State Regulators Announce Launch of "NMLS Consumer Access"

(Anchorage, AK) – The State's Department of Commerce, Community and Economic Development Division of Banking and Securities is pleased to announce today the Nationwide Mortgage Licensing System & Registry (NMLS)—a mortgage licensing system operated by state financial regulators, including Alaska—is launching "NMLS Consumer Access." NMLS Consumer Access is a fully searchable website that allows the public to view information concerning state-licensed mortgage companies, branches, and individuals currently licensed through NMLS.

The goal of NMLS Consumer Access is to provide homebuyers and the general public with greater information regarding state licensed companies and professionals in the mortgage industry. NMLS Consumer Access will benefit consumers by providing consumers a single location to access standardized information regarding their mortgage provider, regardless of the state in which they operate.

"The launch of NMLS Consumer Access shows, once again, the commitment of state financial supervisors to protect consumers," said Patrice Walsh, Consumer Finance Chief Examiner. Ms. Walsh continued, "States have long been regarded as leaders in the consumer protection arena. NMLS Consumer Access provides an innovative method for consumers to research prospective mortgage companies or providers."

State regulators, through the Conference of State Bank Supervisors and the American Association of Residential Mortgage Regulators, launched NMLS in January 2008. To date, 45 states and territories—including Alaska license mortgage companies, branches and individuals through the system. The licensees apply for their licenses and register through the

NMLS database , but the state still approves and issues the licenses. All 54 states and territories are expected to be on NMLS by the end of 2010.

“During development of NMLS,” Walsh continued, “one of the goals put forth by state regulators was to provide a central source of information that promotes transparency throughout the states. I see NMLS Consumer Access as a critical tool to protecting the consumers in Alaska.”

In addition, Title V of the Housing and Economic Recovery Act of 2008, the SAFE Act, mandates that NMLS provide consumers with easily accessible information, offered at no charge, regarding the employment history of state licensed and federally registered mortgage loan originators.

“NMLS is successfully combining the objectives of state regulators with the mandates of the SAFE Act by launching NMLS Consumer Access,” Walsh concluded.
