

## Marijuana Curbside and Window Pickup FAQ

Question	Answer
<p>When does the allowance of curbside and window pickup end?</p> <p>What does “permanent” mean?</p> <p>Would these emergency regulations be permanent after COVID-19?</p> <p>Why are you making them permanent?</p>	<p>We understand this can be confusing. When the board passed its emergency regulations, it permitted curbside and window pickup to extend through the earlier of the end of the Governor’s suspension order or 120 days, the length of time emergency regulations can be effective. That 120 day deadline is March 23, 2021. If the public health emergency extends beyond March 23, 2021, the board would need permanent regulations to permit curbside and window pickup beyond that date. While those regulations are “permanent,” curbside and window pickup is not because a sunset date is built into the regulations. That is, once the public health emergency ends, curbside and window pickup ends. For now, know that curbside and window pickup is permitted through December 15, 2020. What happens after that date will be dependent on the action of the Governor or Legislature.</p>
