FE:	11 retakes, 11 postponements
FLS:	3 retakes, 1 postponement

## Interesting Statistic

The following statistics for Alaska were provided to NCEES at NCEES' request, and we found them to be interesting:

### Engineers:

Resident 1867  
Nonresident 2024

### Land Surveyors:

Resident 456  
Nonresident 151

### Dual Licensees

### Engineers & Land Surveyors:

Resident 119  
Nonresident 22

## Web site Enhancements

A common question we receive is "How do I postpone my exam? Is there a form?" We have added a form to our web site entitled "Exam Postponement Request" that applicants can fill out on line, print, and mail in with the \$25 postponement fee. There is a link to the exam schedule from this form so applicants will know the next exam they will automatically be scheduled for. The availability of this form will be mentioned in the FAQs as well. We welcome any suggestions for improvement of the AELS web site.

## **L.A.R.E. Reviews/June Exams**

Of the five examinees who took the December L.A.R.E., all but one requested redline reviews of the failed sections. Linda proctored exam reviews in Anchorage as follows:

- Section C – 3 reviews
- Section E – 1 review

Pat proctored the Fairbanks examinee requesting a redline review of Sections C & E.

For the June L.A.R.E. we have decided to offer the exam in Juneau and Anchorage only as there is only one Fairbanks candidate and the cost of reserving a room and hiring a proctor for 3 days for one exam candidate was too high. The following are scheduled for the June L.A.R.E.:

- Section A – 3
- Section B – 3
- Section C – 4
- Section D – 3
- Section E - 3
