ORDER NUMBER R 08-03

January 15, 2008

**ORDER REGARDING THE CREATION OF AN ALASKA STATE
SPECIAL WORKERS' COMPENSATION CLASSIFICATION CODE**

BACKGROUND:

In case number OAH No. 06-0641-INS, Division No. H06-05, on January 9, 2008, I issued an Order on Proposed Decision that adopted a decision of the administrative law judge recommending that silviculture operations should not be included in the logging or lumbering workers' compensation insurance classification.

IT IS HEREBY ORDERED:

Under the authority of AS 21.30.090, the National Council on Compensation Insurance (NCCI) is directed to create a new Alaska State Special Classification Code 0124 Reforestation utilizing the Oregon, Idaho, and Montana descriptions and adding commercial pre-thinning. The new classification may not be assigned to a risk engaged in other logging activities described by another logging classification. Therefore, Rule 1-D.3, Assignment of More Than One Basic Classification, and Rule 1-G, Interchange of Labor, are not applicable to risks that engage in both silviculture and other logging activities.

The filing of this new Alaska classification with the director must be made no later than March 15, 2008.

This order is effective January 15, 2008.

Linda S. Hall
Director
