| Fire Protection | 1 Comity 2 G'fathr |
| Industrial | 1 G'fathr |
| Surveyors | 1 Comity 1 Exam |

Fascinating Facts from the Field

Possibly one of the best known characters in land surveying history was Napoleon Bonaparte – who was very enthusiastic about accurate land surveying. He always ensured that he had very precise maps, which were obviously very important when he was trying to conquer the world. He had maps produced that were drawn down to scale both at 1:2500 and 1:1250.

The cyberecture egg building is situated in Mumbai, India. It is a 32,000 sq. meter egg-shaped building that will combine iconic architecture, environmental design, intelligent systems, and new engineering to create an awe-inspiring landmark in the city. In addition to its great design it has been said that the bathrooms will monitor workers health by measuring weight and blood pressure. And a doctor will be alerted to any drastic changes.
