Sec. 08.36.234. Licensure by credentials. (a) The board may waive the examination requirement and license by credentials if the dentist applicant meets the requirements of AS 08.36.110, submits proof of continued competence as required by regulation, pays the required fee, and has
   (1) an active license from a board of dental examiners established under the laws of a state or territory of the United States issued after thorough examination; or
   (2) passed an examination as specified by the board in regulations.
   (b) A dentist applying for licensure without examination is responsible for providing to the board all materials required by the board to implement this section to establish eligibility for a license without examination. In addition to the grounds for revocation of a license under AS 08.36.315, the board may revoke a license issued without examination upon evidence of misinformation or substantial omission.
   (c) The board shall adopt regulations necessary to implement this section including the form and manner of certification of qualifications under this section.
   (d) A dentist applying for licensure without examination shall be interviewed in person by the board or by a member of the board before a license is issued. The interview must be recorded. If the application is denied on the basis of the interview, the denial shall be stated in writing, with the reasons for it, and the record shall be preserved.

Sec. 08.36.238. Exemption from license requirement. (a) A person enrolled as a student in an accredited school of dentistry may perform procedures as part of a course of study without a license if
   (1) the procedures are performed under the direct supervision of a member of the faculty who is licensed under this chapter, or under the direct supervision of a team of licensed faculty dentists, at least one of whom is licensed under this chapter; and
   (2) the clinical program has received written approval from the board.
   (b) A person practicing dentistry under (a) of this section is subject to all other provisions of this chapter and to other laws and regulations which apply to the practice of dentistry.

Sec. 08.36.240. Issuance and display of license. The board shall issue a license to each successful dentist applicant who has paid the required fees. The licensee shall display the license in a conspicuous place where the licensee practices.

Sec. 08.36.250. License renewal, lapse, and reinstatement. (a) At least 60 days before expiration of a license issued under this chapter, the department shall notify the licensed dentist. A licensee who wishes to renew a license shall submit a completed license renewal form, the appropriate fee, and evidence of continued professional competence as required by the board. The department shall, as soon as practicable, issue a new license valid for a stated number of years. Failure to receive notification from the department under this subsection does not exempt a licensee from renewing a license to practice dentistry under this chapter.
   (b) When applying for license renewal, a dentist shall report to the board each instance during the prior registration period in which the quality of the licensee’s professional services was the subject of legal action.
   (c) A licensed dentist who does not pay the license renewal fee forfeits the dentist’s license. The board may reinstate the license without examination within two years after the date on which payment was due upon written application, proof of continued professional competence, and payment of all unpaid renewal fees and any penalty fee established under AS 08.01.100(b).

Sec. 08.36.254. Temporary permit to substitute for an incapacitated dentist. (a) The board may issue a temporary permit to practice dentistry to a dentist for the purpose of substituting for an incapacitated dentist licensed in this state.

      (1) hold an active license from a board of dental examiners established under the laws of a state or territory of the United States issued after thorough examination;
      (2) pay the required fee; and
      (3) meet other qualifications for a temporary permit established by regulation.
(c) A temporary permit issued under this section is valid only to treat patients of the incapacitated dentist at an address listed on the business license of the incapacitated dentist.

(d) The fee for a permit issued under this section is one-fourth of the fee for a biennial license plus the appropriate application fee.

(e) The board may not issue a temporary permit under this section if another dentist licensed under this chapter may reasonably substitute for the incapacitated dentist.

(f) A temporary permit issued under this section is initially valid for 90 consecutive calendar days. Upon request of a permittee, the board shall extend a permit issued under this section for 60 calendar days if, before the expiration of the initial 90-day permit, the permittee submits to the board a completed application form and the fee required under this chapter, except that the board may refuse to grant a request for an extension for the same reasons the board may revoke a license under AS 08.36.315. Permits and extensions of permits issued to a permittee under this section are not valid for more than 240 calendar days during any consecutive 24 months.

(g) The board may extend a permit issued under this section for a period that exceeds the limit established in (f) of this section if the board determines that the extension is necessary to provide essential dental services and the board has received a clearance report from the

If the permit holder provides anesthesia or sedation in more than one office, the permit holder must choose one office for the inspection and provide an attestation that all the same inspection standards have been met in each office where anesthesia or sedation is provided.
(b) Organizations approved by the board to perform an on-site inspection of a dental office where anesthesia or sedation is provided include:
