Edward A. Hall, Physician Assistant	William W. Resinger, MD
Kathleen Millar, Public Member	Michael J. Tauriainen, Public Member

Board staff present:

Visitors present:

Agenda Item 1 Review Agenda

The Board reviewed the agenda. Ms. Stovern noted that agenda was planned with some flexibility to accommodate additional time that may be required to complete board business.

Agenda Item 2 Board Business

Announcements

The Chair welcomed visitors to Fairbanks and confirmed that all had received packets from the Fairbanks Convention and Visitors Bureau.

Ethics Reporting

There were no ethics conflicts to report.

Dr. Miller reported that his wife does business with the law firm involved in one of the cases before the board. Although he did not believe that relationship to constitute an ethics conflict, he wanted it noted for the record. The Chair determined that the relationship did not constitute an ethics conflict.

Agenda Item 3 Board Review of Proposed Decision by Hearing Officer

In the Matter of Erik P. Kohler, MD

OAH Case #10-0635-MED, Board Case #2800-08-002

Christopher Kennedy, representing the Office of Administrative Hearings, was in attendance to present his proposed decision after a hearing. Assistant Attorney General Dave Jones, legal counsel to the Board, was present to assist with any legal or procedural questions.

The Proposed Decision, along with the Respondent's Proposal for Action and the Division's Proposal for Action, were included in the Board packet for review. Ms. Stovern confirmed that all Board members had received additional evidentiary information provided by the hearing office after the decision had been distributed.

The Chair reported receiving information (OAH Opinion No. 2011-01) from the Office of Administrative Hearings regarding hearing officer participation in executive sessions and avoiding the appearance of impropriety. It was noted that the Alaska State Medical Board generally prefers to have their Executive Administrator and legal counsel attend executive sessions to assist with clerical functions and procedural matters.

Ms. Stovern reported that organizational structure of the State Medical Board was different from the boards referenced in the opinion, that she does not have supervisory authority over investigative functions, does not have access to investigative files or activities, and is not privy to any ex parte information that could be inadvertently communicated to the board. Mr. Jones did not have any conflict to prevent his participation on the matter. It was noted that, were they to attend an executive session, there would be no ethics violation and no appearance of impropriety.

Mr. Kennedy stated that he had been instructed by his supervisor to decline participation in any executive session that included anyone other than the members of the Board.

Upon a motion duly made by Dr. Miller, seconded by Dr. Powers, and approved unanimously, it was:

RESOLVED to enter into executive session in accordance with AS 44.62.310(c) for the purpose of discussing the proposed decision of the hearing officer.

The Board entered executive session at 9:14 a.m.; no staff or other participants remained for the session. The Board went back on the record at 10:26 a.m.

Upon a motion duly made by Dr. Powers, seconded by Mr. Tauriainen, and approved by roll call vote, it was:

RESOLVED to select Non-adoption Option B of the proposed decision and order by the Hearing Officer, Case No. OAH-10-0635-MED. The Alaska State Medical Board, in accordance with AS 44.64.060(e)(3), revises the enforcement action, determination of best interest, order, award, remedy, sanction, penalty, or other disposition of the case as follows:

As a condition of his license to practice medicine in Alaska, Dr. Kohler shall conduct no surgery in which the operative instruments are visualized by fluoroscopy unless he does so in the presence of and under the direction of a surgeon or radiologist licensed to practice medicine in this state who is experienced in the surgery being performed.

Additionally, to address documentation issues, all charts of operative patients will be subject to peer review, with results forwarded to the board on a quarterly basis.

Dr. Kohler may petition the board for modification or cancellation of these restrictions one year or more from the date of adoption of this order. Any such petition must detail any steps Dr. Kohler has taken to improve his competency in relevant techniques, and must propose a means by which his competency can be tested or demonstrated, at his expense, to the satisfaction of the board.

Ms. Millar – Yea

Upon a motion duly made by Mr. Hall, seconded by Ms. Millar, and approved unanimously, it was:

RESOLVED to accept the malpractice reports with no further action.

The Board directed Ms. Stovern to express their concern regarding standard of care issues in two of the reports (Case No. CV-00258-JWS and Case No. N/A). They also requested that the reporting form require typed responses, as there has been difficulty in reading and reviewing some of the reports.

Agenda Item 5 Board Actions

In the Matter of Case No. 2011-00367 – Tab D

The Board reviewed the proposed consent agreement from an investigation of a licensee's failure to disclose investigation information on a renewal application. The agreement included a reprimand and fine of \$1000. Dr. Resinger recused himself from the vote because he was the consulting Board member during the investigation.

Upon a motion duly made by Mr. Hall seconded by Dr. Cullen, and approved unanimously, it was:

RESOLVED to adopt the consent agreement, Case No. 2011-000367, signed by Meyer Proler, MD.

The Board noted that the "Compliance with Laws" section relates to his fitness to practice and licensing requirements, instead of the previous general compliance requirements.

The adoption order was signed by the Chair.

In the Matter of Case No. 2011-00294 – Tab E

The Board reviewed the proposed consent agreement from an investigation of a licensee's failure to disclose alcohol and conviction issues on a renewal application and for alcohol issues not related to his practice. The agreement included probation to monitor his progress and a requirement for permanent total abstinence.

Dr. Resinger reported that he knows this doctor but does not believe it would affect his ability to vote on the matter; the Chair determined that the relationship did not constitute an ethics conflict.

Upon a motion duly made by Dr. Cullen, seconded by Dr. Resinger, and approved unanimously, it was:

RESOLVED to enter into executive session in accordance with AS 44.62.310(c) for the purpose of discussing Case #2011-000294.

The Board reviewed a proposed agreement from an investigation of a licensee's nondisclosure of license information on an application for a locum tenens permit. The agreement included an imposition of civil fine of \$1,000. Based on the applicant's signature on the agreement, Dr. Tsigonis had approved issuance of the permit; she also recused herself from the vote because she was the consulting Board member during the investigation.

Mr. Tauriainen stated that he would be voting against adoption of the agreement because he objected to imposing fines for paperwork issues that have nothing to do with the safety of the public. Other members noted that the Board already allows an applicant to overlook two states of licensure, that applications are signed under penalty of perjury, and that the Board had recently instituted this fine option as a reasonable compromise.

Upon a motion duly made by Dr. Cullen, seconded by Dr. Resinger, and approved by roll call vote, it was:

Agenda Item 16 Correspondence

Prescription drug monitoring program

The Board reviewed a letter from the Division Investigative Unit regarding a new program to monitor controlled substances.

Medical assistant requirements

The Board reviewed a letter from Southeast Alaska Regional Health Consortium requesting guidance on the scope of practice for medical assistants (MAs). They determined that MAs are unlicensed assistive personnel that perform office and clinical functions, but the Board does not monitor or license them and there is no provision for physician supervisors to delegate clinical duties under their scope of practice. They noted that scope of practice is defined in statute and those who employ MAs are advised to be familiar with the requirements and comply with them. Ms. Stovern will respond to their letter.

Parental consent law

The Board reviewed a draft letter provided by the Alaska Family Council; they are proposing that the Board send a letter to licensees regarding abortion notice requirements. The Board had previously advised them that Ms. Stovern would be available to assist them in drafting a letter and providing a mailing list so they are able to send notice to appropriate practitioners. They suggested that the preliminary draft be simplified. Ms. Stovern will assist them with their letter.

Ms. Stovern distributed the Federation of State Medical Boards (FSMB) 2011 Annual Report for review.

Petitions to change conditions of disciplinary agreements

At their October meetings, the Board typically conducts in-person interviews with licensees on probation. Ms. Stovern recommended a similar schedule for Board review of petitions to change conditions or petitions for release from disciplinary agreements. The Board determined the new procedure as follows: All such petitions will be heard annually at the regularly-scheduled October Board meeting. Petitioners may submit a written request for consideration at any regularly-scheduled Board meeting. Upon review of the request the Board will determine whether they will hear the request at their October meeting, and whether additional information is required.
