Package ID: _____ Testing Lab / Date: _____ Total THC: batch-specific result Ingredients: Marijuana-derived distillate; a specifically NOT ORGANIC For transfer only after required laboratory release.	REQUIRED WARNINGS Marijuana has intoxicating effects and may be habit forming and addictive Marijuana impairs concentration, coordination, and judgment. Do not operate a vehicle or machinery under its influence There are health risks associated with consumption of marijuana For use only by adults twenty-one and older. Keep out of the reach of children. Marijuana should not be used by women who are pregnant or breast feeding.

Section 6 – Proposed Marijuana Concentrates and Marijuana Products

PRODUCT 2 OF 12

Review the requirements under 3 AAC 306.520, 3 AAC 306.525, and 3 AAC 306.560.

Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	THCa-Rich Vaporizer Cartridge		
Product Type: Choose one.	Marijuana Concentrate		
Perishable: Yes/No	No	Shelf Life: If perishable.	N/A
Intended Use: Smokable/ edible/topical/wholesale/etc.	Inhaled vapor; retail and wholesale transfer		
Product Description: Details must include the color, shape, and texture.	A sealed vaporizer cartridge containing a clear to pale gold, uniform THCa-rich marijuana concentrate formulated for vaporization. The concentrate is viscous and free of visible foreign material.		
Ingredients: If a hemp derived product/CBD is an ingredient, what is the quantity and you must provide the SOA Department of Agriculture's registration number.	Marijuana-derived THCa-rich concentrate; a specifically AMCO-approved botanical terpene flavor, if used.		
Flavors: List all current and potential future flavors:	Appendix B lists proposed Botanical Terpenes flavors. A product may use one flavor or a named blend of two flavors. Each flavor or blend name, exact formula, supplier, source, and specification requires written AMCO confirmation before use.		
Standard Production Procedure and Detailed Manufacturing Process:	A THCa-rich fraction is isolated from an ethanol- or CO2-derived marijuana extract, or received as approved concentrate from an Alaska-licensed marijuana product manufacturing facility. The fraction is refined under the facility's written SOP and combined only with approved marijuana concentrates and a specifically AMCO-approved botanical terpene flavor. The homogeneous material is filled into new cartridges using sanitary filling equipment, sealed, tracked by lot, segregated, tested, and released only after passing results.		
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.	 DIAGRAMMATIC DEPICTION - FINAL APPEARANCE VARIES BY BATCH

Section 6 – Proposed Marijuana Concentrates and Marijuana Products

PRODUCT 3 OF 12

Review the requirements under 3 AAC 306.520, 3 AAC 306.525, and 3 AAC 306.560.

Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	Rosin Vaporizer Cartridge		
Product Type: Choose one.	Marijuana Concentrate		
Perishable: Yes/No	No	Shelf Life: If perishable.	N/A
Intended Use: Smokable/ edible/topical/wholesale/etc.	Inhaled vapor; retail and wholesale transfer		
Product Description: Details must include the color, shape, and texture.	A sealed vaporizer cartridge containing a light-gold to amber, viscous rosin-derived marijuana concentrate. The oil is uniform and free of visible foreign material.		
Ingredients: If a hemp derived product/CBD is an ingredient, what is the quantity and you must provide the SOA Department of Agriculture's registration number.	Flower rosin or hash rosin; a specifically AMCO-approved botanical terpene flavor, if used.		
Flavors: List all current and potential future flavors:	Appendix B lists proposed Botanical Terpenes flavors. A product may use one flavor or a named blend of two flavors; each exact formula and final name requires written AMCO confirmation before use.		
Standard Production Procedure and Detailed Manufacturing Process:	Marijuana flower or hash is pressed using controlled heat and pressure to produce solventless rosin. The rosin is collected in sanitary containers and conditioned under controlled heat pursuant to the written SOP until suitable for cartridge filling, without adding extraction solvent. Only a specifically AMCO-approved botanical terpene flavor may be added. The material is homogenized, filled into new cartridges, sealed, tracked by lot, held for testing, and packaged after release.		
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.	 DIAGRAMMATIC DEPICTION - FINAL APPEARANCE VARIES BY BATCH

Product Name:	Electrostatic Dry Sift Concentrate		
Product Type: Choose one.	Marijuana Concentrate		
Perishable: Yes/No	No	Shelf Life: If perishable.	N/A
Intended Use: Smokable/ edible/topical/wholesale/etc.	Inhalation; retail and wholesale transfer		
Product Description: Details must include the color, shape, and texture.	A fine, granular marijuana trichome concentrate ranging from pale cream or golden yellow to light green or brown. Texture may resemble fine sand or powder and the shape is amorphous.		
Ingredients: If a hemp derived product/CBD is an ingredient, what is the quantity and you must provide the SOA Department of Agriculture's registration number.	Marijuana trichomes mechanically separated from marijuana plant material.		
Flavors: List all current and potential future flavors:	None added; natural strain-specific cannabis aroma and flavor only.		
Standard Production Procedure and Detailed Manufacturing Process:	Dried marijuana material is placed on clean dry-sift screens and moved by hand across the screens in a controlled circular motion. Trichomes pass through the selected screens onto a clean collection surface and are gathered with sanitary tools. No powered or electronic separator is used. The sift is inspected, weighed, assigned to a production lot, stored in a clean sealed container, segregated for testing, and packaged after release. Portions may also be used as an in-house input for Electrostatic Rosin and Electrostatic Hash Brick.

PRODUCT 6 OF 12

Review the requirements under 3 AAC 306.520, 3 AAC 306.525, and 3 AAC 306.560.

Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	Electrostatic Rosin Concentrate		
Product Type: Choose one.	Marijuana Concentrate		
Perishable: Yes/No	No	Shelf Life: If perishable.	N/A
Intended Use: Smokable/ edible/topical/wholesale/etc.	Inhalation; retail and wholesale transfer		
Product Description: Details must include the color, shape, and texture.	A solventless rosin made from hand-screened dry-sift trichomes. Color ranges from pale gold to amber and texture may be sap-like, creamy, or firm depending on strain and finishing.		
Ingredients: If a hemp derived product/CBD is an ingredient, what is the quantity and you must provide the SOA Department of Agriculture's registration number.	Hand-screened dry-sift marijuana trichomes only.		
Flavors: List all current and potential future flavors:	None added; natural strain-specific cannabis aroma and flavor only.		
Standard Production Procedure and Detailed Manufacturing Process:	Dry sift produced by the approved manual screening procedure is placed in food-grade filter material and pressed using controlled heat and pressure. The rosin is collected with sanitary tools, weighed, tracked by production lot, placed in clean containers, segregated for required testing, and packaged after release.		
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.	 DIAGRAMMATIC DEPICTION - FINAL APPEARANCE VARIES BY BATCH		

**Section 7 – Proposed Product Packaging and Sample Labels**

PRODUCT 6 OF 12

Review the requirements under 3 AAC 306.520, 3 AAC 306.565, and 3 AAC 306.570.

Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	Electrostatic Rosin Concentrate	
Product Type:	Marijuana Concentrate	
Packaging Description: Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.	Clean glass or approved polymer concentrate jars with secure lids inside sealed, tamper-evident retail packaging. Final package specifications must be confirmed. Applicant-specified jar schedule: 5 mL jar for 1 g; 1 oz jar for 3.5 g and 7 g. Perform physical fill testing for each product consistency. Proposed net weights: 1 g, 3.5 g, and 7 g. Total THC will be batch-specific and printed on the final label after required testing. Retail packaging will be sealed and tamper-evident, use a child-resistant closure when required, protect against contamination, and not use cartoons, bright child-appealing graphics, or candy-like presentation. Wholesale containers will be securely closed and labeled for transfer only between licensed marijuana establishments. Applicant states package colors may vary by product profile or batch. Final allowed color system, dimensions, materials, closures, suppliers, and photographs or drawings must be submitted and confirmed before filing.  DIAGRAMMATIC DEPICTION - FINAL APPEARANCE VARIES BY BATCH	
Sample Labels: Provide sample labels showing how the labeling requirements set forth in 3 AAC 306.570 will be met. PRODUCT 7 OF 12

Review the requirements under 3 AAC 306.520, 3 AAC 306.525, and 3 AAC 306.560.

Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	THCa Diamonds		
Product Type: Choose one.	Marijuana Concentrate		
Perishable: Yes/No	No	Shelf Life: If perishable.	N/A
Intended Use: Smokable/ edible/topical/wholesale/etc.	Inhalation; retail and wholesale transfer		
Product Description: Details must include the color, shape, and texture.	Clear, white, off-white, or pale-gold THCa-rich crystalline marijuana concentrate. Crystals may be asymmetrical, solid to the touch, and slightly grainy; crystal size varies by production lot.		
Ingredients: If a hemp derived product/CBD is an ingredient, what is the quantity and you must provide the SOA Department of Agriculture's registration number.	Marijuana-derived THCa-rich crystalline concentrate.		
Flavors: List all current and potential future flavors:	None added unless a specific Botanical Terpenes flavor or named two-flavor blend is included in the final AMCO-approved formula.		
Standard Production Procedure and Detailed Manufacturing Process:	An ethanol- or CO2-derived marijuana extract is refined under the facility's written SOP to isolate and crystallize a THCa-rich fraction. Ethanol, when used, is recovered and not vented; CO2 is separated within the closed-loop process. The crystalline concentrate is finished under controlled conditions, inspected, weighed, tracked by production lot, segregated for required testing, and packaged after release.

Section 6 – Proposed Marijuana Concentrates and Marijuana Products

PRODUCT 8 OF 12

Review the requirements under 3 AAC 306.520, 3 AAC 306.525, and 3 AAC 306.560.

Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	Badder/Wax Concentrate		
Product Type: Choose one.	Marijuana Concentrate		
Perishable: Yes/No	No	Shelf Life: If perishable.	N/A
Intended Use: Smokable/ edible/topical/wholesale/etc.	Inhalation; retail and wholesale transfer		
Product Description: Details must include the color, shape, and texture.	A yellow-to-amber marijuana concentrate with a soft, pliable, waxy, whipped, or creamy consistency. Badder and wax are treated as one approved product with expected texture variation created by post-extraction finishing.		
Ingredients: If a hemp derived product/CBD is an ingredient, what is the quantity and you must provide the SOA Department of Agriculture's registration number.	Marijuana concentrate produced by ethanol or CO2 extraction.		
Flavors: List all current and potential future flavors:	None added unless a specific Botanical Terpenes flavor or named two-flavor blend is included in the final AMCO-approved formula.		
Standard Production Procedure and Detailed Manufacturing Process:	Marijuana is extracted using food-grade ethanol with solvent recovery or a professional-grade closed-loop CO2 system. The extract is filtered and refined, then finished under controlled temperature and agitation to produce a soft waxy or whipped consistency. The concentrate is weighed, assigned to a production lot, segregated for testing, and packaged only after passing results.

Review the requirements under 3 AAC 306.520, 3 AAC 306.525, and 3 AAC 306.560.

Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	Shatter Concentrate		
Product Type: Choose one.	Marijuana Concentrate		
Perishable: Yes/No	No	Shelf Life: If perishable.	N/A
Intended Use: Smokable/ edible/topical/wholesale/etc.	Inhalation; retail and wholesale transfer		
Product Description: Details must include the color, shape, and texture.	A translucent pale-gold to dark-amber marijuana concentrate with a smooth, glass-like appearance and firm, brittle texture that may snap or shatter when handled.		
Ingredients: If a hemp derived product/CBD is an ingredient, what is the quantity and you must provide the SOA Department of Agriculture's registration number.	Marijuana concentrate produced by ethanol or CO2 extraction.		
Flavors: List all current and potential future flavors:	None added unless a specific Botanical Terpenes flavor or named two-flavor blend is included in the final AMCO-approved formula.		
Standard Production Procedure and Detailed Manufacturing Process:	Marijuana is extracted using food-grade ethanol with solvent recovery or a professional-grade closed-loop CO2 system. The extract is filtered and refined, formed into a thin layer, and finished under controlled conditions to produce a stable glass-like texture. Any ethanol used is recovered and not vented. The concentrate is weighed, tracked by production lot, segregated for testing, and packaged after release.

Product Name:	Electrostatic Hash Brick		
Product Type: Choose one.	Marijuana Concentrate		
Perishable: Yes/No	No	Shelf Life: If perishable.	N/A
Intended Use: Smokable/ edible/topical/wholesale/etc.	Inhalation; retail and wholesale transfer		
Product Description: Details must include the color, shape, and texture.	A dense, compressed rectangular or block-shaped hash concentrate made from hand-screened dry-sift trichomes. Color ranges from tan or gold to brown or green; texture ranges from firm and crumbly to pliable.		
Ingredients: If a hemp derived product/CBD is an ingredient, what is the quantity and you must provide the SOA Department of Agriculture's registration number.	Hand-screened dry-sift marijuana trichomes only.		
Flavors: List all current and potential future flavors:	None added; natural strain-specific cannabis aroma and flavor only.		
Standard Production Procedure and Detailed Manufacturing Process:	Dry sift produced by the approved manual screening procedure is weighed and compressed into a brick or block using mechanical pressure and, if needed, controlled low heat. The brick is cooled, inspected, assigned to a production lot, segregated for required testing, and packaged after release. No solvent or gas is used.

Product Name:	Electrostatic Rosin Vaporizer Cartridge		
Product Type: Choose one.	Marijuana Concentrate		
Perishable: Yes/No	No	Shelf Life: If perishable.	N/A
Intended Use: Smokable/ edible/topical/wholesale/etc.	Inhaled vapor; retail and wholesale transfer		
Product Description: Details must include the color, shape, and texture.	A sealed vaporizer cartridge containing a light-gold to amber viscous concentrate made from rosin pressed from hand-screened dry-sift trichomes.		
Ingredients: If a hemp derived product/CBD is an ingredient, what is the quantity and you must provide the SOA Department of Agriculture's registration number.	Hand-screened dry-sift rosin; a specifically AMCO-approved botanical terpene flavor, if used.		
Flavors: List all current and potential future flavors:	Appendix B lists proposed Botanical Terpenes flavors. A product may use one flavor or a named blend of two flavors; each exact formula and final name requires written AMCO confirmation before use.		
Standard Production Procedure and Detailed Manufacturing Process:	Dry sift is produced by the approved manual screening procedure and pressed into rosin. The rosin is conditioned under controlled heat pursuant to the written SOP until suitable for cartridge filling. Only a specifically AMCO-approved botanical terpene flavor may be added. The material is homogenized, filled into new cartridges, sealed, tracked by lot, segregated for testing, and packaged after release.

Product Name:	CO2 Extract Oil		
Product Type: Choose one.	Marijuana Concentrate		
Perishable: Yes/No	No	Shelf Life: If perishable.	N/A
Intended Use: Smokable/ edible/topical/wholesale/etc.	Inhalation; retail and wholesale transfer		
Product Description: Details must include the color, shape, and texture.	A bright-yellow to dark-amber marijuana concentrate with a smooth, viscous, oil-like texture and uniform appearance.		
Ingredients: If a hemp derived product/CBD is an ingredient, what is the quantity and you must provide the SOA Department of Agriculture's registration number.	Marijuana-derived CO2 extract; a specifically AMCO-approved botanical terpene flavor, if used.		
Flavors: List all current and potential future flavors:	None added unless a specific Botanical Terpenes flavor or named two-flavor blend is included in the final AMCO-approved formula.		
Standard Production Procedure and Detailed Manufacturing Process:	Marijuana is extracted in a professional-grade closed-loop CO2 system using carbon dioxide of at least 99 percent purity. The extract is separated from the CO2 within the closed-loop system, then filtered, refined, and decarboxylated when required by the intended finished form. The oil is weighed, assigned to a production lot, held in a secure cool and dry area, segregated for required testing, and packaged only after release. The system will be used within manufacturer pressure ratings and only after required engineer certification and local fire/building approval.

Product Name:	CO2 Extract Oil	
Product Type:	Marijuana Concentrate	
Packaging Description: Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.	Clean glass or approved polymer concentrate container with secure lid inside sealed, tamper-evident retail packaging, or compliant wholesale container. Final sizes, colors, materials, and closure must be confirmed. Applicant-specified jar schedule: 5 mL jar for 1 g and 2 g; 1 oz jar for 3.5 g and 7 g. Perform physical fill testing for each product consistency. Proposed net weights: 1 g, 2 g, 3.5 g, and 7 g retail or wholesale packages. Total THC will be batch-specific and printed on the final label after required testing. Retail packaging will be sealed and tamper-evident, use a child-resistant closure when required, protect against contamination, and not use cartoons, bright child-appealing graphics, or candy-like presentation. Wholesale containers will be securely closed and labeled for transfer only between licensed marijuana establishments. Applicant states package colors may vary by product profile or batch. Final allowed color system, dimensions, materials, closures, suppliers, and photographs or drawings must be submitted and confirmed before filing. A diagrammatic depiction of a jar with a label area. The jar is shown in a simple line-art style with a yellow label area in the center. DIAGRAMMATIC DEPICTION - FINAL APPEARANCE VARIES BY BATCH	
Sample Labels: Provide sample labels showing how the labeling requirements set forth in 3 AAC 306.570 will be met.	CO2 Extract Oil New Guinness Inc dba Wolf Pup AK MJ #42249 Net Weight: 1 g, 2 g, 3.5 g, and 7 g retail or wholesale packages Production Lot: _____ METRC Package ID: _____ Testing Lab / Date: _____ Total THC: batch-specific result Ingredients: Marijuana-derived CO2 extract; a specifically AMCO-approved botanical terpene flavor, if used. NOT ORGANIC For transfer only after required laboratory release.	REQUIRED WARNINGS Marijuana has intoxicating effects and may be habit forming and addictive Marijuana impairs concentration, coordination, and judgment. Do not operate a vehicle or machinery under its influence There are health risks associated with consumption of marijuana For use only by adults twenty-one and older. Keep out of the reach of children. Marijuana should not be used by women who are pregnant or breast feeding.

Section 8 – Prohibitions

Review the requirements under 3 AAC 306.510.

8.1. I certify that the marijuana product manufacturing facility will not:

Initials

- a. Sell, deliver, distribute, or transfer any marijuana, marijuana concentrate, or marijuana product directly to a consumer, with or without compensation;
- b. Allow any person, including a licensee, employee, or agent, to consume marijuana, marijuana concentrate, or marijuana product on the licensed premises; or
- c. Manufacture or sell any product that is an adulterated food or drink, closely resembles a familiar food or drink item including candy, or is packaged to look like candy, or in bright colors or with cartoon characters or other pictures or images that would appeal to children.

(Additional Space as Needed):

SUPPLEMENTAL APPLICATION INFORMATION

1. Manual dry-sift separation is performed with clean hand-operated screens. Marijuana material is moved across the screens in a controlled circular motion; no powered or electronic separator is used.
2. Licensed-engineer certification and applicable fire, building, and ventilation approvals for the closed-loop CO2 system and extraction areas will be included with the application package.
3. No in-house testing will occur. Section 5 states NO.
4. Electrostatic Dry Sift, Badder/Wax, Shatter, Electrostatic Hash Brick, and CO2 Extract Oil will be packaged in 1 g, 2 g, 3.5 g, and 7 g retail or wholesale sizes.
5. Cartridges will use a 68 mm protective vial. Concentrates will use a 5 mL jar for 1 g and 2 g packages and a 1 oz jar for 3.5 g and 7 g packages. Package colors may vary by product profile or batch.
6. Appendix B lists the proposed Botanical Terpenes flavor profiles. A product may use one listed flavor or a named blend of two listed flavors. Each blend record will state the finished-product flavor name, both component flavors, exact percentages, total addition rate, and supplier lot information.
7. Electrostatic Dry Sift will be sold as a finished product; its Sections 6 and 7 are included.
8. Product formulas and manufacturing processes will be maintained in the facility's final standard operating procedures.

Packaging Specifications and Depictions

Wolf Pup will use the following package configurations for finished marijuana concentrates and cartridges.

5 mL concentrate jar for 1 g and 2 g finished-product packages.

1 oz concentrate jar for 3.5 g and 7 g finished-product packages.

Clear 68 mm protective vial with child-resistant closure for 0.5 g, 1 g, and 2 g cartridge configurations.

Package schedule: 68 mm protective vial for 0.5 g, 1 g, and 2 g cartridges; 5 mL concentrate jar for 1 g and 2 g concentrates; and 1 oz concentrate jar for 3.5 g and 7 g concentrates. Each package will use a child-resistant closure when required, a tamper-evident feature, and sufficient label area for all required product, testing, license, inventory-tracking, net-weight, ingredient, and warning information. Package colors may vary by product profile or batch. The package material and closure will be compatible with the finished product and will protect it from contamination during storage and transfer.

Proposed Botanical Terpene Flavors and Custom Blends

The following botanical terpene flavor profiles are proposed for use in approved Wolf Pup marijuana concentrate products.

Proposed botanical flavor profiles for single-flavor or named two-flavor formulas

- Blueberry Blastoff
- Watermelon Wonder
- Strawberry Jelly
- Pineapple Paradise
- Runtz
- Blue Razz
- Cherry Nirvana
- Vanilla Bliss
- Strawberry Banana Sundae
- Cantaloupe Craze
- Northern Lights
- Green Crack
- Gelato
- Orange Oasis
- Sour Diesel
- Blueberry (Strain)
- Blackberry Kush
- Jack Herer
- White Widow
- Strawberry Lemonade
- Grape
- Raspberry Razzle
- Island Punch
- Kushify
- Citrus Slushy
- Berry Purple
- Watermelon
- Blue Dream
- OG Kush
- Tangie

Custom blends: two listed Botanical Terpenes flavors may be mixed and assigned a new finished-product flavor name. The batch formula will identify the new name, both component flavors, exact percentages, total addition rate, supplier lots, and label presentation. Each flavor and named blend will be produced according to the approved product formula and documented in the applicable batch record.

Ingredient records: Wolf Pup will maintain the vendor and product name, lot-specific certificate of analysis, ingredient statement, source classification, safety or specification sheet, intended use rate, and final formula for every botanical terpene flavor or named two-flavor blend used in production.

Botanical terpene flavor ingredients and named blends will be used only in the exact products, formulas, ratios, and addition rates included in the applicable product approval and facility records.

Alaska Marijuana Control Board

Form MJ-07: Public Notice Posting Affidavit

Dept. of Commerce
AMCO

Why is this form needed?

A public notice posting affidavit is required for all marijuana establishment license applications, per 3 AAC 306.020(b)(10). As soon as practical after initiating a marijuana establishment license application, an applicant must give notice of the application to the public by posting a true copy of the application for ten (10) days at the location of the proposed licensed premises and one other conspicuous location in the area of the proposed premises, per 3 AAC 306.025(b)(1).

This form must be completed and submitted to AMCO's Anchorage office before any new or transfer license application will be considered complete.

Section 1 – Establishment Information

Enter information for the business seeking to be licensed, as identified on the license application.

Licensee:	New Guinness Inc	License Number:	42249		
License Type:	Marijuana Concentrates Manufacturing Facility				
Doing Business As:	Wolf Pup				
Premises Address:	838 Bonanza Ave				
City:	Anchorage	State:	AK	ZIP:	99518

Section 2 – Certification

I certify that I have met the public notice requirement set forth under 3 AAC 306.025(b)(1) by posting a copy of my application for the following 10-day period at the location of the proposed licensed premises and at the following conspicuous location in the area of the proposed premises:

Start Date: 07/24/2026

End Date: 08/04/2026

Other conspicuous location: Abbot Fred Meyer

I hereby certify that I am the person herein named and subscribing to this application and that I have read the complete application, and I know the full content thereof. I declare that all of the information contained herein, and evidence or other documents submitted are true and correct. I understand that any falsification or misrepresentation of any item or response in this application, or any attachment, or documents to support this application, is sufficient grounds for denying or revoking a license/permit. I further understand that it is a Class A misdemeanor under Alaska Statute 11.56.210 to falsify an application and commit the crime of unsworn falsification.

ARTS & ENTERTAINMENT

Bachman-Turner Overdrive to perform at 2026 Alaska State Fair

Anchorage Daily News
Classic rockers Bachman-Turner Overdrive are scheduled to perform at the 2026 Alaska State Fair in Palmer, organizers announced Monday.

The band is set to appear Monday, Aug. 31 at 7 p.m. Tickets went on sale Tuesday morning.

BTO was booked as a replacement for The Beach Boys, who last week canceled a number of shows, including an appearance at the Alaska State Fair.

Featuring Canadian rocker and band

founder Randy Bachman, BTO produced a string of hits in the 1970s, such as "Takin' Care of Business," "You Ain't Seen Nothin' Yet," "Roll On Down the Highway" and "Let It Ride."

Tickets are available at alaskastatefair.org.

The fair's entertainment lineup is now complete and includes Lyle Lovett, Celine Dion, Twisted Sister, Deadmau5, Modest Mouse, BigXThaPug, Megadeth and Amy Grant.

BACHMAN, 2024 / The Canadian Press via AP, photo, August 2024

Canadian singer and guitarist Randy Bachman, of Bachman-Turner Overdrive, speaks after being presented a proclamation declaring Bachman-Turner Overdrive Day ahead of his concert at the concert at the Pacific National Exhibition Fair in Vancouver, on Aug. 20, 2024.

FROM PAGE A1

LNG TAX

expressed aim hopes that they could find common ground to pass a bill for the project this year. After the governor introduced a bill halfway into the regular session in March, they've spent months considering measures that multiple times failed to pass both chambers and win the approval of the governor and New York-based Glens Falls, which owns 75% of the project, with the state's Alaska Gasline Development Corp. owning 25%.

The Alaska LNG project is seen by Dunleavy, lawmakers and many Alaskans as critical because it could provide most of the state with natural gas for heat and power, as a short-term loan for local gas production from Cook Inlet. But Senate President John Sims said earlier this month that gas shortages may hit as soon as this winter, years before the LNG project timeline estimates it could supply gas to the region.

Proposed at a cost of up to \$20 billion, the project would deliver North Slope natural gas in an 800-mile pipeline. The gas would go first to Alaskans starting in 2029, then also as overseas exports of liquefied natural gas, or LNG, starting in 2031.

In the special sessions that ended in June and earlier this month, the Senate passed two bills providing a property tax cut for the project, but the House rejected the legislation.

The key difference between tax cut bills favored by the two chambers has been a corporate income tax expansion that is supported by a majority of the Senate, in part as a way to make up for lost revenues from the project.

In June, the House overwhelmingly passed what legislators and Dunleavy called a "clean bill," without an amendment expanding the state's corporate income tax.

The most recent bill passed by the Senate at the end of the special session that concluded earlier this month would have expanded the tax to oil and gas companies that are S corporations or limited liability companies, but not to the gas line project itself.

That version drafted by a bicameral conference committee died in the House on a tie vote before it could reach Dunleavy's desk, after the governor posted on social media that he would veto the compromise bill because it included the corporate income tax expansion.

The tax would generate new revenue for the state and would apply to companies such as Hilcorp, expected to be a key supplier of the natural gas for the line, if it can be built.

Major business groups and the project developer, Glens Falls, have said the language would hurt the Alaska LNG project by increasing prices for produced natural gas, and should be considered independently by its own bill.

Hilcorp Alaska, one of the major oil and gas companies in Alaska, also wrote in a letter to lawmakers last week that it opposes the measure.

"Imposing a tax hike on Hilcorp, the upstream producer responsible for developing the fields that contain natural gas that will be transported on the gasline, producing it, and delivering it to the gasline will undoubtedly (and) impact the economics of the Alaska LNG Project by increasing the cost of upstream development and production," Luke Saenger, the company's senior vice president, said in the letter.

"Exempting only the Alaska LNG Project from the proposed tax does not eliminate the increased costs created by the tax; it merely imposes them elsewhere in the value chain, and those costs will ultimately flow through to the economics of the Alaska LNG Project," Saenger said.

House Speaker Bryce Edgmon, left, leads a technical session before an empty Senate floor at the Alaska State Capitol building on Monday in Juneau. The session marked the start of the third consecutive special session called by Gov. Mike Dunleavy to consider a tax break for the proposed Alaska LNG megaproject.

"Every day that goes by gets that much more difficult to reconvene the Legislature and to get them refocused on a bill that heretofore we've not been able to find consensus on to pass both chambers. And so I think the clock is ticking very loudly right now, and the governor realizes that."

— House Speaker Bryce Edgmon, a Dillingham Independent

What's next?

On Monday, House and Senate leaders said that after both chambers put extensive work into the failed bills, they are now waiting to see what the governor proposes before moving forward.

Dunleavy wrote on social media: "Before reintroducing the legislation, my administration is going to continue meeting with all parties to determine the best path forward to an agreement."

"I believe that by having these discussions now we can come to an agreement on a bill that would get the support it needs to pass both bodies and get this vital project moving forward and conclude this special session quickly," he said.

The House and Senate's next plan is to hold technical sessions again, on Friday.

House Speaker Bryce Edgmon led the House's opening technical session Monday. Also present were House Minority Leader Delores Johnson, a Palmer Republican, and Rep. Sara Hansen, a Juneau Democrat.

Edgmon, a Dillingham independent, said after the meeting that he hopes common ground can be found.

"We need a gas line for sure, but we also need to do it in a way that gets broad public support and gets the necessary support in the Legislature," he said.

Compromise will be needed on the income tax provision and other items, he said.

When asked what has changed that might improve the chances of an Alaska LNG tax cut bill passing during the third consecutive special session on the topic, Edgmon said he hopes Dunleavy will be more engaged in the upcoming talks.

The "governor is at this point apparently more involved than he was last time around," Edgmon said. The governor was

"involved peripherally" in the most recent session, he said.

That's when the conference committee of the House and Senate members sought to find compromise between lawmakers, Glens Falls and the governor's office, and hammered out the bill that failed, Edgmon said.

"I would have preferred that he have been front and center and taken a very active role," Edgmon said of the governor. "But we're dealing with an administration that just doesn't have the relationships in the Legislature that ordinarily would be in place."

How the House proceeds this time, such as what committees might take up a bill, will depend on what the governor proposes, he said.

The process will take time, but there isn't much time left, he said.

Lawmakers running for office are focused on the Aug. 16 primary election and the November general election, Edgmon said.

"Every day that goes by gets that much more difficult to reconvene the Legislature and to get them refocused on a bill that heretofore we've not been able to find consensus on to pass both chambers," Edgmon said. "And so I think the clock is ticking very loudly right now, and the governor realizes that."

"I could tell you that if we don't get it done this special session, that I don't know that there will be another opportunity this year," he said.

Edgmon said more and more

lawmakers are calling for "a timeout and wait for the next administration to come in. And you know, the dust will have settled by then, hopefully."

Johnson said after the technical session that she came to hear the reading of the proclamation. But she's returning home to her Palmer district for the foreseeable future.

"Without a bill, I don't know that the Legislature has anything to do," Johnson said. "At this point it's up to the governor to bring forward to us what he is able to negotiate and wants to see us pass."

Senate President Gary Stevens, a Kodiak Republican, said in a text Monday that he spoke with Dunleavy the previous night.

"I believe his plan is to submit a bill to us at a later date," Stevens said. "We are anxious to see its contents."

Stevens, who last week described compromise legislation as "probably unlikely," said the Senate's current plan is to continue holding technical sessions until Aug. 10.

At that time, the full Senate could convene if the House passes a bill the Senate could accept, he said earlier this month.

Sen. Jesse Kiehl, a Juneau Democrat, led the Senate's technical session, and was the only member of the chamber present. He plans to continue leading the technical sessions in lieu of a proposal from the governor, he said. He lives in Juneau and does not collect a per diem for work at the Capitol, unlike most lawmakers.

"If the governor is open to solving some of the more overarching issues, you'll, I think, see the Legislature come back to work," he said in an interview after the technical session.

"If not, the governor has the power to waste time and money constitutionally," he said. "We're going to waste as little of it as we possibly can."

Special sessions can last up to 30 days. The third special legislative session on Alaska LNG is scheduled to end Aug. 25.

Daily News reporter Alex DeHaven reported from Anchorage and Matt Koenig reported from Juneau.

University of Alaska regents move to eliminate undergraduate out-of-state tuition rates

Pulp says the elimination of nonresident tuition will also reduce confusion for students from out of state, and reduce the administrative burden of charging increased rates. Pulp says 85% of nonresident students receive some form of waiver, which often leads to surprises when students receive their bill. The rate reduction would not apply to student fees.

The library has "no specific need at this time," according to the post, but is directing interested individuals to make donations through Anchorage Friends of the Library, the municipality's charitable nonprofit arm.

An image of Suicide Basin by Juneau's Mendenhall Glacier, timestamped at 9:02 a.m. Tuesday, shows the filled basin with an elevation indicating the elevation scale levels from prior years.

SOUTHEAST ALASKA

Juneau's Suicide Basin has released, marking the start of glacial outburst flooding

Mark Kanagay
Anchorage Daily News

JUNEAU — Juneau's glacial outburst flooding started Tuesday afternoon as Suicide Basin, the source of the annual floods, began releasing water, according to the National Weather Service.

Flooding around the Mendenhall Lake and Mendenhall River is expected Wednesday through Thursday, with a flood warning in effect until 4:30 a.m. Friday. The weather service said Tuesday afternoon that the river is likely to crest around 3 to 5 a.m. Thursday.

The glacial outburst event began hours after the basin reached full capacity Tuesday morning. The flood begins when water from Suicide Basin, which is dammed by the side of the Mendenhall Glacier, lifts part of the glacier, creating a channel underneath the ice that sends billions of gallons of water into the Mendenhall River. The river runs through the Mendenhall Valley, Juneau's largest residential area.

The City and Borough of Juneau on Tuesday advised residents in the Mendenhall Valley flood zone to evacuate starting Wednesday. The inundation zone this year encompasses approximately 1,800 residences.

Residents can monitor the situation through the city's Emergency Flood Response page and the National Weather Service's Suicide Basin monitoring page. Residents can also sign up for text alerts and enter

their address to see whether they are in the flood advisory evacuation zone.

Ryan O'Shaughnessy, Juneau's emergency programs manager, said once flooding peaks, water levels recede relatively quickly and evacuees can expect to return home 12-18 hours after the river crests.

"Folks don't need to evacuate for long before they can return home, and it absolutely is the safest way, the best way, to keep themselves, their neighbors, and first responders safe," O'Shaughnessy said at a Tuesday afternoon press conference.

The Floyd Dryden Gymnasium at 3800 Mendenhall Loop Road will serve as an emergency evacuation shelter.

The Mendenhall River's water level as of Tuesday morning was about 4 feet, below typical levels for early August.

For comparison, in 2025, an atmospheric river pushed the Mendenhall River to about 9 feet before the outburst flood began. Last year, Suicide Basin filled on Aug. 16. After the glacial dam burst, the Mendenhall River reached a record peak water level of 16.63 feet on Aug. 13, 2023.

The National Weather Service in Juneau is forecasting that the river this year will peak between 16.1 feet and 16.5 feet. The agency expected a full release from Suicide Basin, similar to last year, but the exact water remains unclear.

"We are in a little better starting

point now because of the drier weather we've seen in July and August. But I think overall, that doesn't contribute as much as how much (water) releases from the basin itself," senior meteorologist Dan Single said Tuesday morning.

The 2025 flood damaged about 50 homes. Flood impacts were mitigated in part by HESCO barriers — wire and fabric flood walls filled with sand — installed along parts of the river. This year, the city expanded its HESCO barrier system by about 30% and deployed pumps to evacuate water that breaches the barriers.

In 2024, the river's water level reached 15.98 feet and damaged nearly 300 homes. The city did not have HESCO barriers in place that year.

Officials have also warned residents to stay back from HESCO barriers during the flood. A video from last year shared by the City and Borough of Juneau depicts a tree swept downstream in the Mendenhall River striking and breaching a barrier.

Ken Murphy, safety officer for Juneau's GLOVE Unified Command, said first responders are preparing for swift-water rescues, as well as the flood itself.

"It's deceptive how swift water can carry you away. You can't swim in it. Water always wins when you fight against it. Never gamble your life against the flood," Murphy said.

ALASKA NEWS

Enstar making emergency repairs to broken gas pipeline near Whittier

Zac Hollander
Anchorage Daily News

Enstar Natural Gas crews are making emergency repairs to a pipeline with a gas leak below the Twentymile River that may result in an outage to the nearby community of Whittier, officials say.

The leak is in an 8-inch submerged pipe at a river crossing, according to Enstar spokesperson Lindsay Hobson. It's located about a half-mile from a popular Seward Highway boat launch south of Girdbrook.

A gas leak reported the smell of gas on Sunday and crews confirmed the leak that evening, Hobson said. A crew returned to the area Monday and confirmed "the extent of the issue," she said in a message Tuesday morning.

The line serves the community of Whittier. "Residents and businesses are encouraged to be aware of the situation and prepare for the possibility of a temporary interruption in natural gas service," city officials said in a social media post Monday.

Enstar operates 30 miles in Whittier — including one that serves the 14-story Begich Towers

condominium building where several hundred people live.

Enstar is repairing the line and working to confirm a plan to truck liquefied natural gas to Whittier from Fairbanks, Hobson said. The utility plans to shut down the pipe for repairs once the LNG trailer arrives, she said.

The LNG will be "regasified" into the system to serve the area affected by any outage, according to an update the utility issued to Whittier-area customers.

A gas leak reported the smell of gas on Sunday and crews confirmed the leak that evening, Hobson said. A crew returned to the area Monday and confirmed "the extent of the issue," she said in a message Tuesday morning.

The line serves the community of Whittier. "Residents and businesses are encouraged to be aware of the situation and prepare for the possibility of a temporary interruption in natural gas service," city officials said in a social media post Monday.

ANCHORAGE

Child hospitalized after East Anchorage crash has died

Anchorage Daily News

Police say a child who was critically injured in an East Anchorage crash last month has died.

The child, along with another juvenile inside the vehicle, was hospitalized with life-threatening injuries when a GMC Sierra driven by 23-year-old Kyle Hoogenboom struck a light pole at Northern Lights Boulevard and UAA Drive around 11 a.m. July 28, according to the Anchorage Police Department.

Hoogenboom, the juvenile's mother, was declared dead at the scene, police

have said. One of the children died at an Anchorage hospital on July 30, Anchorage police said in an updated statement.

Family members in social media posts after the crash described Hoogenboom as the 6-year-old girl's mother and the other child as her son.

Anchorage police spokesperson Gina Romero said the other injured child is a 1-year-old whose birthday is this month but didn't provide an update on their condition when asked.

CRIME & COURTS

California woman charged in Alaska seafood worker's fatal meth overdose

Zac Hollander
Anchorage Daily News

A 44-year-old California woman who sent methamphetamine to an Alaska seafood industry worker was arrested last week on federal felony charges associated with the worker's overdose death.

The worker died in February 2025 while working at the UniSea Corp. seafood processing plant in Dutch Harbor, according to filings in the case. The documents don't identify the person beyond their initials, though several references imply they were a man in his 40s.

Darlene Moreno was arrested last week on charges she shipped the methamphetamine involved in the overdose from California to Alaska in January 2025. Prosecutors, in a defense memo filed Aug. 7, expressed concern that Moreno might flee to Mexico from her home in Fort Huachuca.

Moreno had an initial court appearance and detention hearing in the Central District of California on Monday, according to Reagan Zimmerman-Hartstein, a spokesperson for the U.S. Attorney's

Office in Anchorage. A magistrate judge in California ordered her release but prosecutors in Alaska have appealed that order.

The magistrate has granted a 72-hour stay pending a decision from an Alaskan judge on the appeal, Zimmerman-Hartstein said.

Moreno remained in custody in California as of Tuesday.

She is accused of shipping a half-ounce of 98% pure methamphetamine to the worker in Unalakleet, according to the memo, which includes text messages between Moreno and the worker. Prosecutors say he picked up the package two days before he died. The two had known each other for some time, though Moreno doesn't appear to have any other connection to the state's justice system.

"Moreno knew that at the laundromat down the street from her home in California she could buy methamphetamine," states the state's motion appealing the release order. "Moreno took no care about the purity or what could have been mixed with the methamphetamine, all she cared about was the benefit to herself."

From January 2021 to June 2024, just over 31% of overdoses nationally were from methamphetamine and nearly 65% of the methamphetamine overdose deaths involved only methamphetamine, according to Centers for Disease Control and Prevention statistics included in the memo.

But most federal prosecutions do not involve the drug, making this case unusual.

Between 2019 and 2023, about 90% of overdoses associated with federal drug trafficking prosecutions involved opioids like heroin or fentanyl, according to a study last year by the U.S. Sentencing Commission. All other drugs, including methamphetamine and cocaine, were involved in only 9% of overdose prosecutions.

During the fatal overdose at the UniSea facility in Dutch Harbor, police were called to respond to a worker experiencing "drug related conditions," the federal detention memo states. The worker was confused but conscious, but complaining of chest pain and difficulty breathing, according to the memo. The worker died soon after.

Investigators said they found a baggie of meth on the worker's body.

The worker had only used a small portion of the half-ounce, or roughly 14-gram, shipment before they died, according to this week's memo. Investigators found more than 15 grams remaining in the baggie, meaning they had consumed less than 5 grams.

The State Medical Examiner Office ruled the cause of death to be methamphetamine intoxication.

Moreno was indicted last month by a federal grand jury on one count of distribution of methamphetamine resulting in death and two counts of using a communication facility in committing, causing and facilitating the commission of a drug trafficking felony.

Moreno told investigators during her arrest that she had been clean for months and was working full-time in Santa Barbara, California, according to the memo. She was cooperative.

Prosecutors say they found evidence that she continued to sell drugs from her home.

AMENDED AND RESTATED COMMERCIAL LEASE AGREEMENT

This AMENDED AND RESTATED COMMERCIAL LEASE AGREEMENT (the "Amended and Restated Lease" or "Agreement") is entered into and effective as of the 1 Day of June, 2026 (the "Effective Date"), by and between GLP,LLC, whose mailing address is P.O.Box 111846, Anchorage, AK 99511 ("Lessor") and New Guinness Inc. an Alaska Limited Liability Company, whose address is 18756 Price Island Cir., Eagle River, AK 99577 ("Tenant") (collectively the "Parties").

RECITALS

WHEREAS, Lessor is the owner of the real property located at 838 Bonanza Ave. Anchorage, Alaska 99518 (the "Premises" or the "Leased Premises");

WHEREAS, Lessor parties to that certain Commercial Lease Agreement, effective as of June 1 2026 as the same may be amended and/or modified

WHEREAS, Tenant desires to obtain a State of Alaska Marijuana Cultivation and manufacture License #4b-42249 #4a-42248 (the "License") and to lease the Premises from Lessor in order to operate a licensed manufacture and cultivation at the Premises;

WHEREAS, pursuant to the State of Alaska marijuana industry regulations, Tenant must have possession of the area to be designated as the licensed premises in order to operate a licensed marijuana Garden and concentrate in the state of Alaska, Tenant must demonstrate to the State of Alaska Alcohol and Marijuana Control Office (AMCO) that it will have such right of possession as of the effectuation of the New License;

WHEREAS, Lessor and Tenant intend for Tenant's possession of the Premises under this Amended and Restated Lease to commence upon the effectuation of the New License by AMCO;

WHEREAS, Tenant seeks to operate a licensed marijuana cultivation facility and manufacture within the Municipality of Anchorage, Alaska;

WHEREAS Tenant is aware that the cultivation, manufacturing, sale, and possession of marijuana remains generally prohibited under federal law despite the State of Alaska laws and regulations permitting such activities; and

WHEREAS, Lessor and Tenant agree that the use of the property as a marijuana facility or establishment requires strict compliance with state and local law and that any ambiguity in the terms of the Amended and Restated Lease must be interpreted to comply with applicable law and preserve the health and safety of occupants of neighboring properties and the public at large.

NOW, THEREFORE in consideration of the Recitals (which are incorporated into the Amended and Restated Lease), the mutual covenants and conditions contained in this Amended and Restated Lease, and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Lessor and Tenant hereby agree as follows:

1. PREMISES DESCRIPTION Lessor in consideration of the covenants and conditions herein, hereby leases to Tenant and Tenant hereby leases from Lessor an approximately 5240 square foot commercial building (the "Building"), with an address of 838 Bonanza Ave, Anchorage, Alaska, 99518, and situated on that parcel of real property containing approximately 5240 square feet the legal description of which is: Westgate Park L6 B7

2. TITLE AND RIGHT TO POSSESSION. Lessor covenants that it is lawfully seized of the Premises has full right and lawful authority to enter into this Agreement, and that the Property shall be delivered to Tenant free of encumbrances or adverse claims that would materially impair Tenant's intended use. Tenant shall have full access to the Premises and the right to enter and prepare for occupancy at its discretion upon the Commencement Date

3. TERM. The term of this Amended and Restated Lease shall be for a period of ten (10) years, commencing on the date of the approval of State of Alaska

Manufacturing License Number 4b-42249 Alaska Cultivation Marijuana License Number 4a-42248 of Guinness Inc (the "Commencement Date") by AMCO, provided that all conditions of the Assignment Agreement have been met, and expiring ten (10) years thereafter (the "Expiration Date") (and the period between the Commencement Date and Expiration Date shall be referred to as the "Term"). unless sooner terminated in accordance with this Amended and Restated Lease The Amended and Restated Lease may be renewed on terms agreed to in writing by the Parties Within ten (10) days of the Commencement Date the parties agree shall execute a Commencement Date Agreement in substantially the same form as Exhibit C attached hereto confirming the Commencement Date and Expiration Date of the Amended and Restated Lease

4. USE. Tenant shall use or permit the Premises to be used only for the purpose of operating a licensed manufacturing marijuana and cultivation facility and for necessary

related uses. Tenant's use shall be consistent with all covenants, conditions, occupancy

requirements,

and restrictions affecting the Building or the Property. Tenant shall not use or permit the use of the Premises for any other purposes without obtaining the prior written consent of Lessor, which consent may be given or withheld in Lessor's reasonable discretion

A. Tenant use of the Premises shall comply with all municipal, state, federal, and other governmental laws, statutes, ordinances, rules, and regulations, except federal laws inconsistent with Alaska Statute 17.38 or other state law governing the marijuana industry, whether they are of legislative, administrative, or judicial origin, including environmental laws and regulations and occupancy requirements specific to Tenant's use of the space and not the portion of the Premises for which Lessor is responsible to repair pursuant to the terms

hereof

B. Lessor and Tenant acknowledge and agree that (i) a portion of the Premises is utilized in connection with the retail sale of marijuana, which is permitted under Alaska law, but may be prohibited under federal law, and (ii) that any potential non compliance with federal law related to the retail sale of marijuana shall not be deemed a breach of this Amended and Restated Lease

C. Hazardous Substances. Tenant shall not cause or permit the release or disposal of any hazardous substances wastes or materials, on or about the Premises and Tenant shall be solely responsible for and shall promptly pay the cost of removing all such hazardous substances wastes and materials in accordance with all applicable governmental requirements. Hazardous substances wastes or materials shall include those which are defined in the Comprehensive Environmental Response, Compensation and Liability Act of 1980, as amended 42 U.S.C. § 9601, et seq.; the Resource Conservation and Recovery Act, as mentioned, 42 U.S.C. § 6901, et seq.; the Toxic Substances Control Act, as amended, 15 U.S.C. § 2601, et seq. Tenant shall comply with all rules and policies set by Lessor, and with all federal, state and local laws regulations, and ordinances which govern the use, storage, handling, and disposal of hazardous substances, wastes, or materials. Tenant shall indemnify, defend, and hold Lessor, its affiliates members, directors officers employees contractors, agents successors, and assigns harmless from and against all claims for liability and damages (including attorney's fees and actual litigation costs) directly or indirectly arising out of or connected with (i) the use, generation, manufacture, production, storage, release, threatened release discharge, disposal or presence of a hazardous substance; waste or material on, under, or about the Premises (or off the Premises which affects Lessor or the Premises) caused by or attributable to Tenant, or (ii) a breach by Tenant of any representation, warranty, covenant, or agreement contained in this Amended and Restated Lease which terms shall survive the expiration or sooner termination of this Amended and Restated Lease. This indemnity shall cover, without limitation, (i) all foreseeable consequential damages caused by or attributable to Tenant, and (ii) the costs of any required or necessary repairs, cleanup, remediation, or detoxification of the Premises caused by or attributable to Tenant.

D. Subordination. Tenant will not use or allow the use of the Premises in a manner offensive or objectionable, in the reasonable judgment

of Lessor, to neighboring tenants or to Lessor. Tenant shall not permit smoking or vaping of

any kind in on or at the Premises at any time. No use shall be made of the Premises or act done in or about the Premises, which will cause cancellation of or increase the existing rate for any fire insurance policy covering the Premises, or any part thereof. Tenant shall not place locks other than those provided by Lessor on any doors or change existing locks without Lessor's prior written consent. Tenant shall not alter the electrical or plumbing systems or install any special wiring or abnormal power consuming equipment without Lessor's prior written consent. Tenant shall not enter into any contract for maintenance, repair, or cleaning that is to be done at Lessor's expense

without Lessor's prior written consent. Tenant shall not overload electrical circuits or use electricity in any manner, which would create an electrical shock or fire hazard

5. PERMITS AND LICENSES. Tenant shall be responsible, at its sole expense, for obtaining all necessary certificates, licenses and permits required for its lawful operation at, and use of, the Property. Lessor agrees to cooperate and refrain from opposing any application for such certificates, licenses, and permits by Tenant, provided such use is permitted under Section 4 of this Amended and Restated Lease and Tenant is not in default.

6. RENT Tenant covenants and agrees to pay Lessor as the initial monthly rent the amount of Ten Thousand and 00/100 Dollars (\$10,000.00) in lawful money of the United States in advance of the Commencement Date and thereafter on or before the first day of each calendar month without notice, demand, setoff, or deduction. Tenant shall pay the rent to Lessor at the address set forth in the opening paragraph of this Amended and Restated Lease or to such other place or in such other manner as Lessor may hereafter designate in writing. Lessor shall pay the pro rated amount of rent for any partial month during the Initial Term or subsequent Term.

A. Rent is calculated at \$0.60 per square foot, and shall be as follows:

(1) Year 1:

\$10,000 (2) Year

2: \$10,000

(3) Year 3:

\$10,000

(4) Year 4:

\$10,000

(5) Year 5:

\$10,000

7. INITIAL RENT PAYMENT AND SECURITY DEPOSIT.

A. No later than June 1 2026 and in any event at least 30 days prior to the Commencement Date Tenant shall deposit with Lessor an initial rent payment of \$10,000.00, representing rent payments for the first and final month of the Term. The first month's rent of \$10,000.00 shall be applied to the first month following the Commencement Date. In the event the first month is a partial month, rent for the first month shall be calculated pro rata and the balance applied to the rent amount due for the second month. The final month's rent of \$10,000.00 shall be applied to the last month of the Term.

B. No later than June 1 2026 and in any event at least 30 days prior to the Commencement Date Tenant shall deposit with Lessor the sum of 10,000.00 (the "Security Deposit"), which shall serve as security for the full performance of the responsibilities, covenants, and agreements under this Amended and Restated Lease by Tenant.

C. If Tenant is in default, Lessor may, but is not required to, use the Security Deposit or any portion of it to cure the default or to compensate Lessor for any damage (including Lessor's own expenses) sustained by Lessor resulting from Tenant's default. Upon demand, Tenant shall then immediately pay to Lessor a sum equal to the portion of the Security Deposit expended or applied by Lessor so as to restore the Security Deposit to the amount initially held by Lessor for that purpose. If Tenant is not in default at the expiration or termination of this Amended and Restated Lease, Lessor shall return the balance of the Security Deposit to Tenant within thirty (30) days of surrender of the Premises to Lessor.

D. Lessor's obligations with respect to the Initial Rent Payment and Security Deposit are those of a debtor and not a trustee, and Lessor can commingle the Initial Rent Payment and Security Deposit with Lessor's general funds. Lessor shall not be required to pay Tenant interest on the Initial Rent Payment or Security Deposit.

E. Tenant may not assign or encumber the money deposited as security, and Lessor shall not be bound by any such assignments or encumbrances.

8. LATE FEES. If rent is not paid in full within five (5) days after the due date, an additional late charge of five percent (5%) of the unpaid amount or \$250, whichever is greater, shall be assessed by Lessor per month, and paid by Tenant. If the Tenant is late in paying rent more than two (2) times, the late charge increases to the greater of six percent (6%) of the unpaid amount or \$300. Lessor's acceptance of late payments, or failure to enforce a default shall not be considered a waiver of any subsequent default. Tenant further agrees to pay Fifty and 00/100 Dollars (\$50.00) for each dishonored bank check (NSF) or failed transfer of funds. If two (2) NSF checks or failed transactions are presented or occur during tenancy, guaranteed funds will be required by money order or cashier check only.

9. TAXES.

A. Real Property Taxes and Assessments. Lessor shall pay all real property taxes and assessments levied against the Premises during the Term of the Amended and Restated Lease or any extension thereof.

B. Personal Property Taxes. Tenant shall pay, prior to delinquency, all taxes assessed against and levied upon trade fixtures, furnishings, equipment, and all other business or personal property of Tenant contained in, or used in connection with, the Premises or elsewhere

C. New Taxes. Should a tax on rental income or a tax on property and improvements be adopted or modified during the Term of this Amended and Restated Lease or any renewal term Tenant shall pay Lessor as additional rent an amount equal to said tax as it may apply to rent paid by Tenant under this Amended

and Restated Lease. Said additional rent is to be paid promptly within ten (10) days after proper evidence of the payment of said tax has been submitted to Tenant

10. ACCEPTANCE OF PREMISES BY TENANT. Tenant has inspected the Premises as of the Effective Date. Tenant accepts the Premises in its current "as is" condition and configuration as of the Effective Date. Tenant acknowledges and agrees that the Premises are in good order and satisfactory condition, and that there are no representations or warranties by Lessor of any kind regarding the condition of the Premises not set forth in the Amended and Restated Lease. Tenant acknowledges that it assumes responsibility for any existing conditions of the Premises and will be responsible for any damage discovered or repairs needed from the Commencement Date onward

11. NUISANCE PROHIBITED. Tenant shall not do nor permit anything to be done in, on or about the Premises which would in any way obstruct or interfere with the rights of other tenants or occupants of the Building, or use or allow the Premises to be used for any immoral or unlawful purpose, nor shall Tenant maintain or permit any nuisance or commit or suffer to be committed any waste, damage, or injury in, on, or about the Premises

12. UTILITIES AND SERVICE CHARGES.

A. Tenant's Responsibility. Tenant shall be solely responsible for and shall promptly pay when due all expenses of all utilities, including but not limited to electricity, natural gas, telephone, high-speed internet, water, sewer, waste removal, and janitorial. Tenant is responsible for all cost and expenses for heating or cooling the Leased Premises whether such is electrical or otherwise and for assuring that the fuel or power required for such services are properly and safely delivered to the Premises at all times. More generally, all other expenses which are incurred from day to day in connection with Tenant's use or occupancy of the Leased Premises shall be promptly paid by Tenant. Without limiting the generality of the foregoing, Tenant shall place all utilities that service the Premises in Tenant's name and for which Tenant shall be responsible and liable to the applicable provider for the payment of all services provided, and agrees herein to indemnify and hold Lessor harmless therefrom

13. MAINTENANCE AND REPAIRS.

A. Lessor's Maintenance. Lessor shall keep in good order, condition and

C. Parking The parking area at the Premises will be exclusively for Tenant's use. Any and all vehicles parked in the parking areas shall be fully operational and parked in a manner that does not impede vehicle access completely around the structure of the facility, and provided such vehicles shall not impede access to the Property by emergency vehicles, access to Fire Department connections or the sprinkler systems. Any non-functioning vehicle(s) or equipment shall be promptly removed by Tenant

D. Smoke Detectors. The parties acknowledge that the Building contains smoke detector devices in compliance with the laws of the State of Alaska and that the detectors are in working order as of the Effective Date. Tenant is responsible to confirm the working order of the smoke detectors as of the Commencement Date and agrees to maintain the smoke detectors in good working order during the Term of this Amended and Restated Lease

14. IMPROVEMENTS AND ALTERATIONS. Tenant may not make any changes, additions alterations improvements, or additions to the Premises or attach or affix any articles thereto without Lessor's prior written consent which shall not be unreasonably withheld. All alterations, improvements, and additions to the Premises shall

be done only by contractors or mechanics approved by Lessor, shall be at Tenant's sole expense and at such times and in such manner as Lessor may approve. At the expiration or earlier termination of the Amended and Restated Lease, all improvements to the Property constructed or installed by Tenant shall remain the property of Tenant,

regardless of whether such improvements are attached or affixed to the Property. Tenant, upon termination or expiration of this Amended and Restated Lease, shall remove all improvements, fixtures and personal property constructed or installed on the Premises by Tenant and restore the Premises to its original above grade condition, reasonable wear and tear excepted. If such removal causes Tenant to remain on the Premises after Expiration Date or termination date of this Agreement, Tenant shall pay rent at one hundred fifty percent (150%) of the monthly rate in effect immediately prior to the termination date until such time as the removal is complete. Rent for the final month of removal shall be calculated pro-rata should Tenant require less than a 30-day period to complete the removal. Should Tenant fail

repair the foundation, structural supports, exterior roof, exterior walls, plumbing HVAC systems and related controls of the Building; provided, however, that Lessor shall have no obligation to repair any defective condition or damage, nor shall any defense or remedy be available to Tenant where the defective condition or damage was caused, in whole or in part by Tenant. Tenant's family, invitees, licensees, affiliates, employees, contractors, or other person acting under the direction or control of Tenant or where

Tenant unreasonably fails to notify the Lessor of the condition or allow the Lessor access to the premises for purposes of repair. Lessor shall not be liable for any damage to any Tenant property at any time in or about the Premises or in the Building from water, rain, or snow which may leak into, issue or fall from any part of the Building from the pipes or plumbing, or any other place except to the extent caused solely by Lessor's or its agent's negligence or willful conduct.

B. Tenant's Maintenance Tenant, at its own cost and expense, will keep the Premises in neat, clean, safe, and tenantable condition, and otherwise in as good order, condition and repair as they are as of the Commencement Date of this Amended and Restated Lease (normal wear and tear excepted) and shall be responsible for snow plowing and removal for the Premises (including removal from the roof of the Building) sanding the parking lot, and shall keep the sidewalks in front of the Premises and all parking areas and walkways free of snow, ice and debris and in a safe condition. In addition, and except as to those matters reserved to the Lessor as provided in Section 13(A), Tenant at Tenant's own cost and expense, shall maintain the Premises, including, but not limited to, landscaping, glass, doors, wall coverings, floors interior lighting, equipment and fixtures within the leased space, the ceiling, and any other matter or thing in good repair and condition, except for ordinary wear and tear, and shall make all repairs and replacements and perform all maintenance necessary to keep the Premises in such condition and in compliance with all applicable occupancy requirements. If Tenant fails to do so or fails to reasonably commence to do so after fifteen (15) days written notice (twenty-four (24) hours with respect to occupancy requirements), Lessor shall in addition to other remedies, have the right to repair any such damage and Tenant shall pay Lessor for the cost of all such repairs. Tenant shall be responsible to repair, at Tenant's sole cost and expense, any damage to the Premises or Tenant's personal property, which is caused by Tenant, its employees contractors, customers and/or invitees

to remove property, fixtures, or improvements, Tenant shall be responsible for the cost of removing said property, fixtures, or improvements and shall indemnify and hold Lessor harmless from such costs which obligation shall survive the expiration or earlier termination of this Amended and Restated Lease. If such removal is not completed within 90 days any remaining property, fixtures, or improvements shall be deemed abandoned and subject to the abandoned property provisions of Section 27 of this Amended and Restated Lease.

15. SIGNS Tenant is permitted to install signage on the side or front of the Building at Tenant's expense. However, all signs placed on the Premises or Building by Tenant shall be pre-approved by Lessor, which approval shall not be unreasonably withheld and shall be installed in compliance with applicable state and municipal requirements. Lessor has approved the installation of any signs existing at the Premises as of the Effective Date of this Amended and Restated Lease. Tenant shall remove all signs so placed at the termination of its tenancy and repair any damage or injury to the Premises or Building caused thereby, and if not so removed by Tenant, then Lessor shall have the right to have the signs removed and the Premises and Building repaired at Tenant's cost. Notwithstanding the foregoing, Lessor approves the existing signage installed by Prior Tenant.

16. MECHANIC'S LIENS. Tenant will not permit any mechanic's, laborer's, material supplier's or any other liens against the Premises for any labor, materials, or services furnished to Tenant or claimed to have been furnished to Tenant or Tenant's agents, contractors, or subtenants in connection with work, materials, or services of any character performed or provided or claimed to have been performed or provided by or at the direction of Tenant; provided, however, Tenant shall have the right to contest the validity or amount of any such lien or claimed lien. Tenant agrees to indemnify, defend, and hold harmless Lessor from all such liens.

17. ACCESS TO PROPERTY. Lessor and its authorized representatives shall have the right to enter the Premises with forty-eight (48) hours prior notice to Tenant to: (i) inspect the Premises; (ii) perform required maintenance and repairs; (iii) serve, post, or keep posted any notices required or allowed under the provisions of this Amended and

Restated Lease; and (iv) during the last three (3) months of the Amended and

Restated Lease to show the Premises to prospective tenants

A. Lessor acknowledges that, because the Premises is being utilized by Tenant as a licensed marijuana establishment, applicable laws and regulations require that a Tenant representative be present to serve as an escort to Lessor and Lessor's agents during any entry and that Lessor will comply with Tenant's visitor policies If Tenant

is not personally present to permit entry, cannot be reached, or does not provide access, and an entry is necessary or permissible, Lessor shall contact the State of Alaska Alcohol and Marijuana Control Office, or other relevant government authority prior to any access of the Premises. Acting under guidance and direction received therefrom Lessor may enter the same by master key or may forcibly enter the same without rendering Lessor liable therefore. Nothing contained herein shall be construed to impose upon Lessor any duty of repair of the building except as specifically provided for herein.

18. DEFAULT The occurrence of any of the following shall constitute a default ("Default") by Tenant and a breach of this Amended and Restated Lease:

A. Failure to Pay Rent. The failure to make payment when due of any installment of the monthly rent or of any other sum herein specified to be paid by Tenant, if such default shall not be cured within ten (10) days after written notice has been given to Tenant, shall be a Default.

B. Failure to Perform Covenants The failure to observe or perform any of Tenant's other covenants, agreements, or obligations hereunder, other than for the payment of rent, if any such default shall not be cured within thirty (30) days after written notice has been given to Tenant, shall be a Default. In the Lessor's sole discretion, Tenant may be afforded a reasonable period of time to cure the Default provided that Tenant

promptly commences curing the Default after the notice and prosecutes the cure to completion with due diligence.

C. Bankruptcy and other Matters. The making by Tenant of any general assignment for the benefit of creditors; the filing by or against Tenant of a petition to have Tenant adjudged bankrupt or the filing of a petition for reorganization or arrangement under any law relating to bankruptcy (unless, in the case of a petition filed against Tenant, the same is dismissed within sixty (60) days); the

appointment of a trustee or receiver to take possession of substantially all of Tenant's assets located at the Premises or of Tenant's interest in this Amended and Restated Lease, where possession is not restored to Tenant within thirty (30) days; the dissolution or commencement of any action or proceeding for the dissolution or liquidation of Tenant, whether instituted by or against Tenant; or the attachment, execution, or other judicial seizure of substantially all of the Tenant's assets located at the Premises or of Tenant's interest in this Amended and Restated Lease, where such seizure is not discharged within thirty (30) days; or

D. Abandonment of the Premises. Abandonment shall occur if Tenant leaves the Premises vacant or does not operate at the Premises for a period of fourteen (14) days or more without the prior written consent of Lessor

19. LESSOR'S REMEDIES ON DEFAULT. In the event of Tenant's Default Lessor may exercise one or more of the following remedies, in addition to all other rights and remedies available at law or in equity whether or not stated in the Amended and Restated Lease

A. Lessor may continue this Amended and Restated Lease in full force and effect and shall have the right to collect rent when due. During the period Tenant is in default, Lessor may re-enter the Premises with or without legal process and relet them, or any part of them, to third parties for Tenant's account, and Tenant hereby expressly waives any and all claims for damages by reason of such re-entry. Tenant shall be liable immediately to Lessor for all reasonable costs Lessor incurs in reletting the Premises, including, without limitation, brokers commissions, reasonable expenses of remodeling the Premises required by the reletting, attorneys fees and costs, and like costs. Reletting can be for a period shorter or longer than the remaining Term of this Amended and Restated Lease and in no event shall Lessor be under any obligation to relet the Premises. On the dates such rent is due, Tenant shall pay to Lessor a sum equal to the rent due under this Amended and Restated Lease less the rent Lessor receives from any reletting. No act by Lessor allowed by this Section shall terminate the Amended and Restated Lease unless Lessor notifies Tenant in writing that Lessor elects to terminate the Amended and Restated Lease

B. Lessor may accelerate all rent and other charges due for the entire remaining Lease Term and Tenant shall pay the total accelerated amount within ten (10) days of Lessor's written notice of acceleration

C. Lessor may terminate the Amended and Restated Lease and Tenant's right of possession at any time following Tenant's Default. Upon termination, Lessor shall have the right to collect an amount equal to: (i) all reasonable expenses incurred by Lessor in recovering possession of the Premises including reasonable attorneys' fees and costs; (ii) all reasonable costs and charges for the care of the Premises while vacant; (iii) all reasonable renovation costs incurred in connection with the preparation of the Premises for a new tenant; (iv) all past due rent which is unpaid, plus any late fee then due; and (v) an amount by which the entire rent for the remainder of the Term exceeds the loss of rent that Tenant proves could have been reasonably avoided by Lessor. All sums due and to become due under this Amended and Restated Lease if unpaid when due, shall bear interest at the rate of ten percent (10%) per annum from and after the date upon which the same shall have come due and payable until paid in full.

D. In the event of Lessor's termination of the Amended and Restated Lease and Tenant's right of possession, Tenant agrees to immediately surrender possession of the Premises without any further notice or demand to quit and grants Lessor full and free entrance and access to the Premises. Notwithstanding the foregoing, Lessor shall not take into its possession or remove any marijuana or

marijuana product remaining on the Premises following to Lessor's termination or termination of Tenant's possession. If Tenant fails to remove marijuana or marijuana products from the Premises prior to such events, Lessor shall contact the State of Alaska Alcohol and Marijuana

Control Office, or other appropriate authority, for instructions regarding removal of such abandoned property.

E. Lessor may avail itself of these as well as any other remedies or damages allowed by law. All rights, options, and remedies of Lessor provided herein or elsewhere by law or in equity shall be deemed cumulative and not exclusive of one another.

21. LESSOR MAY CURE DEFAULTS. In the event of any breach hereunder by Tenant, Lessor may, on reasonable notice to Tenant, cure such breach at the sole cost and expense of Tenant. If Lessor, at any time, by reason of such breach is compelled to pay or elects to pay any sums of money or do any act which will require the payment of any sum of money, or is compelled to do so, then any expense, including reasonable attorneys' fees instituting, prosecuting and/or defending any action or proceeding to enforce the Lessor's rights hereunder or otherwise, the sum or sums so paid by Lessor, with all interest costs, and damages, shall be deemed to be additional rent hereunder and shall be due from Tenant to Lessor on the first day of the month following Lessor's incurring of such respective expenses.

22. NONWAIVER OF BREACH. The failure of Lessor to insist upon strict performance of any of the covenants and agreements of the Amended and Restated Lease or to exercise any option herein conferred in any one or more instances shall not be construed to be a waiver or relinquishment of any such breach, or any other covenants or agreements, and the same shall remain in full force and effect. No

delay or omission in the exercise of any right or remedy of Lessor on any Default by Tenant shall impair such right or remedy or be construed as a waiver.

23. REMOVAL OF PROPERTY In the event of any entry in or taking possession of the Premises, Lessor shall have the right, but not the obligation, to remove from the Premises all personal property located therein and may store the same in any place selected by Lessor, including, but not limited to a public warehouse at the expense and risk of the owners thereof and Lessor shall have the right to sell such stored property without notice to Tenant after it has been stored for a period of thirty (30) days or more, the proceeds of such sale to be applied first to the cost of such sale; second to the payment of the charges for storage, if any; third to the payment of any other sums of money which may then be due from Tenant to Lessor under any of the terms hereof, and the balance, if any, to be paid to Tenant. Lessor's rights to sell the personal property shall survive the expiration or termination of this Amended and Restated Lease

A. Any marijuana, as defined by AS 17.38, left on the premises at the termination of this Amended and Restated Lease or after notice to quit or when Lessor has the right of reentry, will be considered forfeited by Tenant. Under no circumstances

shall Lessor take possession of any such marijuana. In case of such event, Lessor shall contact the State of Alaska Alcohol and Marijuana Control Office, or other appropriate authority, for instructions regarding removal of the marijuana. Lessor shall then, without liability for loss thereof or damage thereto, transfer the marijuana to state or local law

enforcement authorities or otherwise dispose of the marijuana pursuant to instructions from the relevant authority.

24. TENANT'S RIGHT TO EARLY TERMINATION. Tenant may terminate this Amended and Restated Lease prior to the expiration of the Term by providing (1) written notice to be received by Landlord at least ninety (90) days prior to the date of early termination which notice shall set forth the date for early termination; and concurrently therewith (2) tender a lump sum payment equal to the lesser of: (a) twelve (12) months of rent, or (b) rent due for the remainder of the Amended and Restated Lease Term. The lump sum payment is in addition to any rent due from the date of Tenant's notice through and including the date of early termination

which is set forth in the Tenant's notice.

25. INDEMNITY AND INSURANCE.

A. Indemnity. Tenant shall indemnify, defend and hold Lessor, its officers, members, agents, employees, other tenants, and invitees harmless from and against all claims and liability of any nature or kind including reasonable attorney fees and costs arising from any act, omission, neglect, breach, or nonperformance of any provision of the Amended and Restated Lease (including without limitation any environmental provisions), or use of the Premises by Tenant or its officers, directors, shareholders, agents, employees, customers, and invitees. Tenant shall assume all insurable risks and bear any loss or injury to property or persons occasioned by neglect or accident on the Premises during the Term of this Amended and Restated Lease, except that Tenant shall not be liable to Lessor for damages resulting solely from Lessor's negligent acts or omissions

B. Tenant Insurance. Tenant agrees at all times during the Term of this Amended and Restated Lease at its own expense to maintain:

1. comprehensive general public liability insurance with limits for property damage claims of not less than \$1,000,000 and limits for personal injury or death not less than \$1,000,000 per person and \$2,000,000

per occurrence;

2. Property insurance covering Tenant's improvements and personal property located at the Property, for full replacement cost, against fire and other perils commonly covered under "all risk" policies

3. such additional insurance and additional types of coverage as Lessor may reasonably request from time to time

The policies of insurance shall be with companies approved by Lessor, which approval shall not to be unreasonably withheld, and certificates of insurance shall be provided to Lessor prior to Tenant's occupation of the Premises, and thereafter annually and upon any demand of Lessor. Tenant shall name Lessor as an additional insured on liability and property policies. Tenant's certificate of insurance shall further state that the insurer shall not cancel Tenant's coverage upon less than thirty (30)

days written notice to Lessor.

C. Lessor Insurance. Lessor agrees to keep the premises insured against loss and damage by fire and extended coverage risk. The landlord shall not be required to carry insurance on Tenant's property, trade fixtures, furnishings, equipment, and other items of personal property of Tenant. Tenant acknowledges and agrees that it is required to obtain appropriate insurance for its personal property.

D. Tenant Covenants Regarding Insurance. Tenant covenants and agrees that during the Term of this Amended and Restated Lease, it will not conduct or allow to be conducted on the Premises any business or occupation or activity whatsoever that would jeopardize the insurance carried by Lessor covering the Property or that would increase in any way the premiums to be paid on the insurance covering the Property. Any increase(s) in Lessor's insurance premiums caused by Tenant's conduct or use shall be paid by Tenant.

E. Limitation on Lessor Liability. Lessor and its members, officers, agents and employees shall not be liable to Tenant for any damage to property entrusted to employees of Lessor, nor for loss of or damage to any property by theft or otherwise nor for any injury or damage to persons or property resulting from earthquake, vandalism, fire, explosion, falling plaster, steam, gas, electricity, water, or rain which may leak from any part of the building or from the pipes, appliances, or plumbing works therein or from the roof, street, or subsurface, or from any other place or resulting from dampness or any other cause whatsoever, unless caused by the negligence of Lessor, its agents, servants, or employees. Tenant shall give prompt notice to Lessor in case of fire or accidents in the Premises or in the building or of defects therein or in the fixtures or equipment. Lessor, upon such notice, agrees to take reasonable steps to correct such defects that are the Lessor's responsibility to correct. Tenant hereby acknowledges that Lessor shall not be liable for any interruption to Tenant's business for any cause whatsoever, and that Tenant shall obtain business interruption insurance coverage should Tenant desire to provide coverage for such risk.

26. Waiver of Subrogation. Lessor and Tenant and all parties claiming under them hereby mutually release and discharge each other from all claims and liabilities arising from or caused by any hazard or casualty covered by insurance on the Premises or covered by insurance in connection with property on or activities conducted in or on the Premises regardless of the cause of the damage or loss.

27. COVENANT TO SURRENDER AND REMOVAL OF PERSONAL PROPERTY. On the

Expiration Date or termination date of the Amended and Restated Lease, Tenant shall peaceably and quietly leave, surrender, and yield to Lessor the Premises, broom clean, in good order and repair, ordinary wear and tear excepted, together with all alterations, additions, and improvements which may have been made

on the Premises except as otherwise provided in this Amended and Restated Lease. If the last day of the Term of this Amended and Restated Lease falls on Sunday, this Amended and Restated Lease shall expire on the business day immediately preceding it. Tenant on or before said date, shall remove all property from the Premises, and all property not so removed shall be deemed abandoned by Tenant, and may be appropriated, sold, destroyed or otherwise disposed of by Lessor without notice to Tenant and without

obligation to account therefore. Tenant shall reimburse Lessor for all reasonable expenses incurred in connection with the disposition of such personal property. Lessor, upon presentation of evidence of a third party's claim of ownership or security interest in any such abandoned property, may turn over such property to the third-party claimant without any liability to Tenant. If the Premises are not surrendered at the end of the Term, Tenant shall immediately indemnify Lessor against loss or liability resulting from delay by Tenant in surrendering the Premises including any claims made by any succeeding tenant founded on such delay.

A. Notwithstanding anything to the contrary in this Agreement, under no circumstances shall Lessor take into its possession or remove any abandoned marijuana or marijuana product. If Tenant fails to remove marijuana or marijuana products from the Premises, Lessor shall contact the State of Alaska Alcohol and Marijuana Control Office, or other appropriate authority, for instructions regarding removal of such abandoned property.

28. DAMAGE OR DESTRUCTION. In case of damage to the Premises by fire or other casualty, Lessor, unless it shall otherwise elect as hereinafter provided, shall repair the damage with reasonable dispatch after written notice of the damage. If the Premises, or any part thereof, are damaged by fire or other casualty to such an extent as to be rendered untenable, then the rent shall be abated to an extent corresponding with the part untenable and for a period corresponding with the period during which such untenability exists. Notwithstanding anything to the contrary in this lease, if repairs or damage of the Premises is caused by carelessness or negligence or conduct on the part of Tenant, its employees and/or invitees, then in addition to being liable for such damage and/or repairs, Tenant shall also be liable for the rent during the unexpired period of the Term of the Amended and Restated Lease without abatement, unless Lessor elects to terminate this Amended and

Restated Lease, which right of termination in such contingency is hereby reserved to Lessor. If Lessor, in its sole discretion shall decide, within a reasonable time after the occurrence of any such fire or other casualty (even though the Premises may not have been affected by such fire or casualty) to demolish or reconstruct the Building, then, upon written notice given by Lessor to Tenant this Amended and Restated Lease shall terminate on a date to be specified in such notice as if that date had been originally fixed as the expiration date of the Term of this Amended and Restated Lease, and the rent shall be adjusted as of the date of the occurrence of any such fire or other casualty. Unless Lessor shall have repaired such damage within ninety (90) days, this Amended and Restated Lease shall terminate upon written notice given by Tenant to Lessor that this Amended and Restated Lease shall terminate on the date to be specified in such notice as if that date had been originally fixed as the expiration date of the Term of this Amended and Restated Lease. Tenant shall give immediate notice to Lessor in case of fire or in the event of accidents or defects in any fixtures or equipment of the Building.

29. CONDEMNATION. If the whole of the Premises shall be taken by any public authority under the power of eminent domain, then the Term of this Amended and Restated Lease and Tenant's obligation to pay rent shall cease as of the day possession is taken by such public authority. If a part of the Premises shall be taken under eminent

domain and the remainder of the Premises not so taken can be made tenantable for the purpose for which Tenant has been using the Premises, then this Amended and Restated Lease shall continue in full force and effect as to the remainder of such Premises and all terms herein provided shall continue in effect except that the rent shall be reduced in proportion to the amount of the Premises taken, and Lessor, at its cost and expense, shall make all necessary repairs and alterations to the Premises required by such taking in order to make the remaining portion thereof tenantable. All damages awarded for the taking of the Premises shall belong to and be the property of Lessor, except that this provision shall not prevent Tenant from asserting a claim in any condemnation proceedings for the value of any fixtures or improvements installed in or made to the Premises or any losses of revenue or profits moving and relocation expenses, and other expenses arising as a result of such condemnation

30. SUBORDINATION AND ATTORNMENT. Tenant accepts this Amended and Restated Lease subject and subordinate to any deed of trust or other mortgage now or hereafter a lien upon or affecting the Property and Building of which the Premises are a part Tenant shall within a reasonable time after requested, on

request, execute any Estoppel Certificates, instruments, releases, or other documents that may be required by any beneficiary or mortgagee under any such deed of trust or mortgage for the purpose of subjecting and subordinating this Amended and Restated Lease to the lien or any such deed of trust or mortgage, and the failure of Tenant to execute any such instruments releases or documents shall constitute a default Tenant shall in the event of the sale or assignment of Lessor's interest in the Building of which the Premises form a part or in the event of any proceedings brought for the foreclosure of, or in the event of exercise of the power of sale under any mortgage or deed of trust made by Lessor covering the Premises attorn to the purchaser and recognize such purchaser as Lessor under this Amended and Restated Lease.

31. EFFECT OF CONVEYANCE. The term "Lessor" as used in this Amended and Restated Lease means only the owner of the Property containing the Premises so that in the event of any sale of said Property Lessor shall be and hereby is entirely freed and relieved of all covenants and obligations of Lessor hereunder and it shall be deemed and construed without further agreement between the parties, or between the parties and the purchaser at any such sale or the Tenant of the Premises, that the purchaser of the Property has assumed and agreed to carry out any and all covenants of Lessor hereunder.

32. FORCE MAJEURE Except for the payment of rent or additional rent, if either party shall be delayed or prevented from the performance of any act required by reason of acts of God strikes, lockouts, labor troubles, inability to procure materials or other cause without fault and beyond the control of such party, performance of such act shall be excused for a period equivalent to the period of such delay. For purposes of clarity, and avoidance of doubt no Force Majeure event shall excuse the prompt and timely payment of any rent or additional rent due under this Amended and Restated Lease

33. HOLDOVER. If Tenant fails to surrender the Premises at the expiration or earlier termination of the Amended and Restated Lease, occupancy of the Premises after

the termination or expiration shall be that of a tenancy at sufferance. Tenant's occupancy of the Premises during the holdover shall be subject to all of the terms and provisions of this Amended and Restated Lease and Tenant shall pay on a per

month basis (without reduction for partial months during the holdover) as rent an amount equal to one hundred fifty percent (150%) of the amount in effect immediately prior to the expiration of this Amended and Restated Lease. No holdover by Tenant or payment by Tenant after the expiration or sooner termination of this Amended and Restated Lease shall be construed to extend the Term or prevent Lessor from immediate recovery of possession of the Premises by summary proceedings or otherwise.

34. COVENANT OF QUIET ENJOYMENT. If and as long as Tenant pays the rent as provided in this Amended and Restated Lease and performs Tenant's covenants and conditions, Tenant shall be entitled to quietly enjoy the Premises

35. ASSIGNMENT AND SUBLETTING. Tenant shall not assign, transfer, or encumber this Amended and Restated Lease, in whole or in part, or sublet the Premises or any part thereof, or permit the Premises or any part thereof to be used or occupied by any person, corporation, partnership, or other entity, without Lessor's prior written consent, which may be withheld in Lessor's sole discretion. A transfer of stock control in Tenant, if Tenant is a corporation, or the transfer of a greater than forty-nine percent (49%) beneficial ownership interest in Tenant, if Tenant is a partnership or other entity, shall be deemed an act of assignment hereunder. Any sale, assignment, mortgage, transfer, or subletting of this Amended and Restated Lease or the Premises which is not in compliance with provisions of this Section 35 shall be voidable at any time at Lessor's option. The consent by Lessor to any assignment or subletting shall not be construed as relieving Tenant from obtaining the express prior written consent of Lessor to any further assignment or subletting or as releasing Tenant from any liability or obligation hereunder, whether or not then accrued. In the event of any assignment or subletting approved by Lessor, such approval shall not relieve Tenant of any obligations under the Amended and Restated Lease. The approved assignee or subtenant shall assume all of Tenant's obligations under this Amended and Restated Lease and shall be bound to comply with all the terms and provisions of the Amended and Restated Lease and Tenant and such assignee or sub-Tenant shall be jointly and severally liable for the performance of Tenant's covenants under this Amended and Restated Lease

36. TERMINATION OF PRIOR LEASE AGREEMENT. The parties acknowledge and agree that as of the Commencement Date, the Prior Tenant's right to possession of the Premises under the Lease is terminated, and the Lease is of no force or effect except for Prior Tenant's continuing obligation to pay rent and perform its obligations, if

any, which accrued under the Lease prior to the Commencement Date

37. MISCELLANEOUS.

A. Notices. Except as otherwise specifically provided in this Amended and Restated Lease any notice, consent, request, or approval required or permitted to be given under this Amended and Restated Lease shall be in writing and shall be deemed to have been given upon (i) hand delivery to the party's address, (ii) confirmed delivery

to

the party's address by any overnight courier service, or (iii) transmission by facsimile email or other electronic transmission with confirmation of receipt provided to sender, including automatic receipt of confirmation provided by email software, during regular business hours at the receiver's location, with a confirming copy sent by United States mail addressed as follows:

Except as otherwise provided herein, any notices or demands which are required by law or under the terms of this Agreement shall be given or made by LESSOR or TENANT in writing and shall be given by hand delivery or sent by certified or registered mail to the addresses listed below.

If to Lessor: GLP, LLC

Attn: Abraham Gallo PO
Box 111846
Anchorage, AK
99511

If to Tenant: New Guinness Inc

Attn: Kimberly
Gonzalez 18756 Price
Island Cir
Eagle River, AK
99577

or such other address as either party may from time to time specify in writing

to the other. Any notice, consent, request, or approval required or permitted to be given under this Amended and Restated Lease may be given by its attorney.

B. Rules and Regulations. Tenant shall observe faithfully and comply strictly with such rules and regulations as Lessor may from time to time reasonably adopt for the safety, care, and cleanliness of the Premises.

C. Integrated Agreement. This Amended and Restated Lease supersedes all or any other prior agreements and understandings between the parties and may not be changed or terminated orally. No amendment, modification, terminations, or attempted waiver of any of the provisions of this Amended and Restated Lease shall be binding unless in writing and signed by both parties.

D. Exhibits. Any and all exhibits referred to this Amended and Restated Lease are incorporated herein by reference.

E. Governing Law and Venue. This Amended and Restated Lease shall be construed and interpreted in accordance with the laws of the State of Alaska. Venue for purposes of this Amended and Restated Lease shall be in the Superior Court of the Third Judicial District, Anchorage, Alaska.

F. Costs and Attorneys' Fees. If either party commences an action against the other party arising out of or in connection with this Amended and Restated

Lease, the prevailing party shall be entitled to have and recover from the losing party reasonable actual attorney fees and costs of suit.

G. Amendments. No amendment, modification, terminations, or attempted waiver of any of the provisions of this Amended and Restated Lease shall be binding unless in writing and signed by the Parties. The parties further agree to make any amendments to the Amended and Restated Lease that are reasonably necessary to avoid failing to satisfy the requirements of local state, or federal guidelines regarding marijuana enforcement, as those guidelines and laws may be changed from time to time.

H. Construction of Agreement. All of the parties to this Amended and Restated Lease acknowledge that they have had the right to review this Amended and Restated Lease and all other documents, if any, relating to this Amended and

Restated Lease with their own attorney The general rule of contract interpretation of construing ambiguities in a written contract, if any, against the drafter, shall not apply

1. Recording. **Tenant shall not record this Amended and Restated Lease.** The parties may execute, acknowledge and deliver a Memorandum of Lease which the Lessor may record

J. Severability **The unenforceability and invalidity or illegality of any provision of this Amended and Restated Lease shall not render the other provisions unenforceable, invalid, or illegal.**

K. Binding Effect. **Subject to the restrictions on assignment set forth herein, this Amended and Restated Lease shall be binding upon and insure to the benefit of the parties, their successors and assigns.**

L. Authority of Signers. **The persons signing this Amended and Restated Lease on behalf of Lessor and Tenant agree and warrant that they have full authority to execute this Amended and Restated Lease on behalf of the respective parties.**

M. Counterparts. **This Amended and Restated Lease may be executed in multiple counterparts, each of which shall be deemed to be an original, but all of which taken together, shall constitute but one and the same instrument, which may be sufficiently evidenced by any one counterpart.**

SIGNATURE PAGES TO FOLLOW.

IN WITNESS WHEREOF, the parties hereto have executed this instrument the day and year first above set forth

☒ **New Application** ☐ **New Onsite Consumption Endorsement Application (Retail Only)**

AMCO has received a complete application for a marijuana establishment within your jurisdiction. This notice is required under 3 AAC 306.025(d)(2). Application documents will be sent to you separately via ZendTo.

To protest the approval of this application pursuant to 3 AAC 306.060, you must furnish the director **and** the applicant with a clear and concise written statement of reasons for the protest within 60 days of the date of this notice, and provide AMCO proof of service of the protest upon the applicant. If the protest is a “conditional protest” as defined in 3 AAC 306.060(d)(2) and the application otherwise meets all the criteria set forth by the regulations, the Marijuana Control Board may approve the license, but require the applicant to show to the board’s satisfaction that the requirements of the local government have been met before the director issues the license.

3 AAC 306.010, 3 AAC 306.080, and 3 AAC 306.250 provide that the board will deny an application for a new license if the board finds that the license is prohibited under AS 17.38 as a result of an ordinance or election conducted under AS 17.38 and 3 AAC 306.200, or when a local government protests an application on the grounds that the proposed licensed premises are located in a place within the local government where a local zoning ordinance prohibits the marijuana establishment, unless the local government has approved a variance from the local ordinance.

This application will be in front of the Marijuana Control Board at our **September 2nd-3rd, 2026**, meeting.

Sincerely,

A handwritten signature in black ink, appearing to read 'KR', with a horizontal line extending from the 'R'.

☒ New Application

☐ New Onsite Consumption Endorsement Application (Retail Only)

3 AAC 306.025(d)(3) and (4) requires that the Director shall provide written notice to a community council or any nonprofit organization that has requested notification about pending applications for marijuana licenses.

This letter serves to provide written notice to the above referenced entities regarding the above application (application documents will be sent separately via ZendTo).

To object to the approval of this application pursuant to 3 AAC 306.065, you must furnish the director and the applicant with a clear and concise written statement of reasons for the objection within 30 days of the date of this notice. We recommend that you contact the local government with jurisdiction over the proposed premises to share objections you may have about the application.

This application is scheduled to be considered by the Marijuana Control Board at its September 2nd-3rd, 2026 meeting.

If you have any questions, please send them to marijuana.licensing@alaska.gov.

Sincerely,

Kevin Richard, Director
