Crumble

Type:	Concentrate
Product Description:	Crumble has a similar appearance to wax except it is not as pliable and has a tendency to break apart - hence the term "crumble" - when touched. Crumble can vary in color due to strains used, but is typically a golden green-yellow color .
Packaging:	Crumble will be in a small 5ml beveled acrylic screw top container, containing no more than 1 gram of product, and then the container will be placed in a mylar bag - see exhibit A attached - that will contain the warnings, name of the product, and required 306.570 warnings.

Shatter

Type:	Concentrate
Product Description:	Shatter, depending on the strain of marijuana used, can be a smooth glass like texture that is hard and brittle, hence the term shatter. However, certain strains of marijuana create shatter that is more akin to spruce sap that has been on the bark of trees for few months, not quite solid but liquid enough to be pliable. Its often a dark amber color and sometimes light honey color - strain dependent.
Packaging:	Shatter will be in a small 5ml beveled acrylic screw top container, containing no more than 1 gram of product, and then the container will be placed in a mylar bag - see exhibit A attached - that will contain the warnings, name of the product, and required 306.570 warnings.
