SUBMITTED TO THE HONORABLE SEAN PARNELL, GOVERNOR
THE HONORABLE SUSAN K. BELL, COMMISSIONER
MEMBERS OF THE ALASKA STATE LEGISLATURE

I am pleased to submit to you the annual report of the Alaska Division of Insurance, Department of Commerce, Community, and Economic Development, in accordance with AS 21.06.110. This 73rd Annual Report covers calendar year 2010 and fiscal year ending June 30, 2011.

The Division of Insurance provides the regulatory framework for insurance industry operations in Alaska and impacts consumers, agents, and insurance companies. The mission of the Division is threefold: to develop, interpret, and enforce the insurance statutes and regulations. To perform our somewhat diverse goals, the experienced, dedicated staff of the Division strives to ensure that the insurance market functions effectively.

The insurance industry faces challenges today, both nationally and in Alaska. Interpretation and implementation of the comprehensive health reform law has necessitated the use of great amounts of resources and coordination among the states. The Nonadmitted and Reinsurance Reform Act of 2010 also brings about changes in the way states both regulate and collect premium taxes on nonadmitted insurance policies written in Alaska. The creation of the Office of Consumer Information and Insurance Oversight brings the appearance of increased federal incursion into state regulation of insurance. International accounting systems are being discussed and the statutory accounting used in the United States is being challenged.

Locally, we continue to face the challenges of a small state in attracting insurance companies to enter the marketplace. Products in various lines of coverage ranging from workers' compensation and contractors general liability to homeowner's insurance and health insurance can be difficult to obtain due to a small number of companies writing business. We also continue to see escalating premiums in many areas, though we have seen some progress in the reduction of workers' compensation premiums. The small size of our insurance market and the geographic size of the state present challenges in attracting new providers to Alaska.

However, the reforms that have been instituted have made Alaska a more attractive place to do business and we have seen the entry of new companies into the Alaska market. In addition, the number of licensees in Alaska has increased dramatically over the last few years, indicating that the market is becoming more competitive.

We continue to be involved in many committees, task forces and working groups with the National Association of Insurance Commissioners (NAIC) working on varied issues from actuarial analysis and nonadmitted insurance tax allocation to agent licensing and state accreditation. Through national involvement we are able to communicate issues that impact Alaskans and have input into the policymaking decisions of the national organization.

We are proud of the accomplishments of staff and the positive effects the Division has on consumers and industry. We appreciate the support we receive from the administration, the department, and the Legislature. We pledge to continue our efforts to ensure that the Alaska insurance market functions in the best interest of Alaskans.

Respectfully submitted,

Linda S. Hall
Director

TAX CREDITS

- A tax credit is available for cash contributions for (1) direct instruction, research, and educational support purposes, including library and museum acquisitions, and contributions to endowment, by an Alaska university foundation or by a nonprofit, public or private, Alaska two-year or four-year college accredited by a regional accreditation association; (2) for secondary school level vocational education courses and programs by a school district in the state; and (3) by a state-operated vocational technical education and training school. The amount of the credit is determined by a formula, but may not exceed \$150,000 per year when combined with other credits taken. (AS 21.96.070)

- A tax credit is available for prequalified cash contributions for fire services programs made to the Alaska Fire Standards Council. The amount of the credit is determined by formula but may not exceed \$150,000 when combined with other credits taken and must be prequalified in writing by the director. The aggregate limit of prequalified contributions a year from all taxpayers is \$300,000. (AS 21.96.075)

- A tax offset is available for an insurer of 50% of CHIA assessments paid in the year prior to the current tax year with 2009 CHIA assessments offset against 2010 premiums. The offset may not reduce the premium tax payable to less than zero. An unused offset may be carried over to the immediately following calendar year. (AS 21.55.220)

LATE PAYMENT FEE

If a tax payment is late, a late payment fee will be assessed of \$50 per month plus five percent of the tax due per month up to a maximum of \$250 plus 25 percent of the tax due and interest of one percent per month. If payment is not received by the Automated Clearing House payment method, a penalty of 25 percent of the tax due will be assessed, with a minimum of \$100 and maximum of \$2,000.

II

Investigation Section

— Investigation Section —

The Investigation Section investigates areas of alleged fraudulent insurance activities. This includes the private citizen filing a fraudulent claim to the insurance company, medical providers submitting fraudulent billings to the insurance companies, insurance agents or companies violating a statute or regulation included in the State of Alaska insurance laws, and workers' compensation fraud.

The division is increasing public awareness that there is a designated section within the division which investigates all aspects of violation of the Alaska insurance laws, including claimant fraud, workers' compensation fraud, medical care provider fraud, an insurance company and agency fraud, etc. The investigators are available to conduct educational seminars and speak at professional meetings.

The Investigation Section's guidelines are defined within Alaska Statutes Title 21 and the workers' compensation guidelines are defined in Title 23. Alaska Statutes Title 21 Section 36 relates to trade practices and frauds. AS 21.36.360 defines fraudulent and criminal insurance acts. We also refer to Alaska Statutes Title 11, the criminal statutes, and make criminal referrals on any matters that are appropriate in addition to violations of the insurance statute.

As a tool to the investigators, we have direct access at computer terminals to valuable database information. These include the Federal Bureau of Investigation Nationwide Law Enforcement Telecommunication System (NLETS) with their own assigned Originating Agency Identifier (ORI) to contact all other law enforcement agencies nationwide. This database also provides access to the National Crime Information Center (NCIC). We are also directly connected to the Alaska Public Safety Information Network (APSIN), National Insurance Crime Bureau (NICB), National Association of Insurance Commissioners database (NAIC), State of Alaska Occupational Licensing database, and the State of Alaska Corporation Commission database.

The investigators liaison with all federal, state, and municipal law enforcement agencies on a regular basis.

The federal agencies include:

- Bureau of Alcohol, Tobacco & Firearms (Bankruptcy)
- FM Security
- Office of United States Trustee
- Federal Bureau of Investigations
- Immigration & Naturalization Service
- Internal Revenue Service
- National Marine Fisheries Service
- U.S. Postal Inspectors
- U.S. Air Force Office of Special Investigations
- U.S. Attorney's office
- U.S. Customs
- U.S. Marshall's office
- U.S. Army Criminal Investigation Division
- U.S. Secret Service

The state agencies include:

- Airport Police Investigations
- Alaska State Troopers
- Child Support Enforcement Division
- Consumer Protection
- Department of Labor Standards
- Department of Transportation

Permanent Fund Dividend Fraud Section
 Department of Motor Vehicles
 Department of Public Assistance
 District Attorney's Office
 Office of Special Prosecutions & Appeals
 Occupational Licensing
 State Court Systems statewide
 Welfare Fraud Section
 Medicaid Provider Fraud
 Health & Social Services Home Visit Investigations
 Department of Labor Fraud Investigations Unit
 Department of Labor Wage & Hour Administration

The municipal agencies include: Anchorage Fire Department Arson Investigation Anchorage Police Department Municipal police departments throughout the state. Each year the investigators attend the National White Collar Crime Center Conference, and the National Association of Insurance Commissioners AntiFraud Seminar. These conferences provide continuing education by discussing current crime trends, and provide the opportunity to meet counterparts both nationally and worldwide who can be contacted for assistance and share information. In most cases, with the various computer links available, we can contact each other electronically. Since Alaska usually experiences criminal schemes 4 to 5 years after they have been in effect elsewhere, it is of great value to learn what is happening, how and what works and may not or has not worked in conducting a particular investigation.

Consumer Services Section

— Consumer Services Section —

The overall goal for this section is timely and accurate complaint resolution for Alaska insurance consumers. Complaints and inquiries are initially received in person, by telephone, e-mail or written letters. Consumer Service Specialists investigate complaints, gather and evaluate data, research insurance laws, and take appropriate action to bring the complaint to a proper resolution.

Specialists report violations of the Alaska Insurance Code and negative industry trends to the director. Administrative actions such as license suspensions, revocations, market examinations and financial examinations may be undertaken as a result of a complaint investigation.

During the past year, Consumer Service Specialists resolved complaints that netted consumers additional benefit payments in excess of \$507,512.36 for Calendar Year 2010.

Licensing Section

— Licensing Section —

The Licensing Section oversees and administers the license and continuing education requirements for all persons seeking licensure in this state. The administration includes reviewing all documents received with regard to the license process to ensure that a person is competent, trustworthy, and qualified to obtain, renew, or amend a license. The section assists and provides information to licensees for obtaining and maintaining statutorily required licenses in compliance with statutes and regulations, with an emphasis on public protection. Recommendations are made to the director concerning possible license violations.

During the 2010 calendar year, the Licensing Section received 41,823 paper document submittals, which does not include requests to change a resident address, or terminate an individual in a firm's employment as these requests do not result in issuance of a new license.

**Actuarial, Filings
Review and Market
Regulation Section**

— Filings Review Section —

The section's insurance specialists monitor the rates and policy forms used by insurers in providing insurance coverage for Alaskans.

The statutory standard for reviewing insurance rates is that proposed rates must not be inadequate, excessive, or unfairly discriminatory. The rate review considers the company's ability to pay claims and ensures that the rates are not unfairly discriminatory to policyholders, while not impairing the competitive insurance market in Alaska.

The statutory standard for reviewing insurance policy forms is that the forms must not be ambiguous, misleading or in conflict with statute. Assuring adequate disclosure to the insured of his or her rights and responsibilities is an important part of the forms review process.

Filings which do not meet these standards are questioned and the insurer is given an opportunity to correct the deficiencies in the filing. Filings which are corrected by the insurer are approved or authorized for use; filings which are not corrected are disapproved or withdrawn.

Issues which arise from the review of form filings are used as an aid to detecting and preventing unfair discrimination and are used by the insurance analysts as part of market regulation to assist them in identifying and resolving deceptive market acts or practices.

| Status of rate and form filings for calendar year: | <u>2010</u> |
|---|--------------------|
| Approved | 1,240 |
| Authorized | 1,845 |
| Disapproved | 93 |
| Withdrawn | 451 |
| Other* | <u>478</u> |
| Total | 4,107 |

Insurance specialists are also involved in preparing consumer education materials such as the Auto Insurance Guide, the Homeowners Guide, the Medicare Supplement Insurance Rate Guide, the Workers' Compensation Rating Guide, and the Alaska Long-Term Care Insurance Consumer Guide.

*Many of the filings in the other category have been questioned and are pending responses from insurers to correct the deficiencies.

— Actuaries —

The division has two actuaries on staff; one property and casualty insurance actuary and one life and health insurance actuary. Actuaries are business professionals who analyze insurance risks such as the risk of having an auto accident or needing health care through the use of mathematics, statistics, and financial theory to estimate the potential financial impact of those risks.

The division actuaries use their training and skills to evaluate insurer reserves to assist the Financial Section in monitoring the solvency of Alaska's insurance industry. They also review the more technical rate filings for health insurance, workers compensation, and other property/casualty lines for compliance with Alaska's rating laws.

In addition to their actuarial responsibilities, the division actuaries supervise the filing review and market regulation functions in the division. The actuaries' other duties also include drafting insurance laws and regulations, analyzing state and federal laws that impact the business of insurance in Alaska, and assisting the director with expert testimony before the Legislature on insurance issues and legislation. They also participate on various task forces, committees and boards such as the Alaska Comprehensive Health Insurance Association, and the Workers Compensation Review and Advisory Committee.

— Market Regulation —

The goal of the market regulation function in the section is to protect consumers and to help maintain a stable insurance business environment. The section's insurance specialists monitor the Alaska "insurance market" for compliance with Alaska laws and regulations. All regulated entities including insurance producers, such as agents and brokers, independent adjusting firms, and insurers are monitored for compliance. If problems are identified, frequently through consumer complaints, various regulatory actions may be recommended to the director, such as targeted examinations or Market Analysis.

The Actuarial, Filings Review and Market Regulation section acts as a resource to other sections of the division by providing information and analysis relating to all types of insurance.

HIGH RISK HEALTH INSURANCE ASSOCIATIONS

ALASKA COMPREHENSIVE HEALTH INSURANCE ASSOCIATION (CHIA) (Individual)

ACHIA was established by the Legislature in 1992 to provide health insurance to Alaska residents who are unable to obtain health insurance in the private insurance market due to a health condition. In 1997, the eligibility requirements were modified to allow individuals who meet the federal rules for eligibility as established under the Health Insurance Portability and Accountability Act to obtain health insurance coverage through ACHIA. In 2003, the eligibility requirements were further expanded to allow individuals who meet the federal rules for eligibility under the Trade Adjustment Assistance Reform Act of 2002 to obtain health insurance coverage through ACHIA. ACHIA provides a valuable benefit to Alaskans by providing health insurance to those who would otherwise be without health insurance coverage.

As of December 31, 2010, there were 524 individuals covered under an ACHIA plan.

Beginning on August 1, 2010 the ACHIA-Fed plan became operational. The ACHIA-Fed plan was created to provide coverage to individuals with qualifying pre-existing health conditions who have been uninsured for at least 6 months pursuant to the Patient Protection and Affordable Care Act.

Detailed information about CHIA and ACHIA-Fed including eligibility requirements, premium rates, and application forms are available on the ACHIA website at www.achia.com.

ALASKA ADVISORY ORGANIZATIONS

Advisory Organizations are licensed by the division under AS 21.39.100 and are organizations of insurers that assist insurers and rating organizations in rate making by collecting and furnishing loss and loss expense statistics or by submitting recommended rates or loss costs to the division. Advisory organizations include entities referred to elsewhere as statistical agents. Advisory organizations do not make filings on behalf of insurers.

ALASKA RESIDUAL MARKET FACILITIES

WHY DO WE HAVE RESIDUAL MARKET FACILITIES?

Residual market facilities exist to provide a mechanism of last resort to help members of the public who need essential insurance coverage, but cannot otherwise obtain it. Operating under a variety of organizational formats and names—risk apportionment plans, shared market facilities, joint underwriting associations, and assigned risk plans—residual market mechanisms are active in every state. These mechanisms may operate under the sponsorship of federal and state governments or as voluntary associations of insurance companies.

One of the most common uses of residual market mechanisms is to support financial responsibility and mandatory insurance laws. Alaska statutes require that every employer be financially responsible for the payment of workers' compensation benefits to injured employees. State law also requires that all drivers and vehicle owners be financially responsible for damages resulting from the operation of automobiles. The Workers' Compensation Assigned Risk Plan and The Alaska Automobile Plan are available to help Alaskans meet these legal obligations.

All Alaska licensed insurers that write automobile insurance, other than reciprocal insurers insuring only municipalities and nonprofit utilities, are required to participate in the automobile insurance residual market mechanism.

All Alaska licensed insurers that write workers' compensation, other than reciprocal insurers, are required to participate in the workers' compensation residual market mechanism.

AUTOMOBILE INSURANCE

The Alaska Automobile Plan (plan), the automobile assigned risk mechanism, is intended for vehicle owners and operators who cannot obtain insurance on a voluntary basis. AIPSO, a nonprofit management organization specializing in working with groups or agencies responsible for residual market mechanisms, administers the Plan. AIPSO works with automobile facilities in 49 states plus the District of Columbia.

Organizations or individuals seeking coverage through the Plan may use the services of a licensed property/casualty insurance producer or may apply directly to AIPSO for assignment to an insurer writing personal automobile insurance in Alaska. Processing of new applications, endorsements, and cancellations for private passenger non-fleet risks has been centralized through the establishment of The Alaska Automobile Insurance Plan Service Center. Applicants are distributed among all insurers writing personal automobile insurance in Alaska based upon the same proportion that the insurer's voluntary private passenger business bears to the statewide total voluntary private passenger business of all companies in the state.

Commercial automobile insurance is organized under a Servicing Carrier Program. Insurers that are interested in being a commercial servicing carrier must meet certain financial standards and demonstrate their ability to provide adequate service to the assigned risk policyholders. Currently, all Alaska commercial automobile assigned risk business is handled by Progressive Casualty Insurance Company.

WORKERS' COMPENSATION INSURANCE

Alaska's workers' compensation pool is administered by the National Council on Compensation Insurance, Incorporated (NCCI). NCCI provides administrative services to assigned risk mechanisms in 33 states.

Employers that have been declined coverage by two non-affiliated insurers may obtain coverage in the Workers' Compensation Assigned Risk Plan. Employers eligible for coverage in the plan may use the services of a licensed property/casualty insurance producer or apply directly to the plan for coverage.

Like the commercial automobile plan, workers' compensation assigned risk applicants are assigned to servicing carriers. The servicing carrier is an insurer that has volunteered to service assigned risk policies by providing claims handling and other policyholder related services to Alaskan employers. Insurers that are interested in being servicing carriers must meet certain financial standards and demonstrate their ability to provide adequate service to the assigned risk policyholders. Alaska National Insurance Company, Liberty Northwest Insurance Corporation, and Umialik Insurance Company are the servicing carriers for the assigned risk market. These three insurers will be the workers' compensation servicing carriers through 2011.

Beginning January 1, 2012 through December 31, 2014, the servicing carriers will be Alaska National Insurance Company, LM Insurance Corporation, and Travelers Property Casualty Company of America.

In addition to the three servicing carriers, one insurer, American Interstate Insurance Company, participates in the residual market as a direct assignment carrier. A direct assignment carrier is assigned policies from the pool in proportion to the insurer's percent of its voluntary market business. The direct assignment carrier bears the full experience, profit or loss, related to the policies assigned to it.

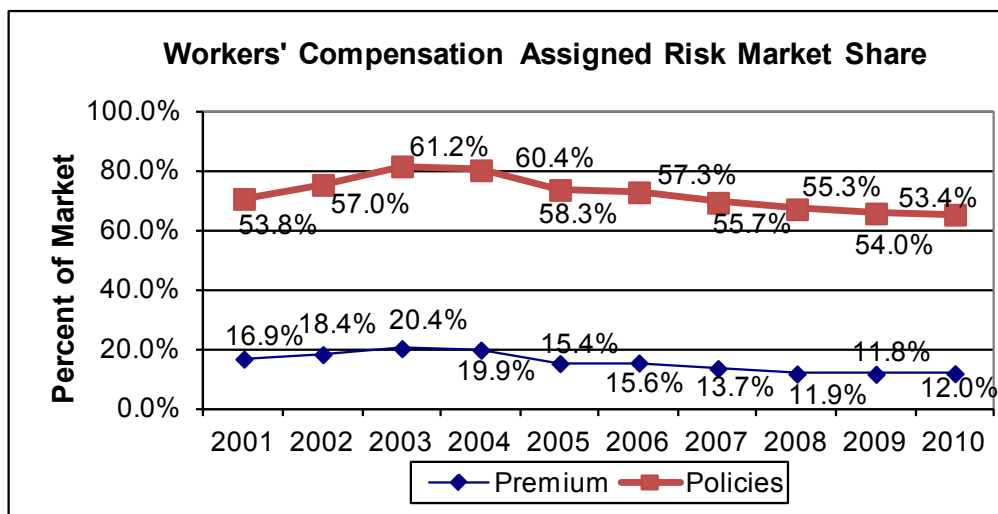

All other insurers, that are not direct assignment carriers, participate in the workers' compensation pool by being assigned a percentage of the pool experience, profit or loss, based upon the insurer's voluntary market share.

ASSIGNED RISK MECHANISM USE

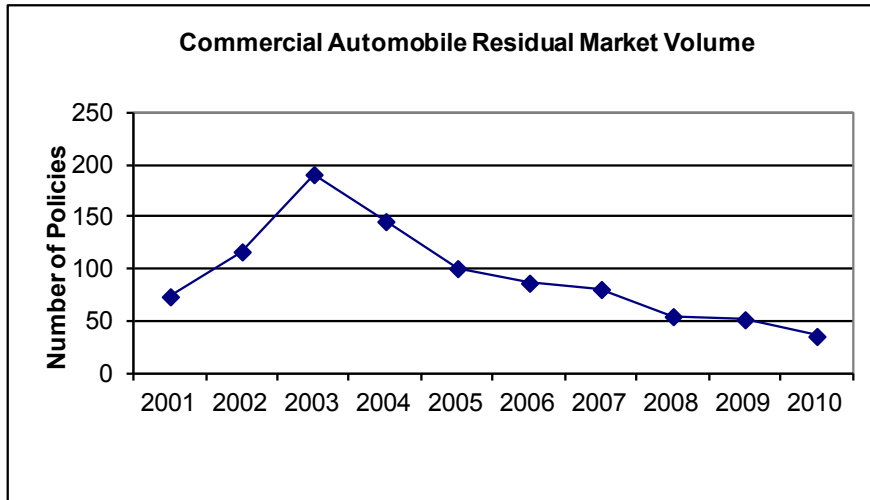

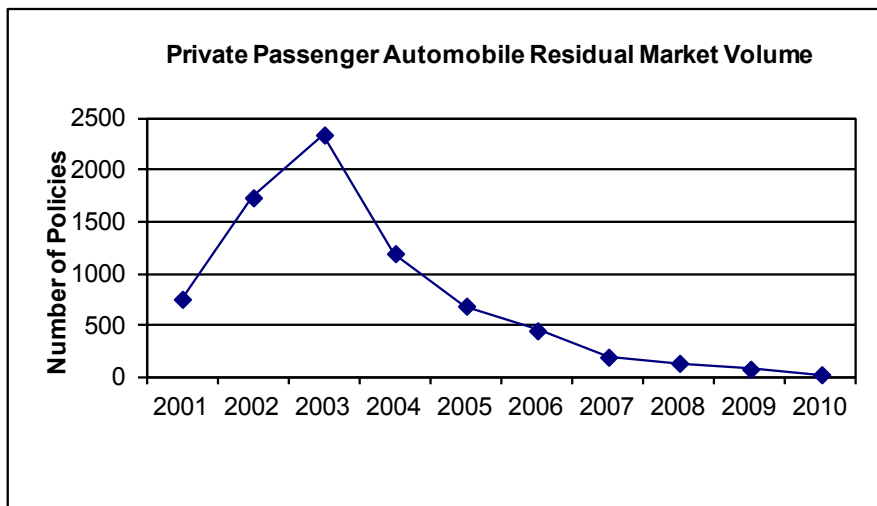

The level of residual market use can vary widely. The need for policyholders to obtain coverage in a residual market may depend on the competitive environment of Alaska's insurance market, economic conditions, and changes to Alaska's laws that affect coverage or mandatory insurance requirements.

For 2010, the workers' compensation residual market had 7,912 policyholders and \$27.9 million in premium. This is approximately 12.0% of all workers' compensation premium and 53.4% of the total number of workers' compensation policies written in Alaska in 2010. Of these 7,912 policies, 5,726 have premiums less than \$2,500.

The number of policies in the residual market peaked at 61.2% of all workers' compensation policies written in 2003 and has gradually decreased since that time and has been relatively constant over the last three years. The premium volume in the residual market was at its highest in 2003 when the number of policies was also at its highest over the last ten years and has decreased since then remaining constant at about 12.0% of the total workers' compensation premium written in Alaska for 2008 – 2010.

The number of policies written in both the private passenger and commercial automobile plans continued to decrease in 2010. In 2010, there were 31 policies in the private passenger plan and 36 policies in the commercial automobile pool. This is a decrease of 63% for the private passenger plan over the 2009 volume and a 31% decrease for the commercial automobile pool. Over the last 19 years, pool volume was at its highest in 1993 with 4,554 private passenger policies and 958 commercial auto policies. The decline in the number of policies written in the automobile residual market is due, at least in part, to more insurers creating rating plans that can accommodate higher risk policyholders.

Financial Section

— Financial Examination Section —

The responsibility of the Financial Examination Section is to enforce statutes and regulations on financial matters and conduct financial examinations of insurance companies and agencies.

The Financial Examination Section conducts examinations of insurance companies and insurance agencies to determine that requirements of Alaska insurance law on financial matters are being met. These examinations are in the areas of financial condition of insurance companies and the handling of premiums by agencies. The section also conducts ongoing financial analysis of insurance companies that operate in Alaska to monitor financial condition on an interim basis. Such analysis is used internally to determine the need for action such as examination or suspension of a certificate of authority.

The section is responsible for issuing certificates of authority to domestic insurers and to insurance companies who wish to be admitted to do business in the State of Alaska. In addition, other applications reviewed by the section are risk retention group registrations, accredited reinsurer applications, and automobile service corporation applications.

The section reviews certain transactions proposed by insurance companies to determine if they should be disapproved. These include transactions resulting in change of ownership, material sale of assets, change in reinsurance agreements, transactions between subsidiaries, and extraordinary dividends.

The section assists in the regulation of the insurance industry by recommending appropriate action against violators of the Alaska insurance laws and regulations and by proposing changes to statute and regulation where necessary for protection of the public.

— Financial Reports and Audits Section —

The Financial Reports and Audits Section enforces statutes and regulations on tax and surplus lines, and collects premium tax revenue for the state.

The section not only reviews applications from insurers of surplus lines and risk purchasing groups that wish to do business in Alaska, but it also conducts annual financial analysis to determine the financial condition of these entities. The section may participate in financial or premium tax examinations of admitted insurers or licensees. The section also monitors transactions of surplus lines brokers to ensure compliance with Alaska statutes and regulations, and proper payment of premium taxes and fees.

The Financial Reports and Audits Section also collects premium taxes and fees. Audited reports include all annual and quarterly tax reports from insurance companies, risk retention groups and surplus lines brokers. Penalties for late filings and payments are imposed and collected.

The section monitors the insurance industry and recommends appropriate action against violators of Alaska insurance laws and regulations. Proposing necessary changes to statutes and regulations for the cultivation of a healthy marketplace and protection of the public is a primary focus.

1. The information contained in the Statistical & Financial Data reports is based on calendar year data. It should not be used to make determinations about the adequacy or excessiveness of insurance premiums because:

- a. Calendar year data does not match losses with the premiums used to pay the losses. In any calendar year, some of the losses incurred by an insurer in that calendar year will be from policies that were issued in prior years.
- b. Incurred loss data includes only amounts that an insurer pays as losses for items such as medical treatment and repairing or replacing damaged property. Loss data in these exhibits does not include other costs associated with settling claims such as attorney fees and adjusting costs. The loss data also does not include an insurer's operating expenses.

2. Health business detail and market share are located on pages 76-78.
